

Expression densities for CD235ab_CD61 with automated cutoff

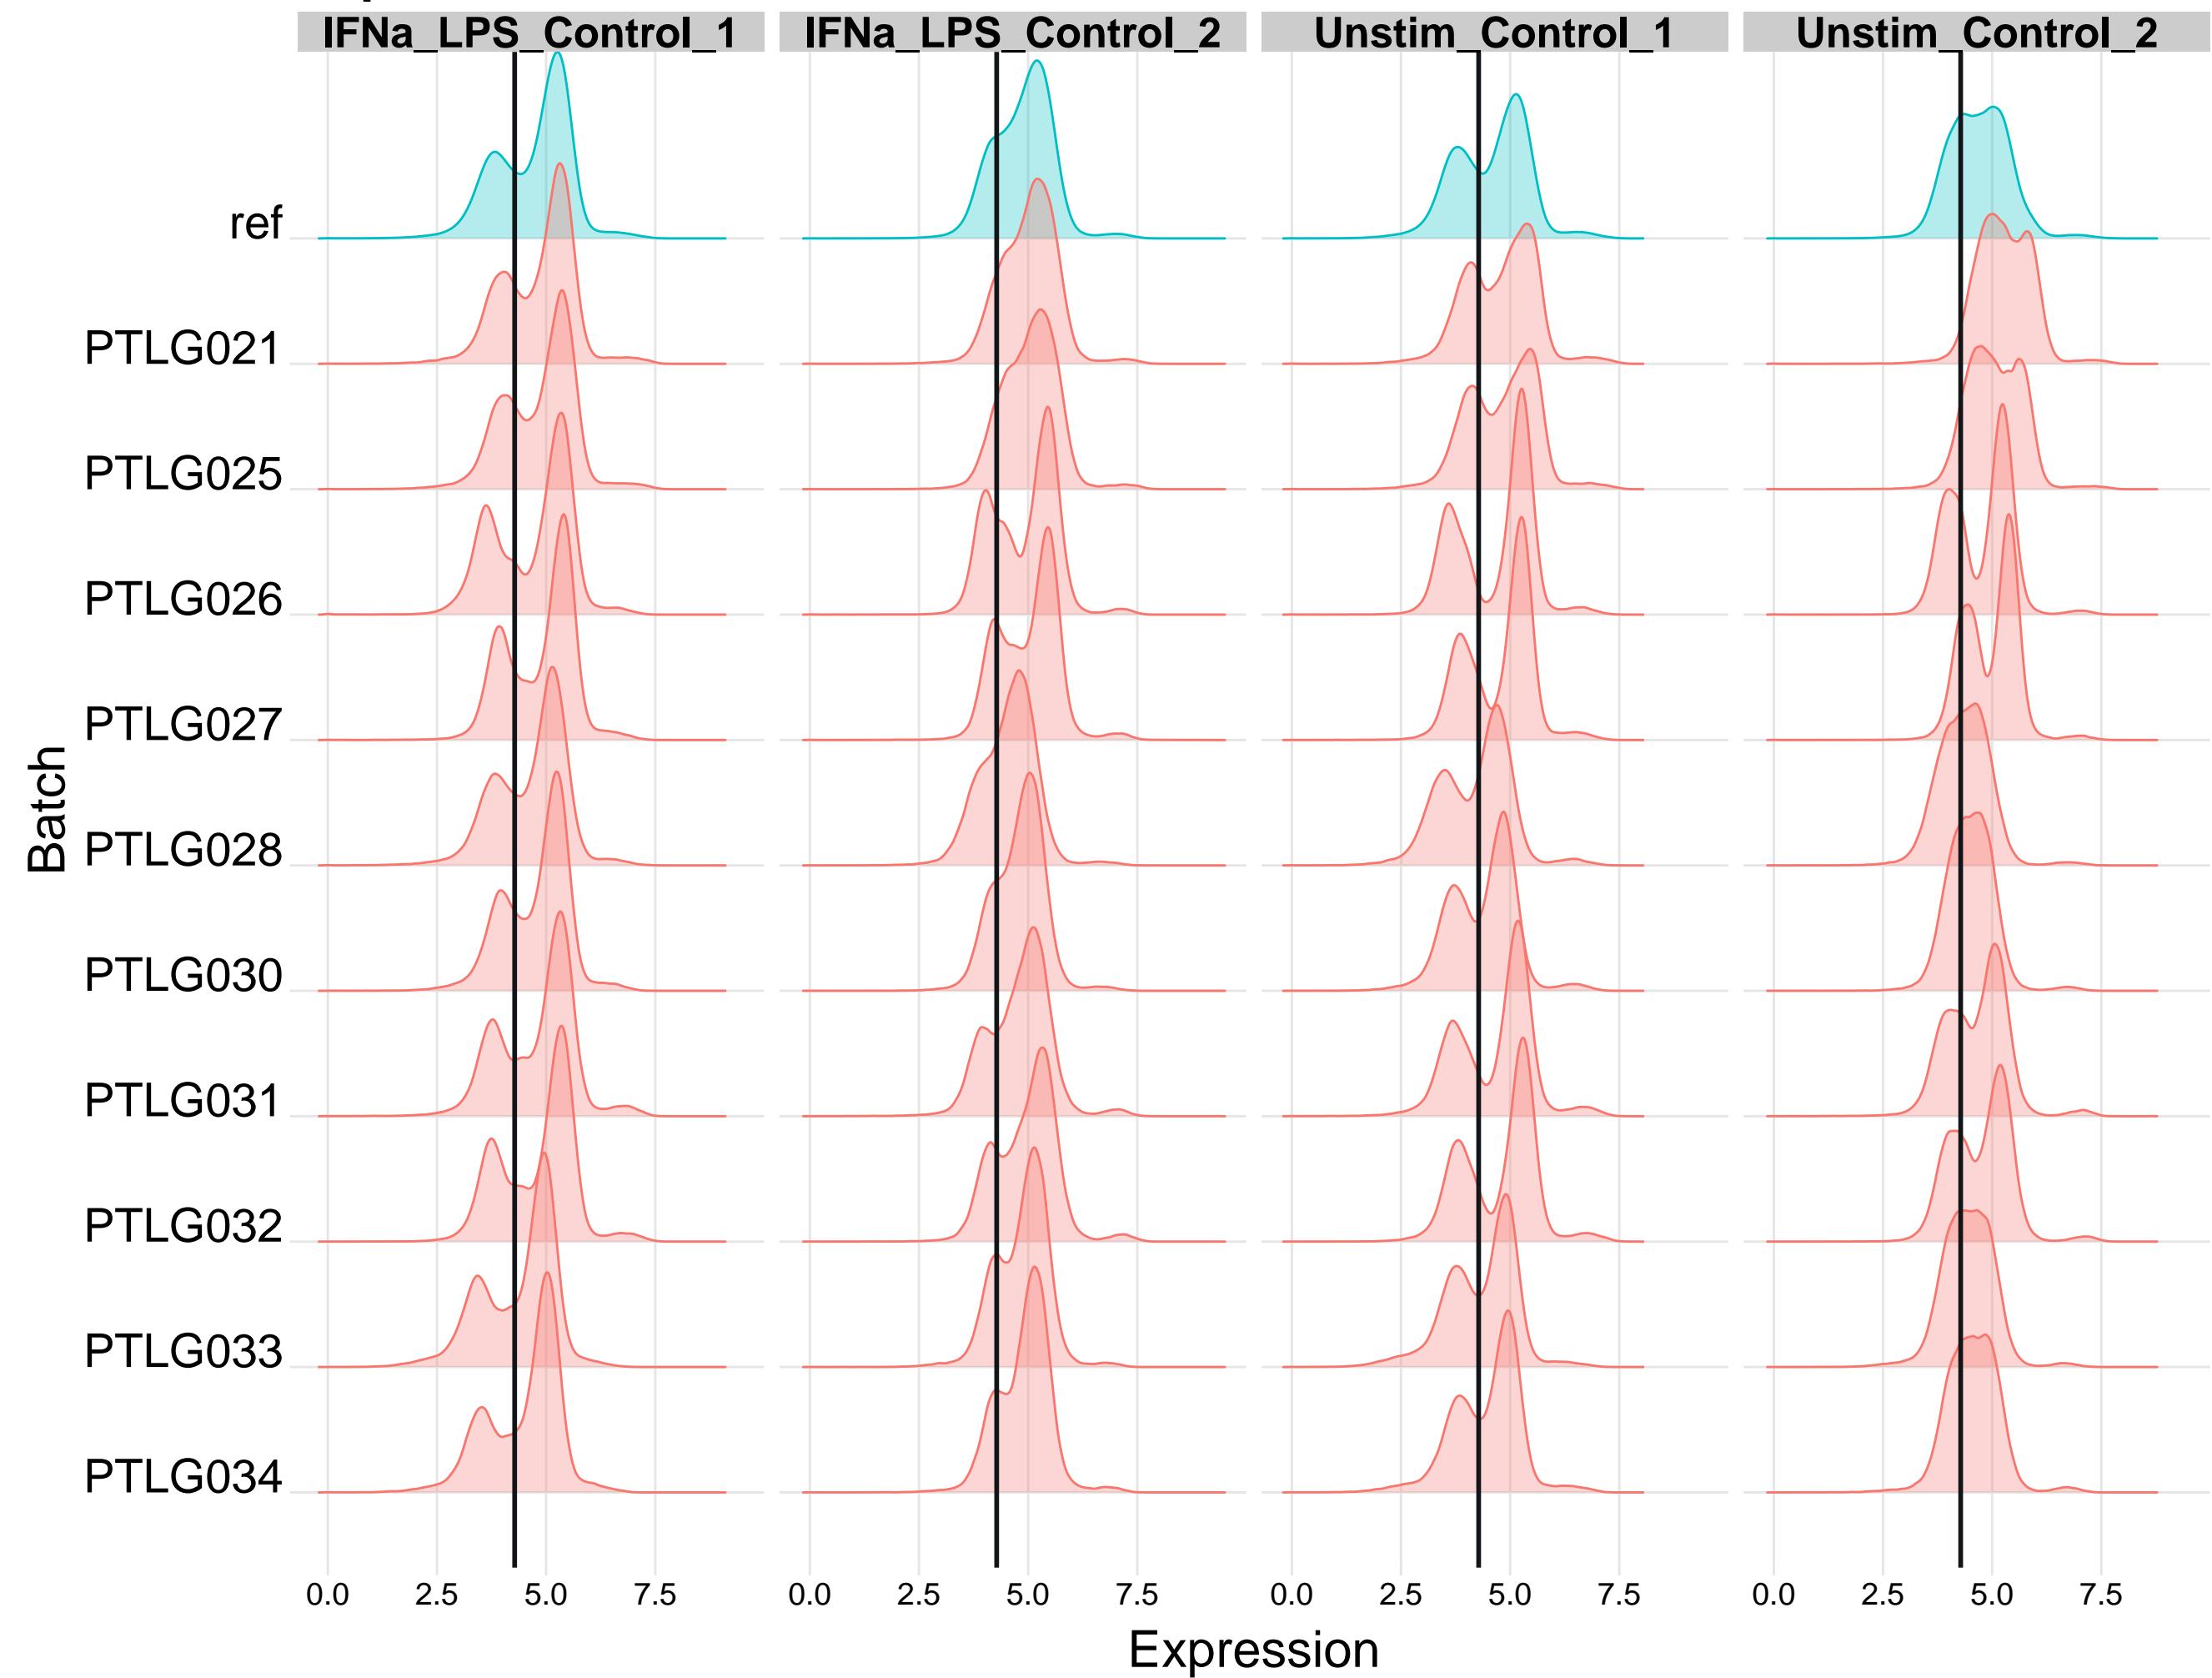

Expression densities for CD66 with automated cutoff

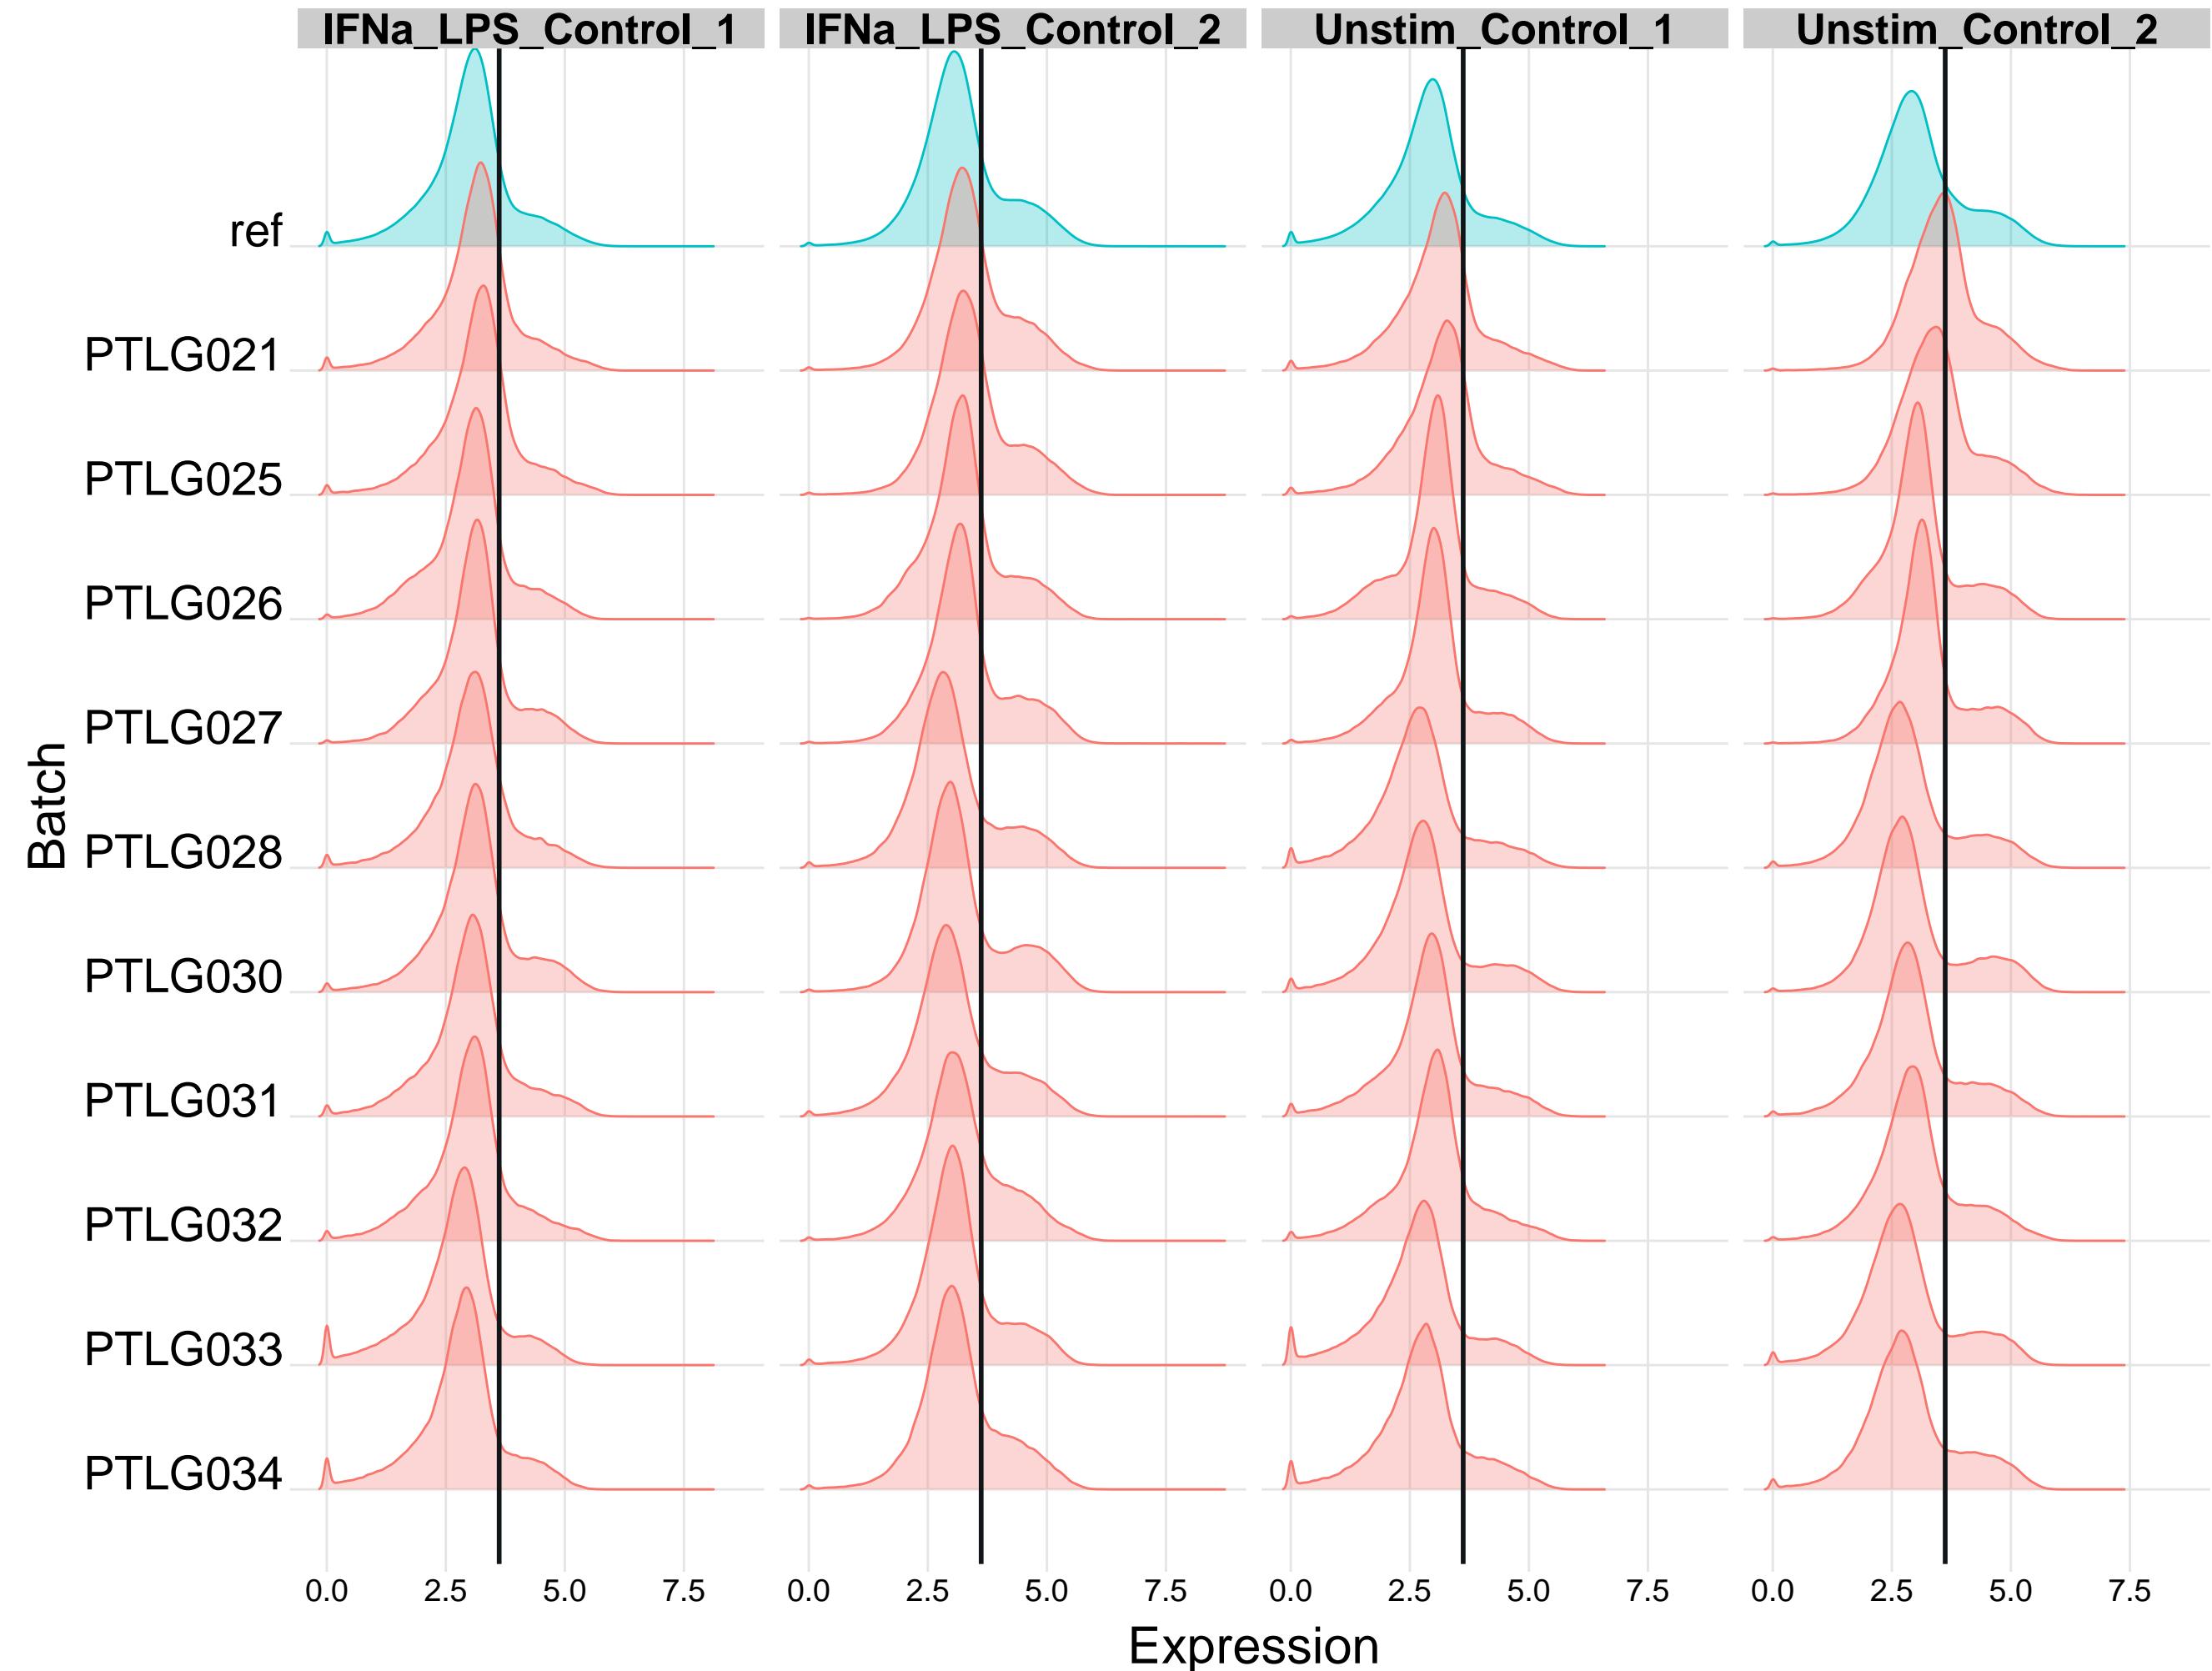

Expression densities for CD7 with automated cutoff

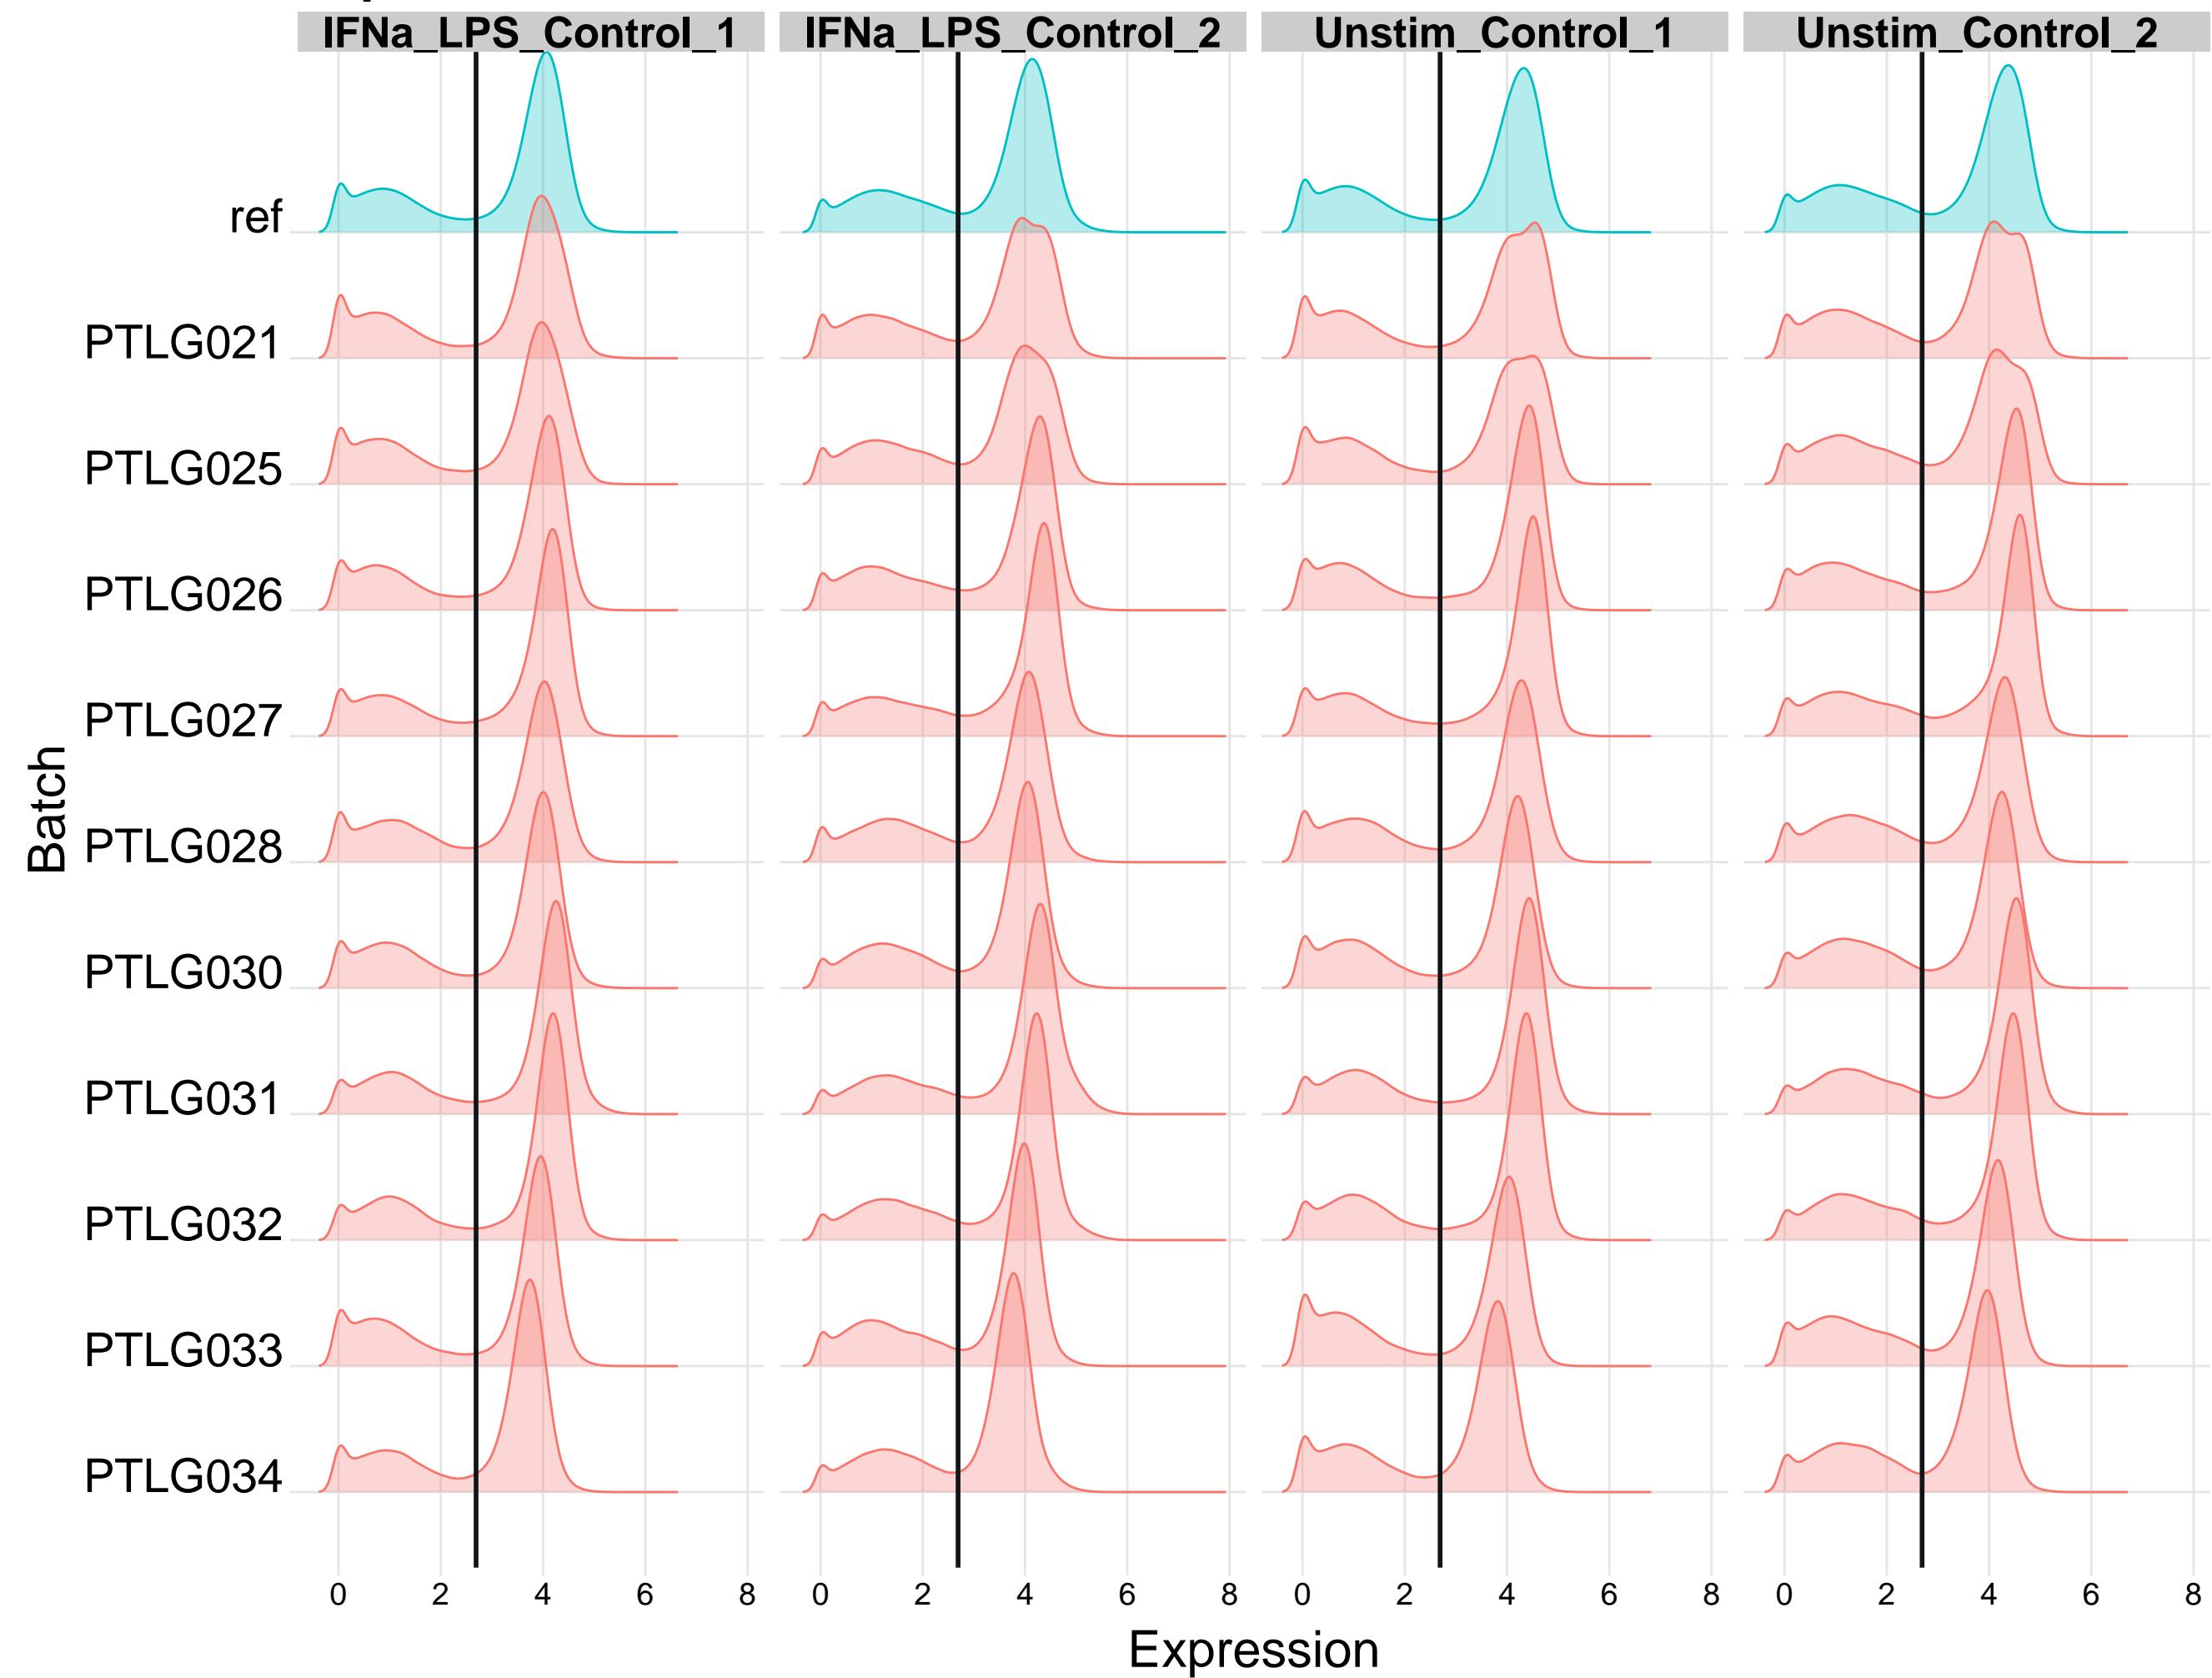

Expression densities for CD19 with automated cutoff

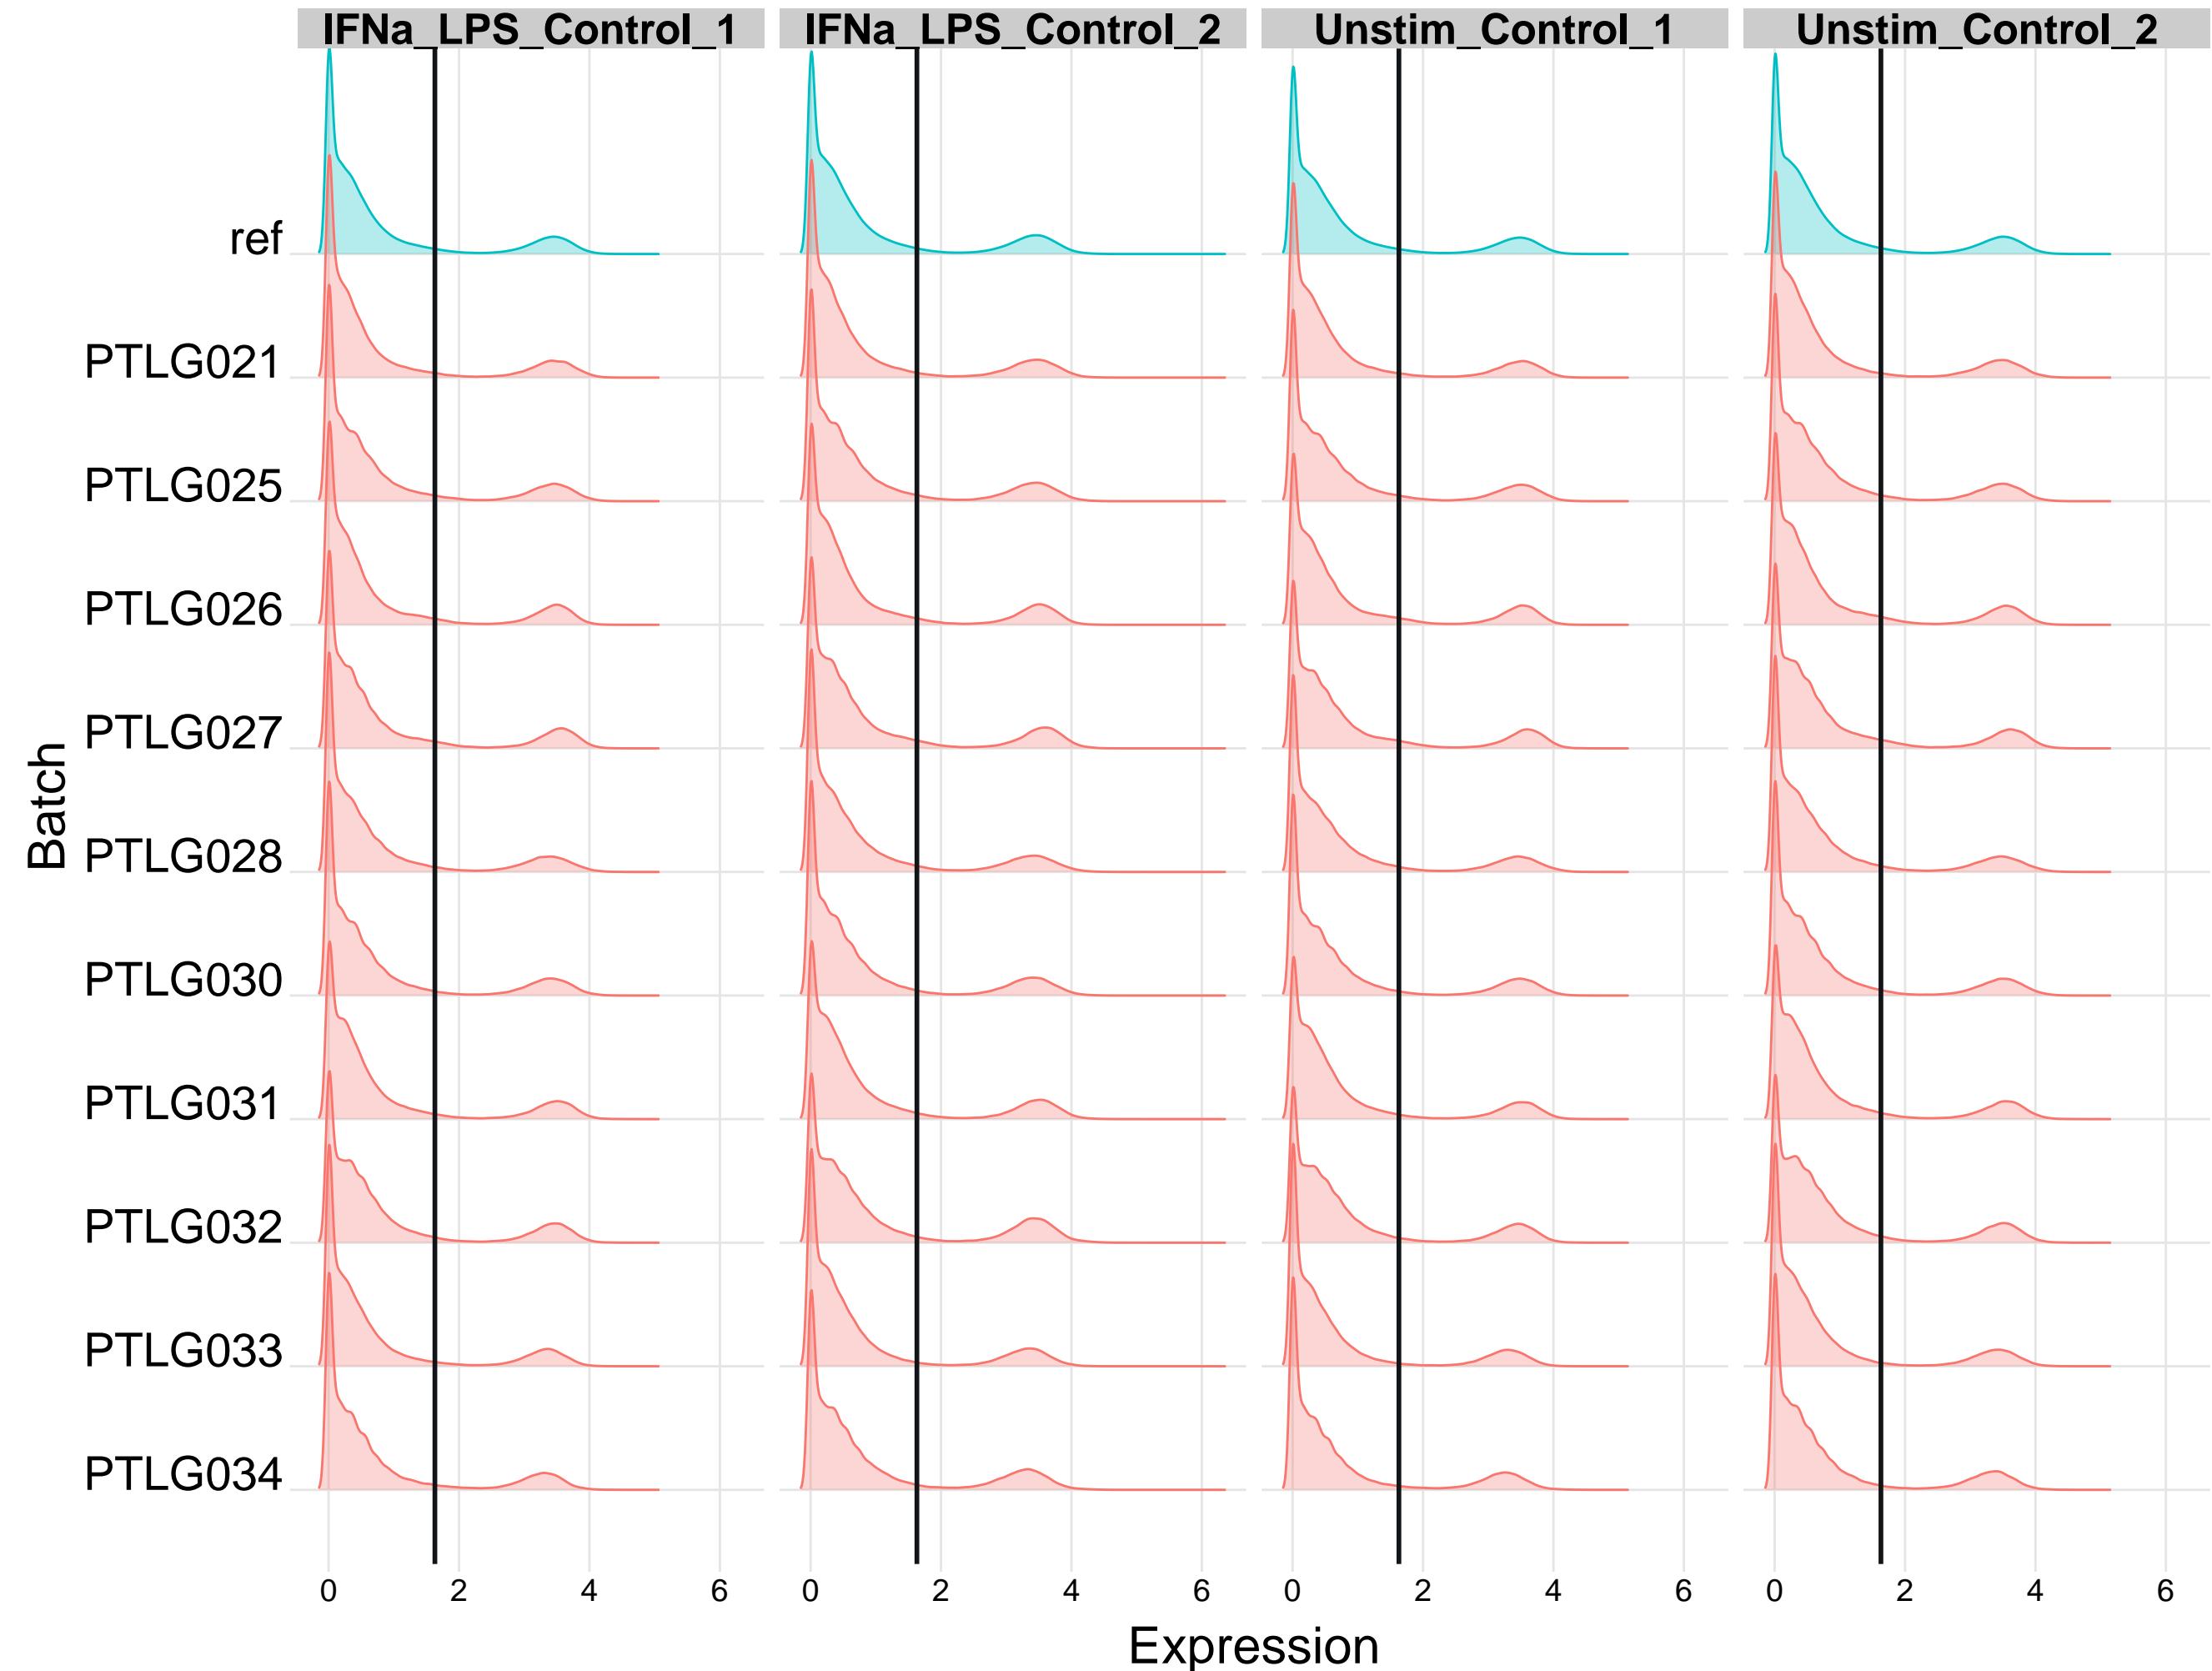

Expression densities for CD45RA with automated cutoff

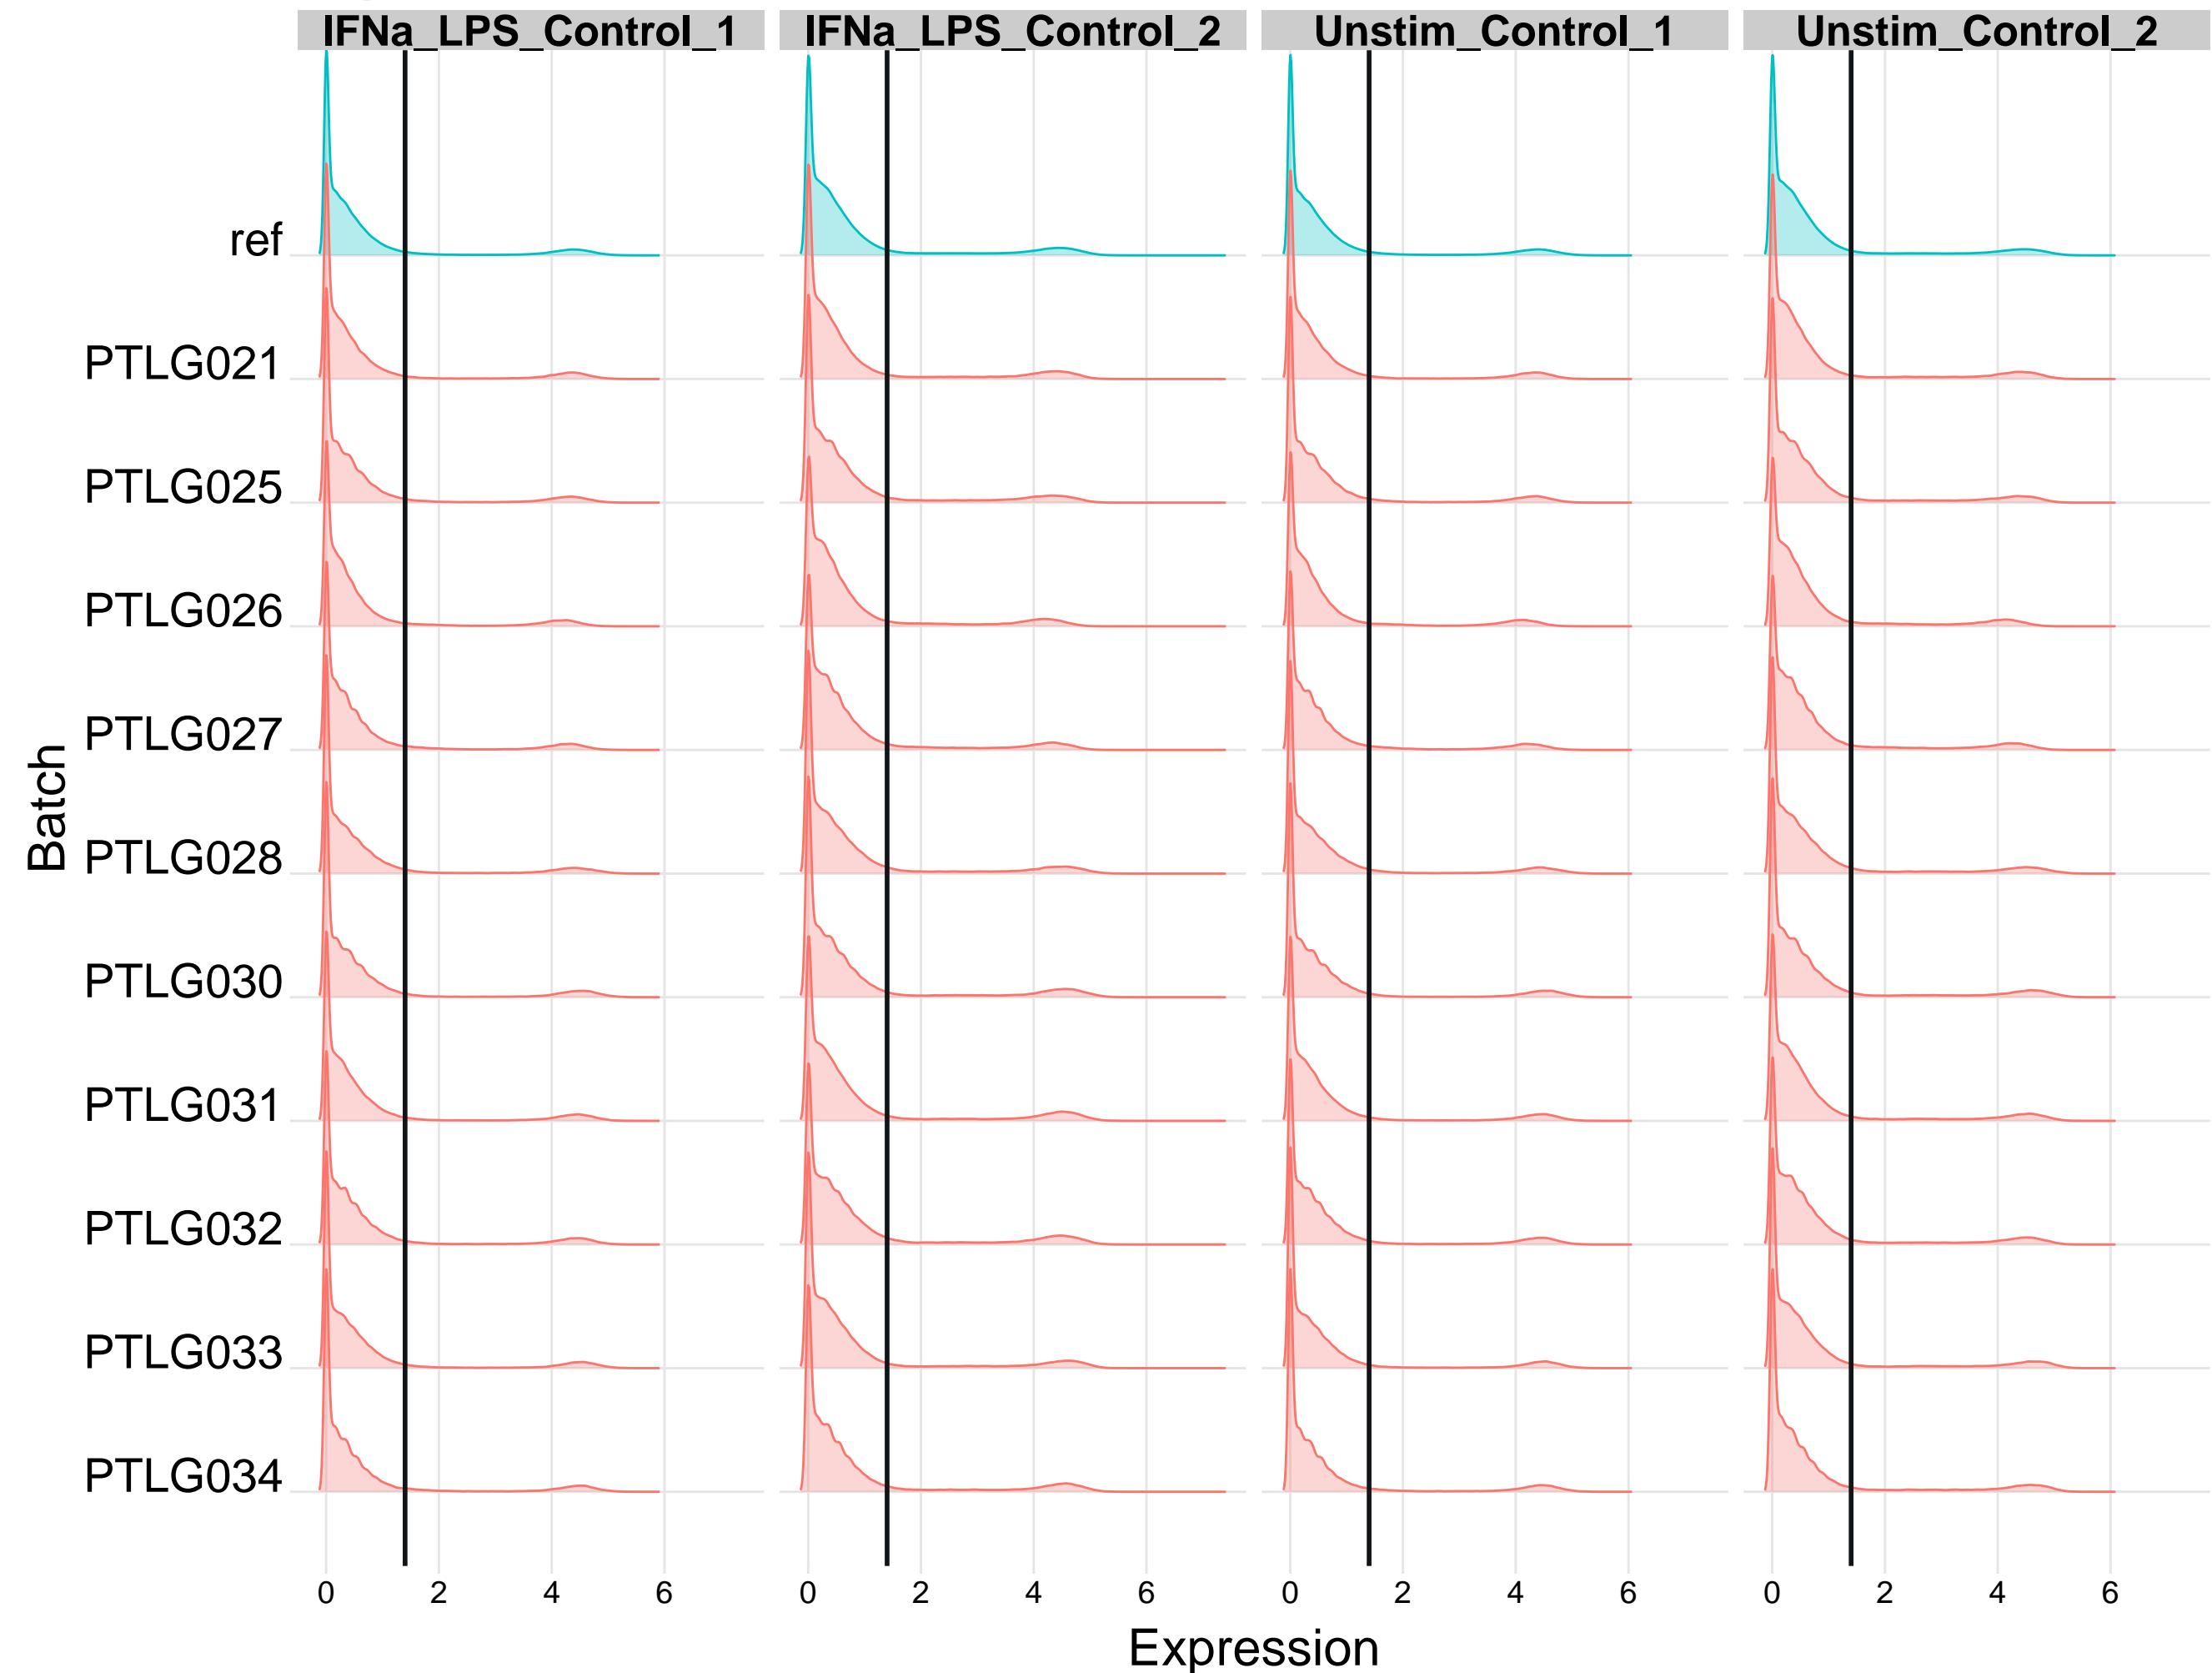

Expression densities for CD11b with automated cutoff

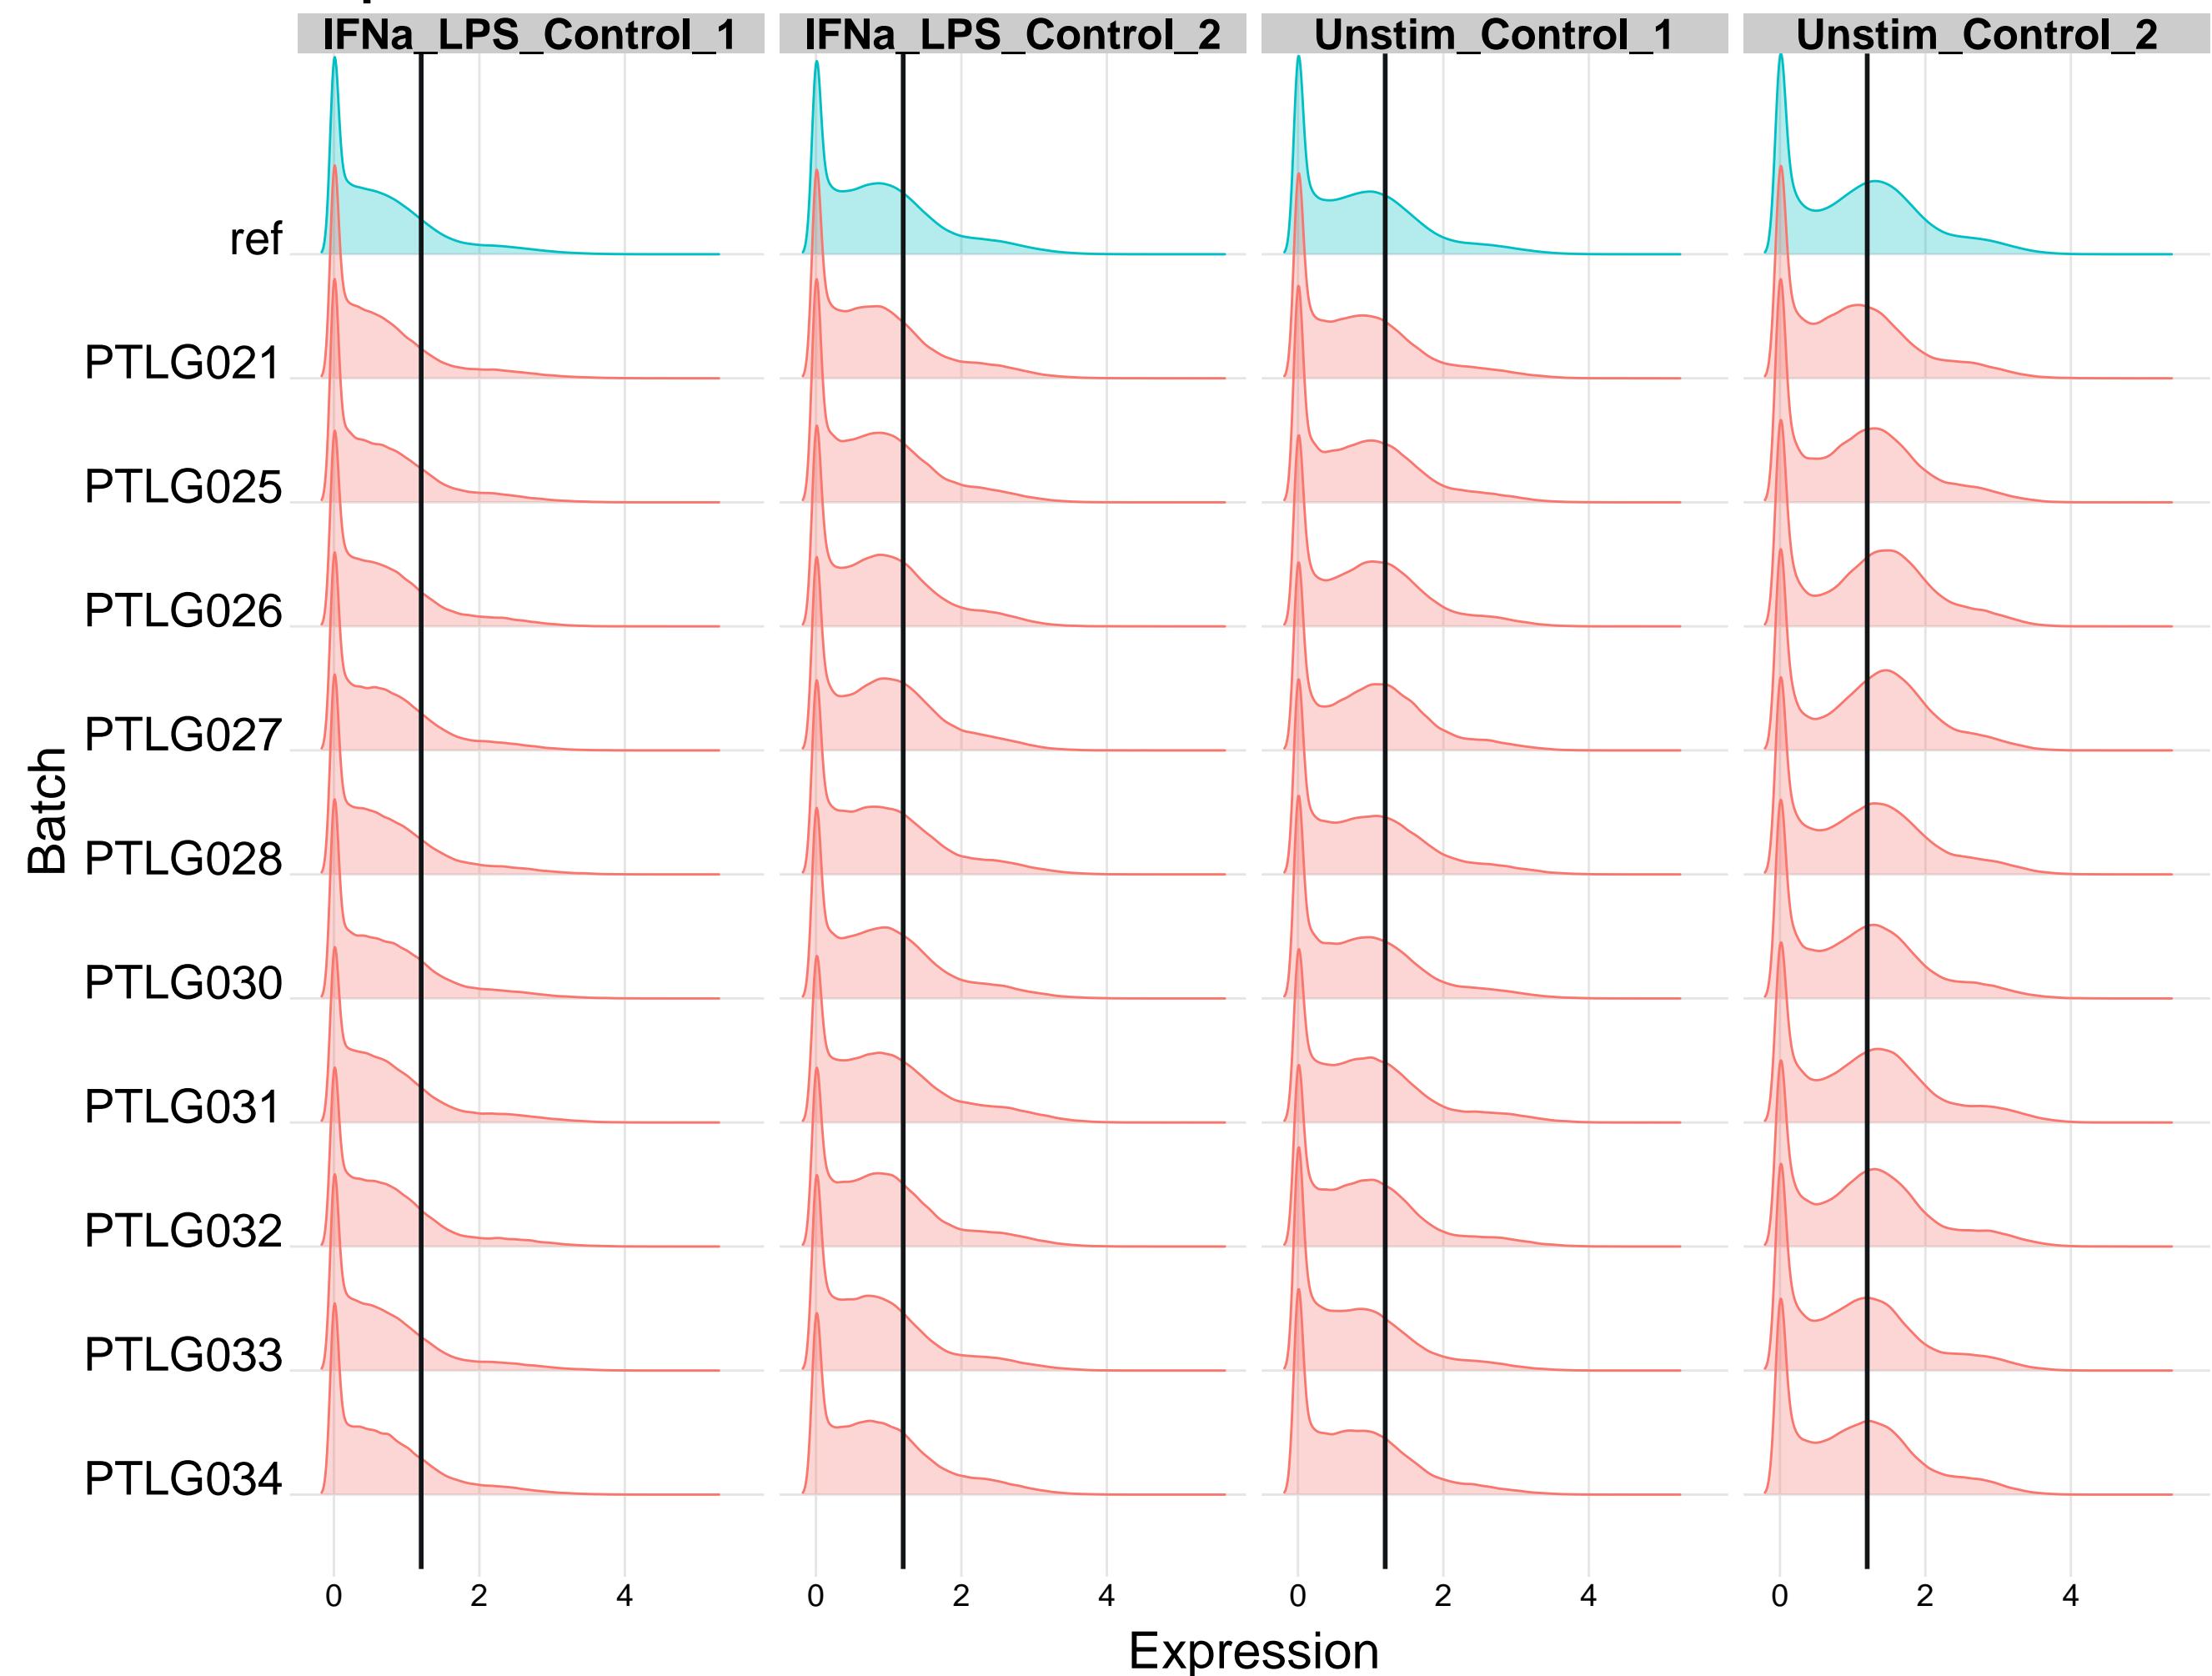

Expression densities for CD4 with automated cutoff

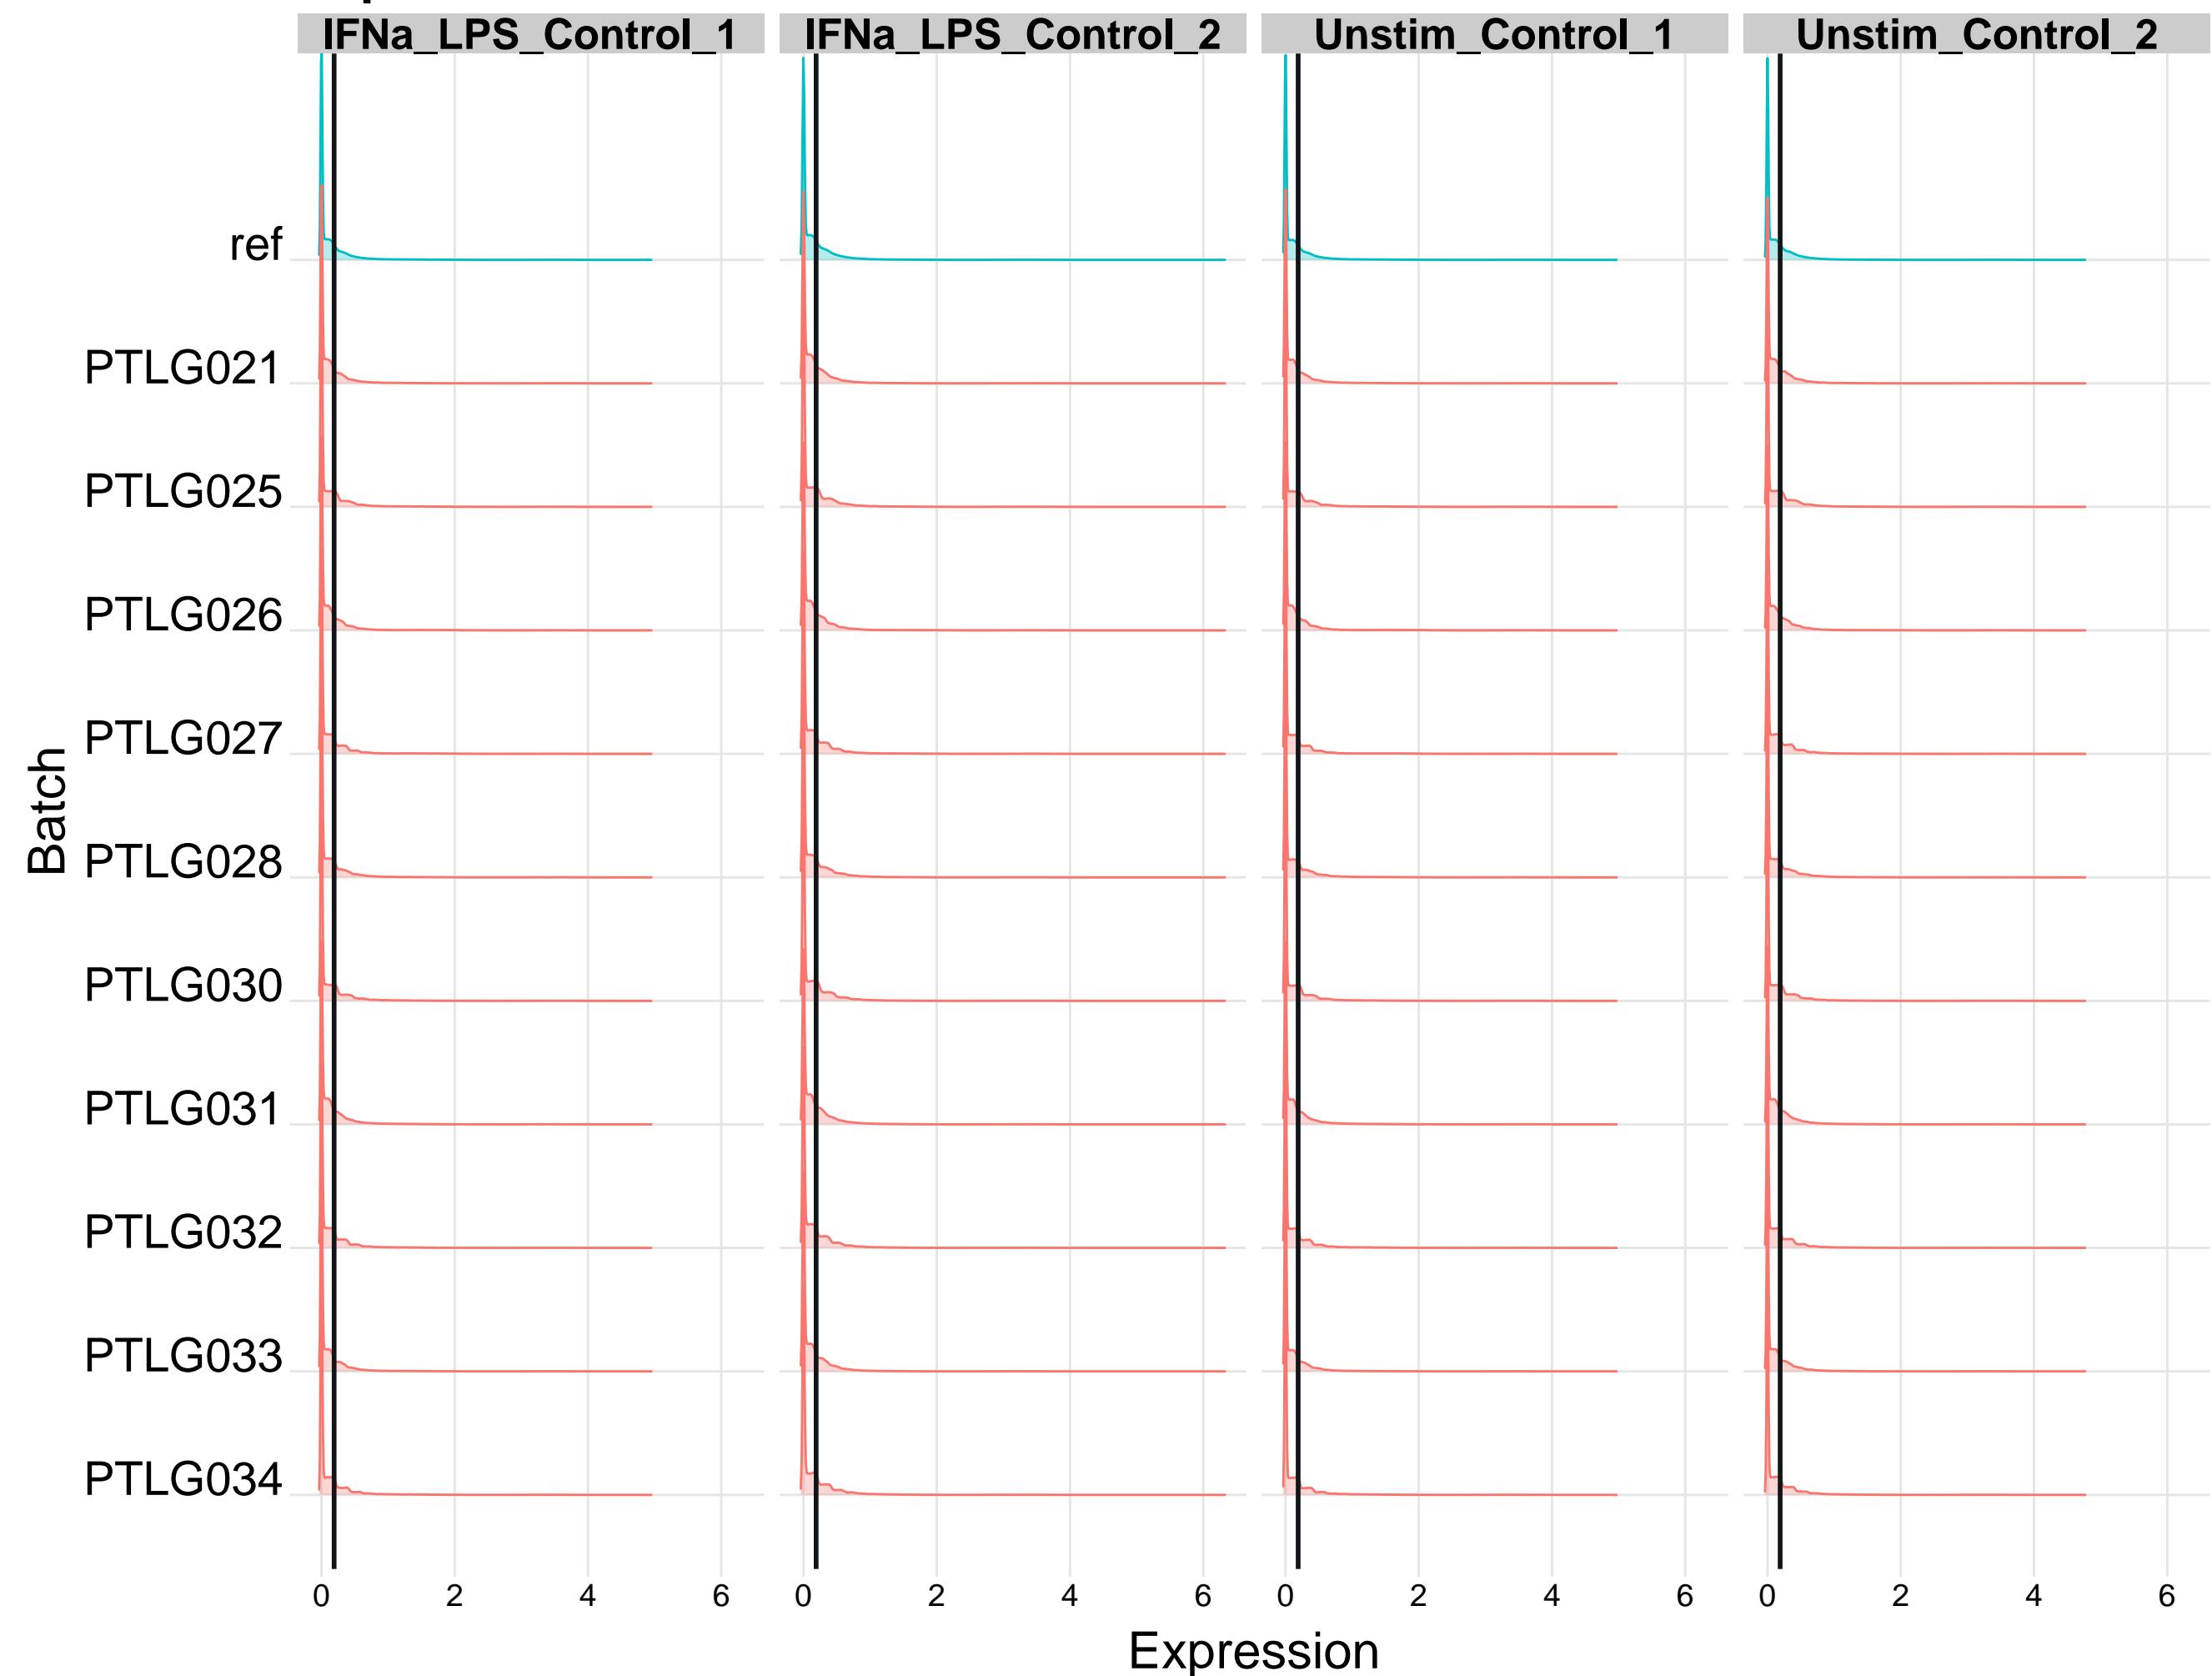

Expression densities for CD8a with automated cutoff

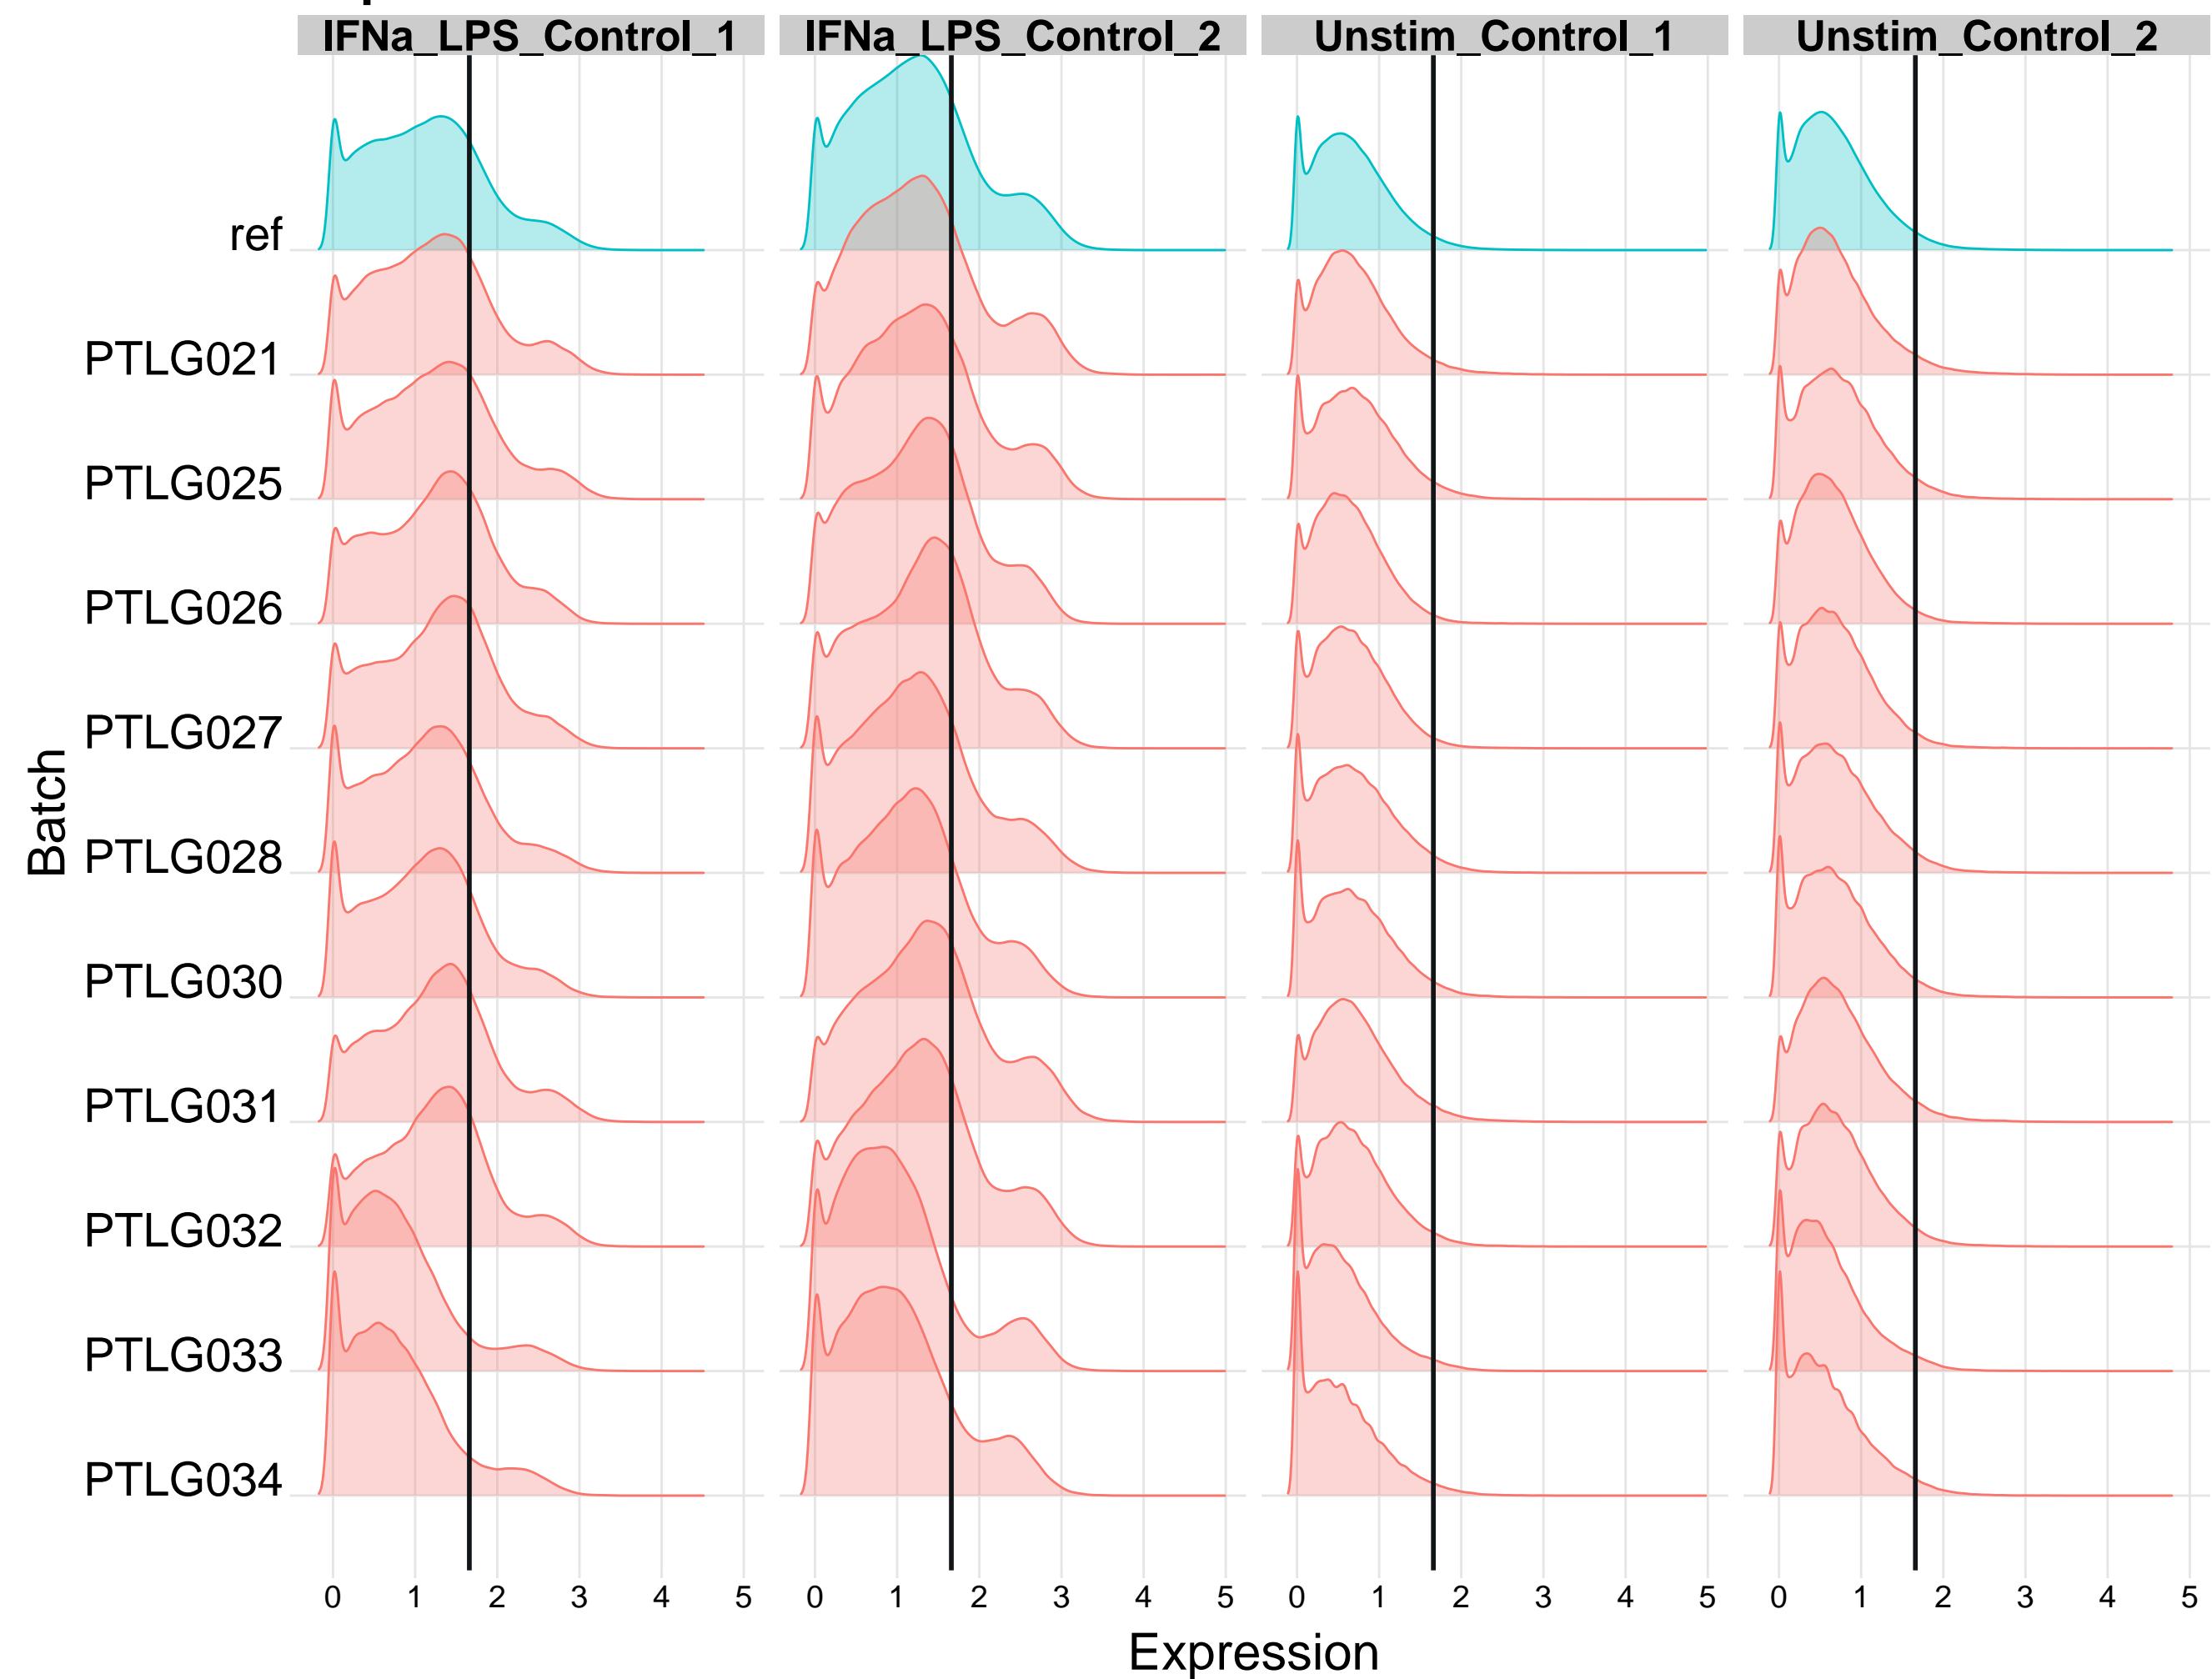

Expression densities for CD11c with automated cutoff

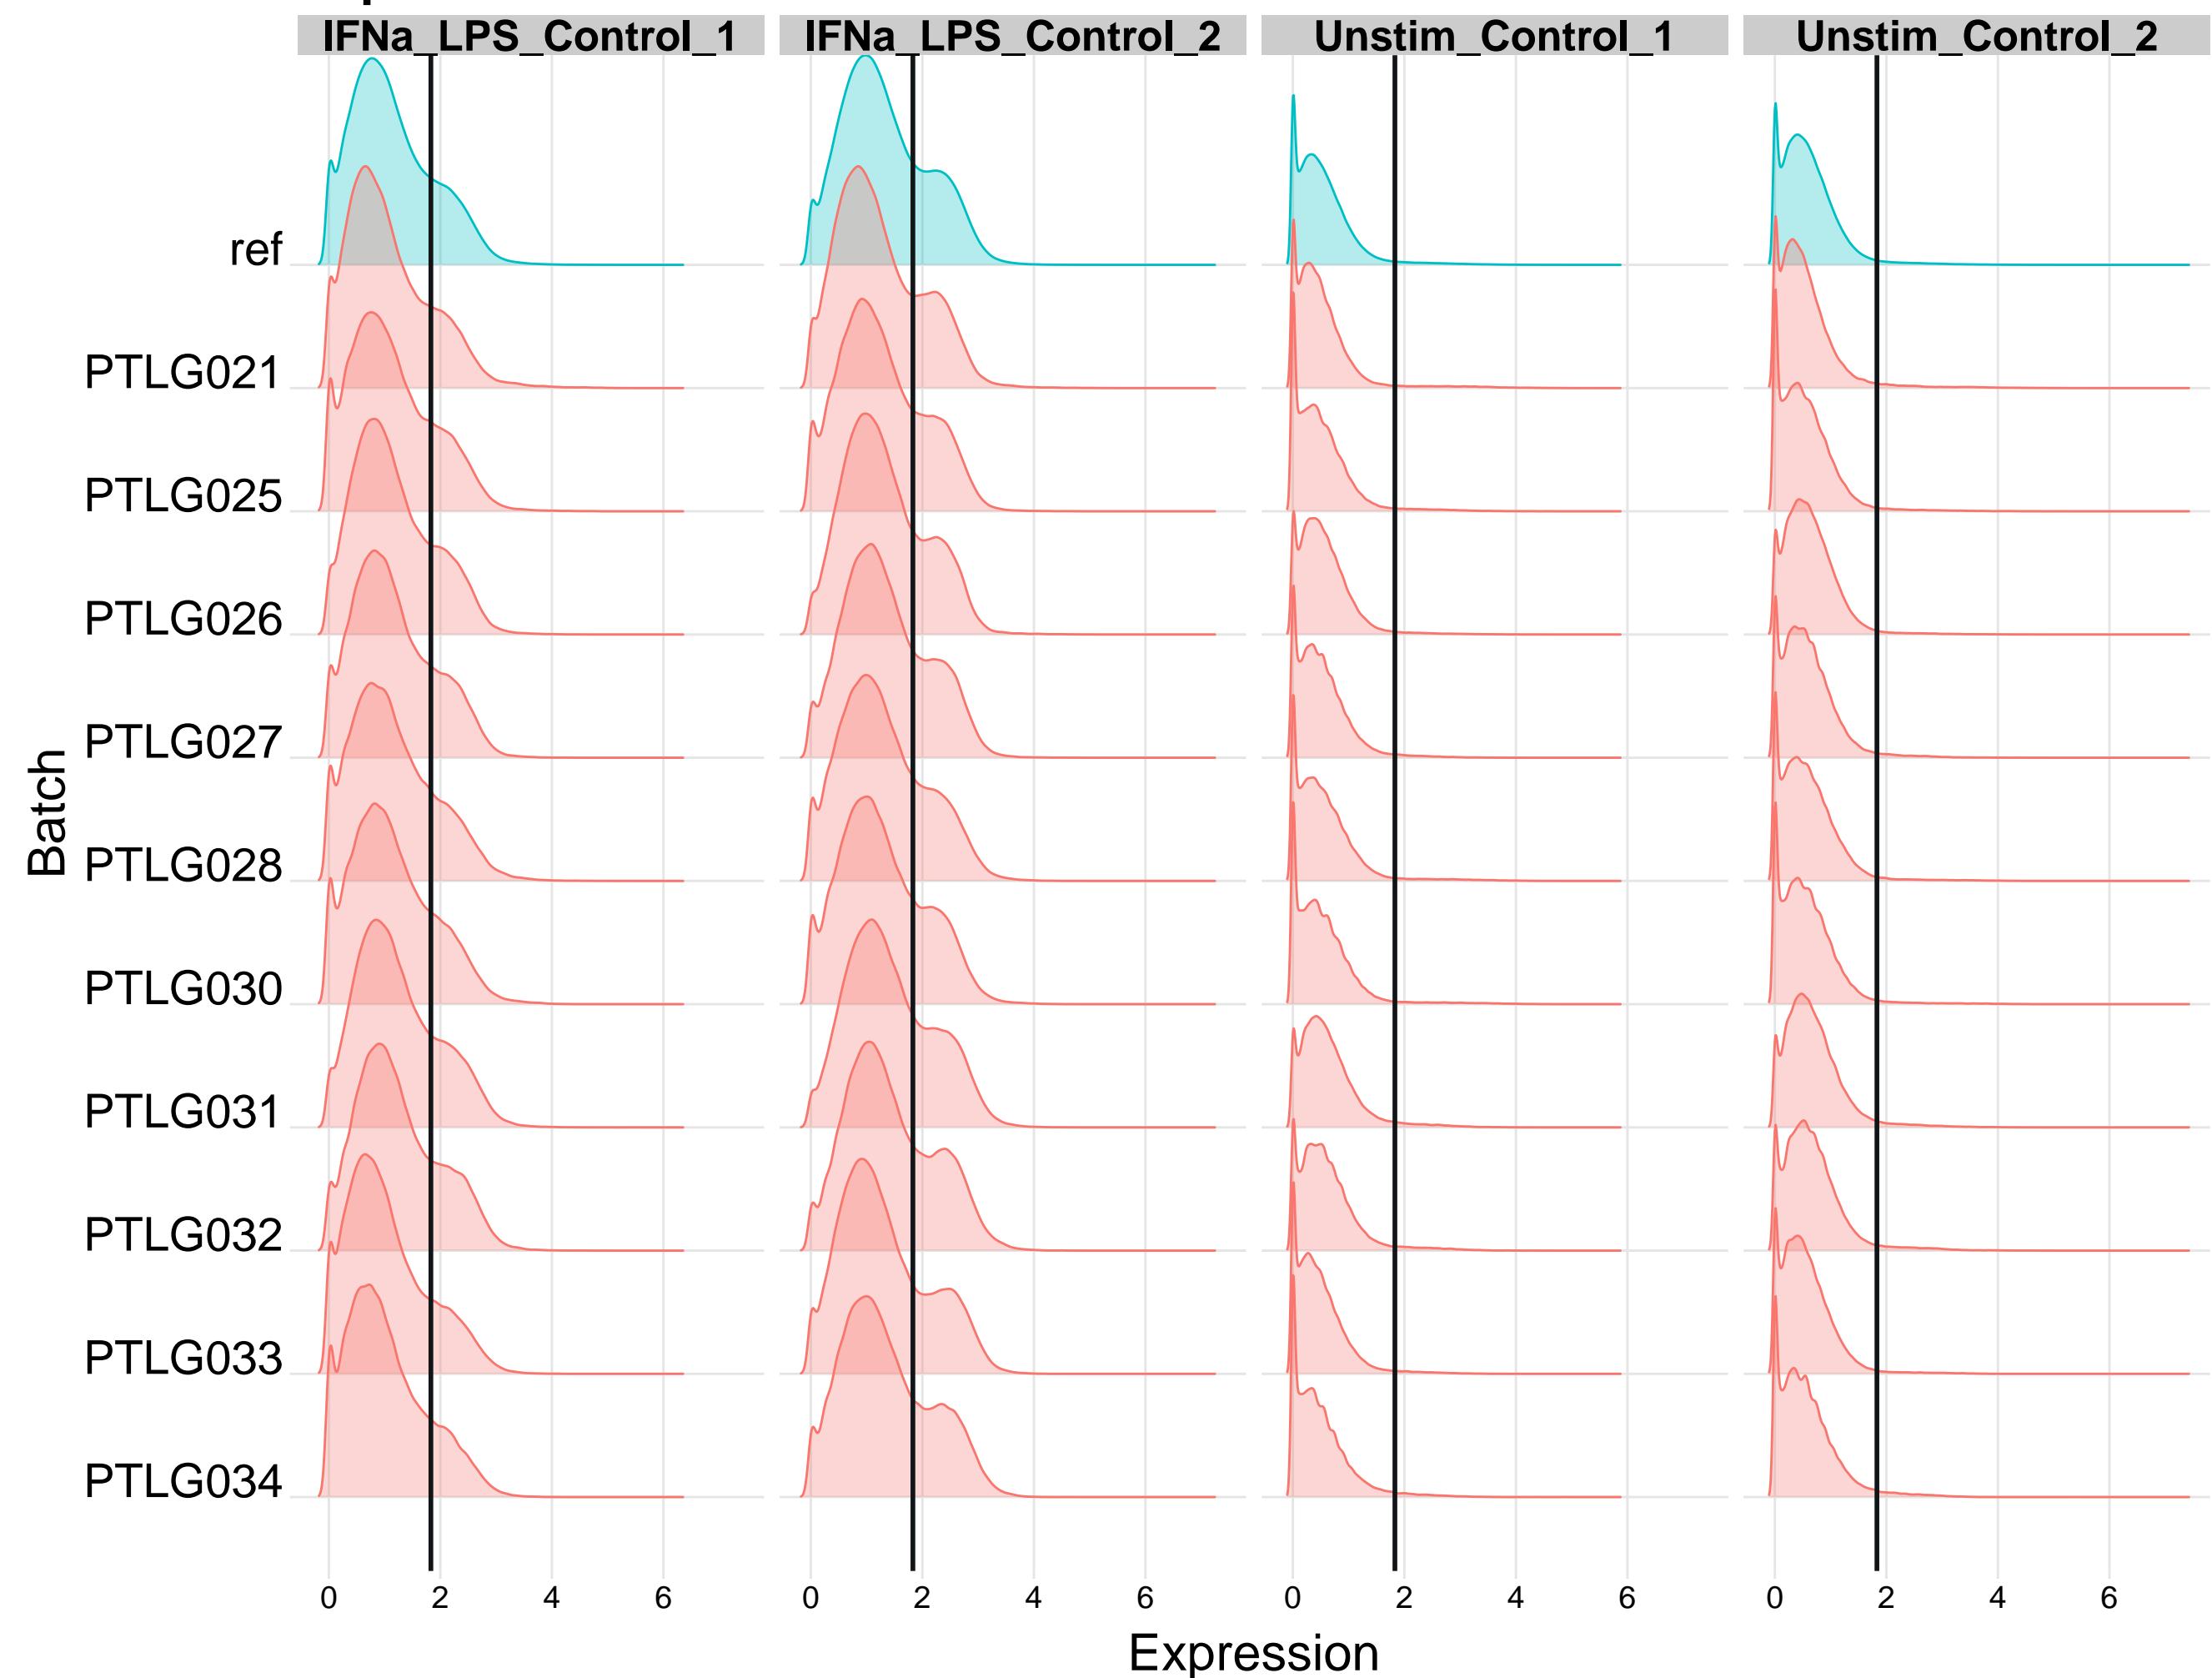

Expression densities for CD123 with automated cutoff

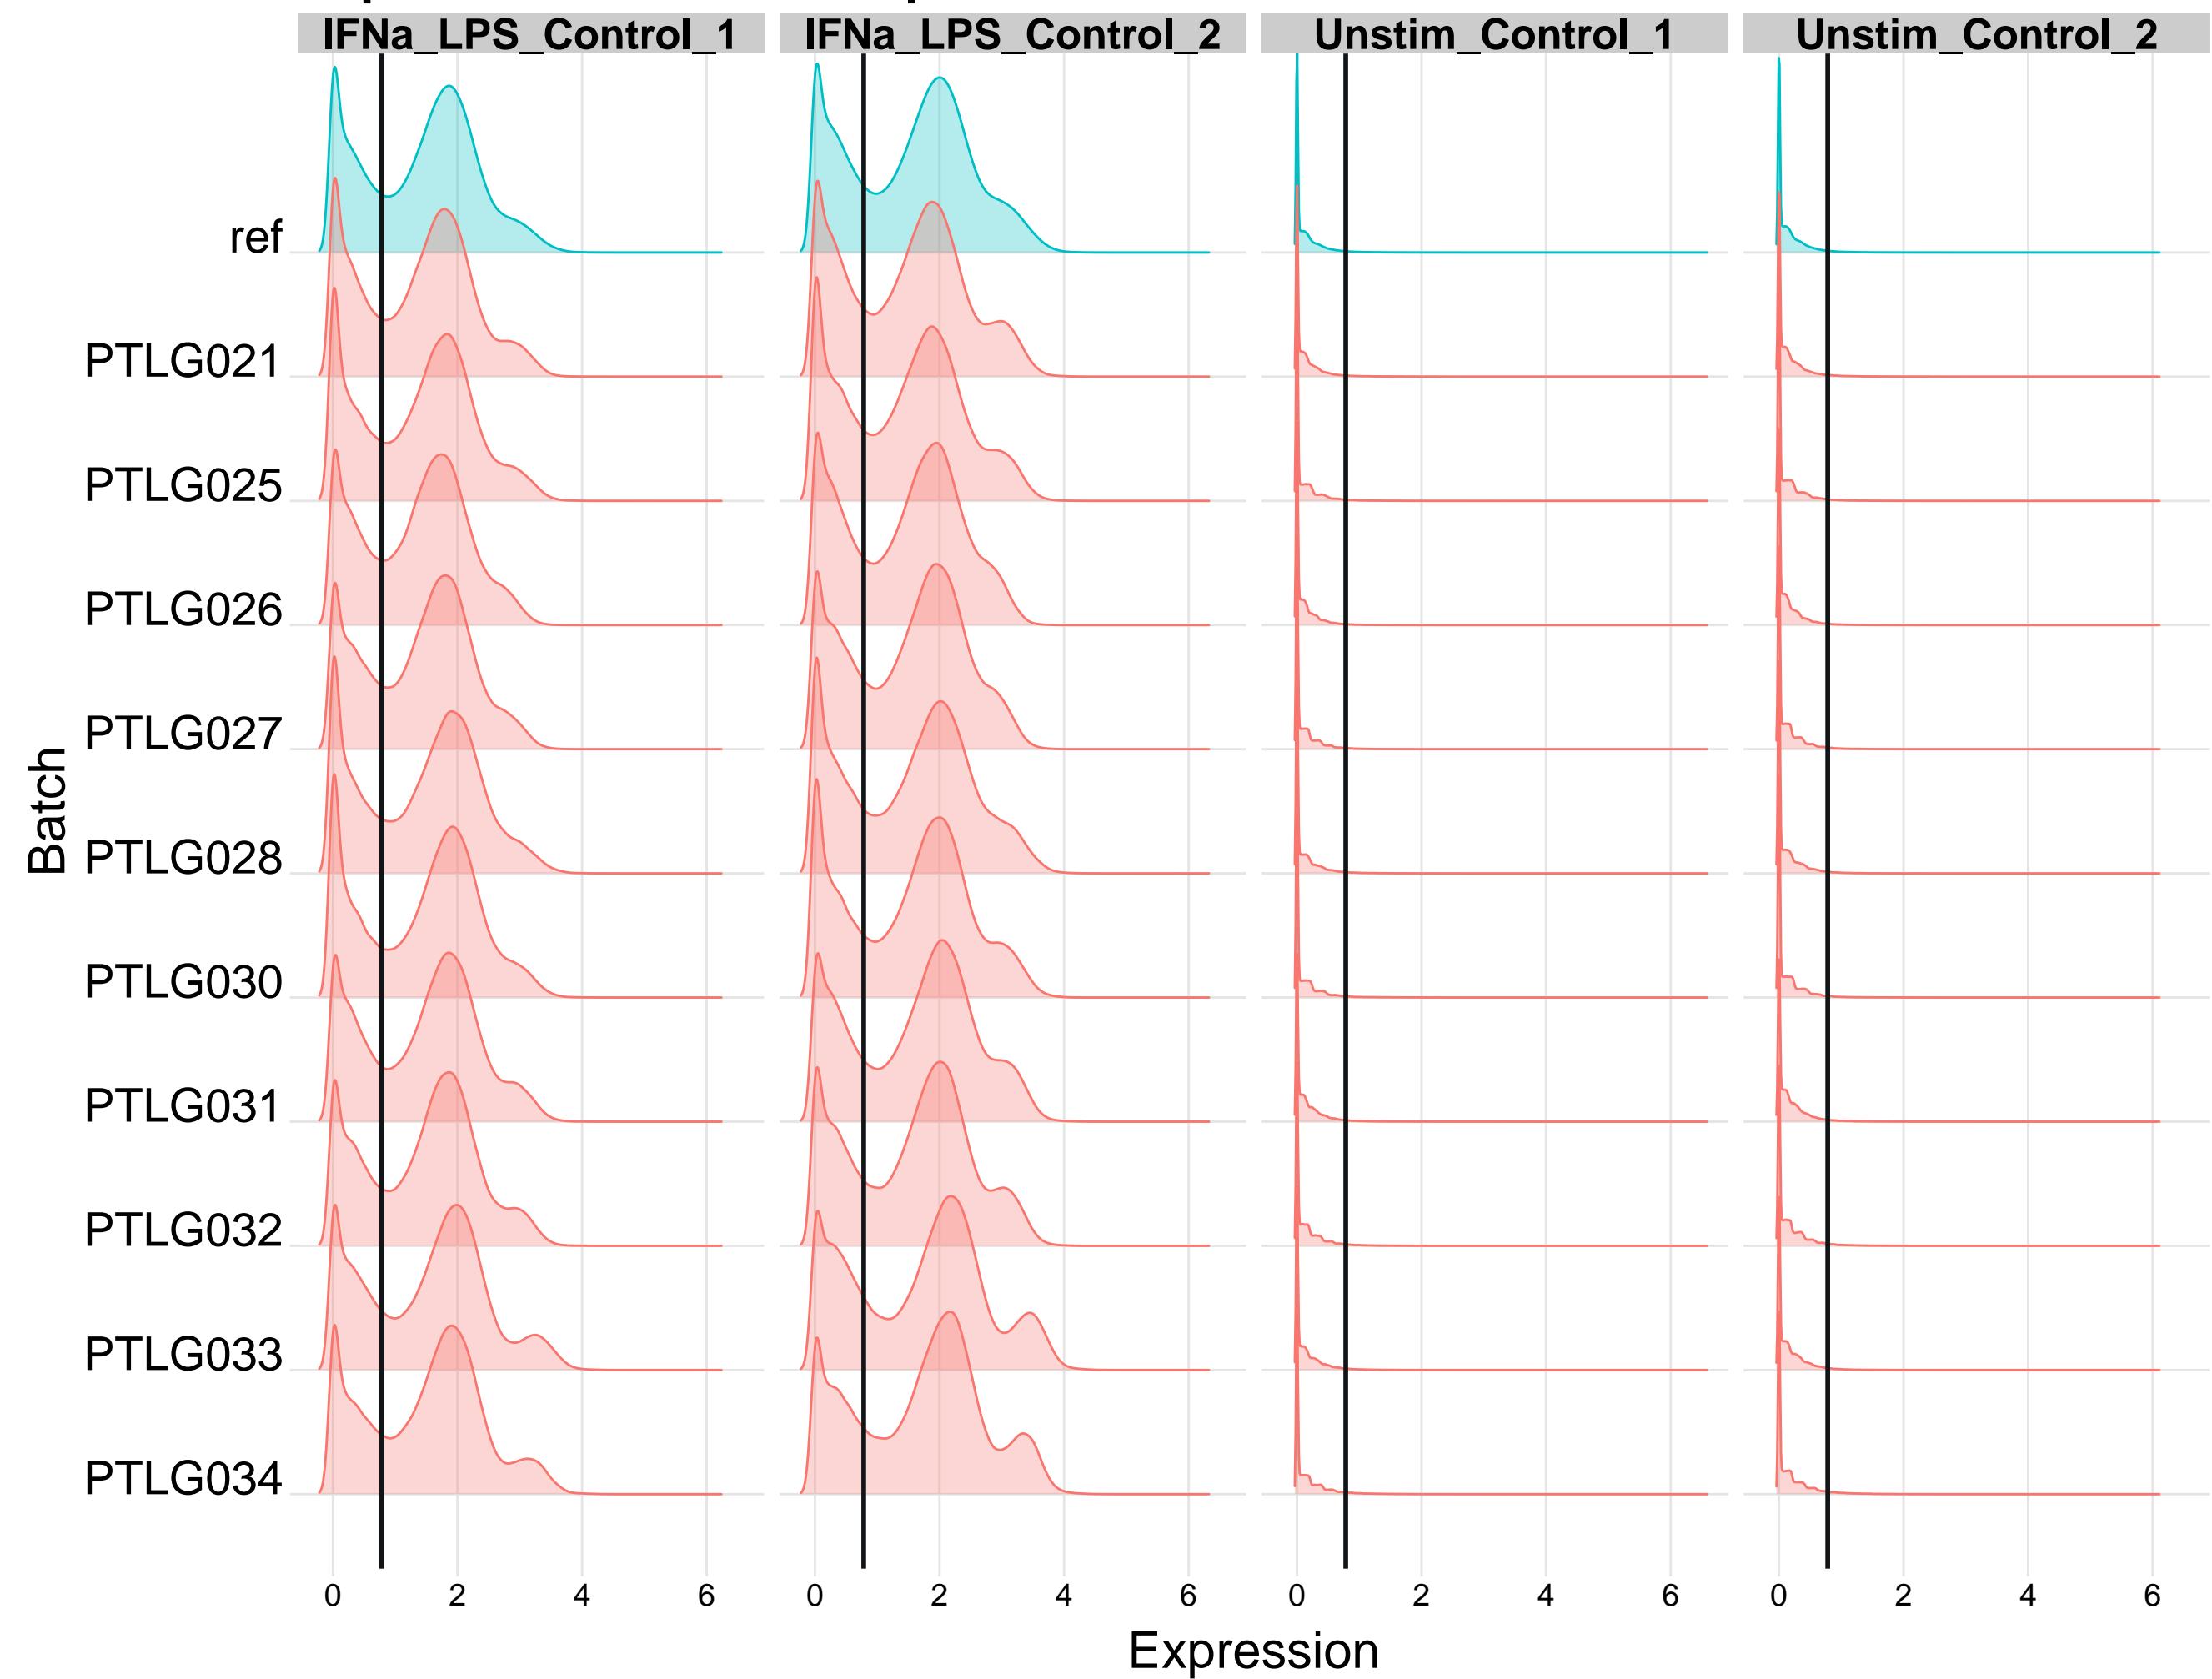

Expression densities for CREB with automated cutoff

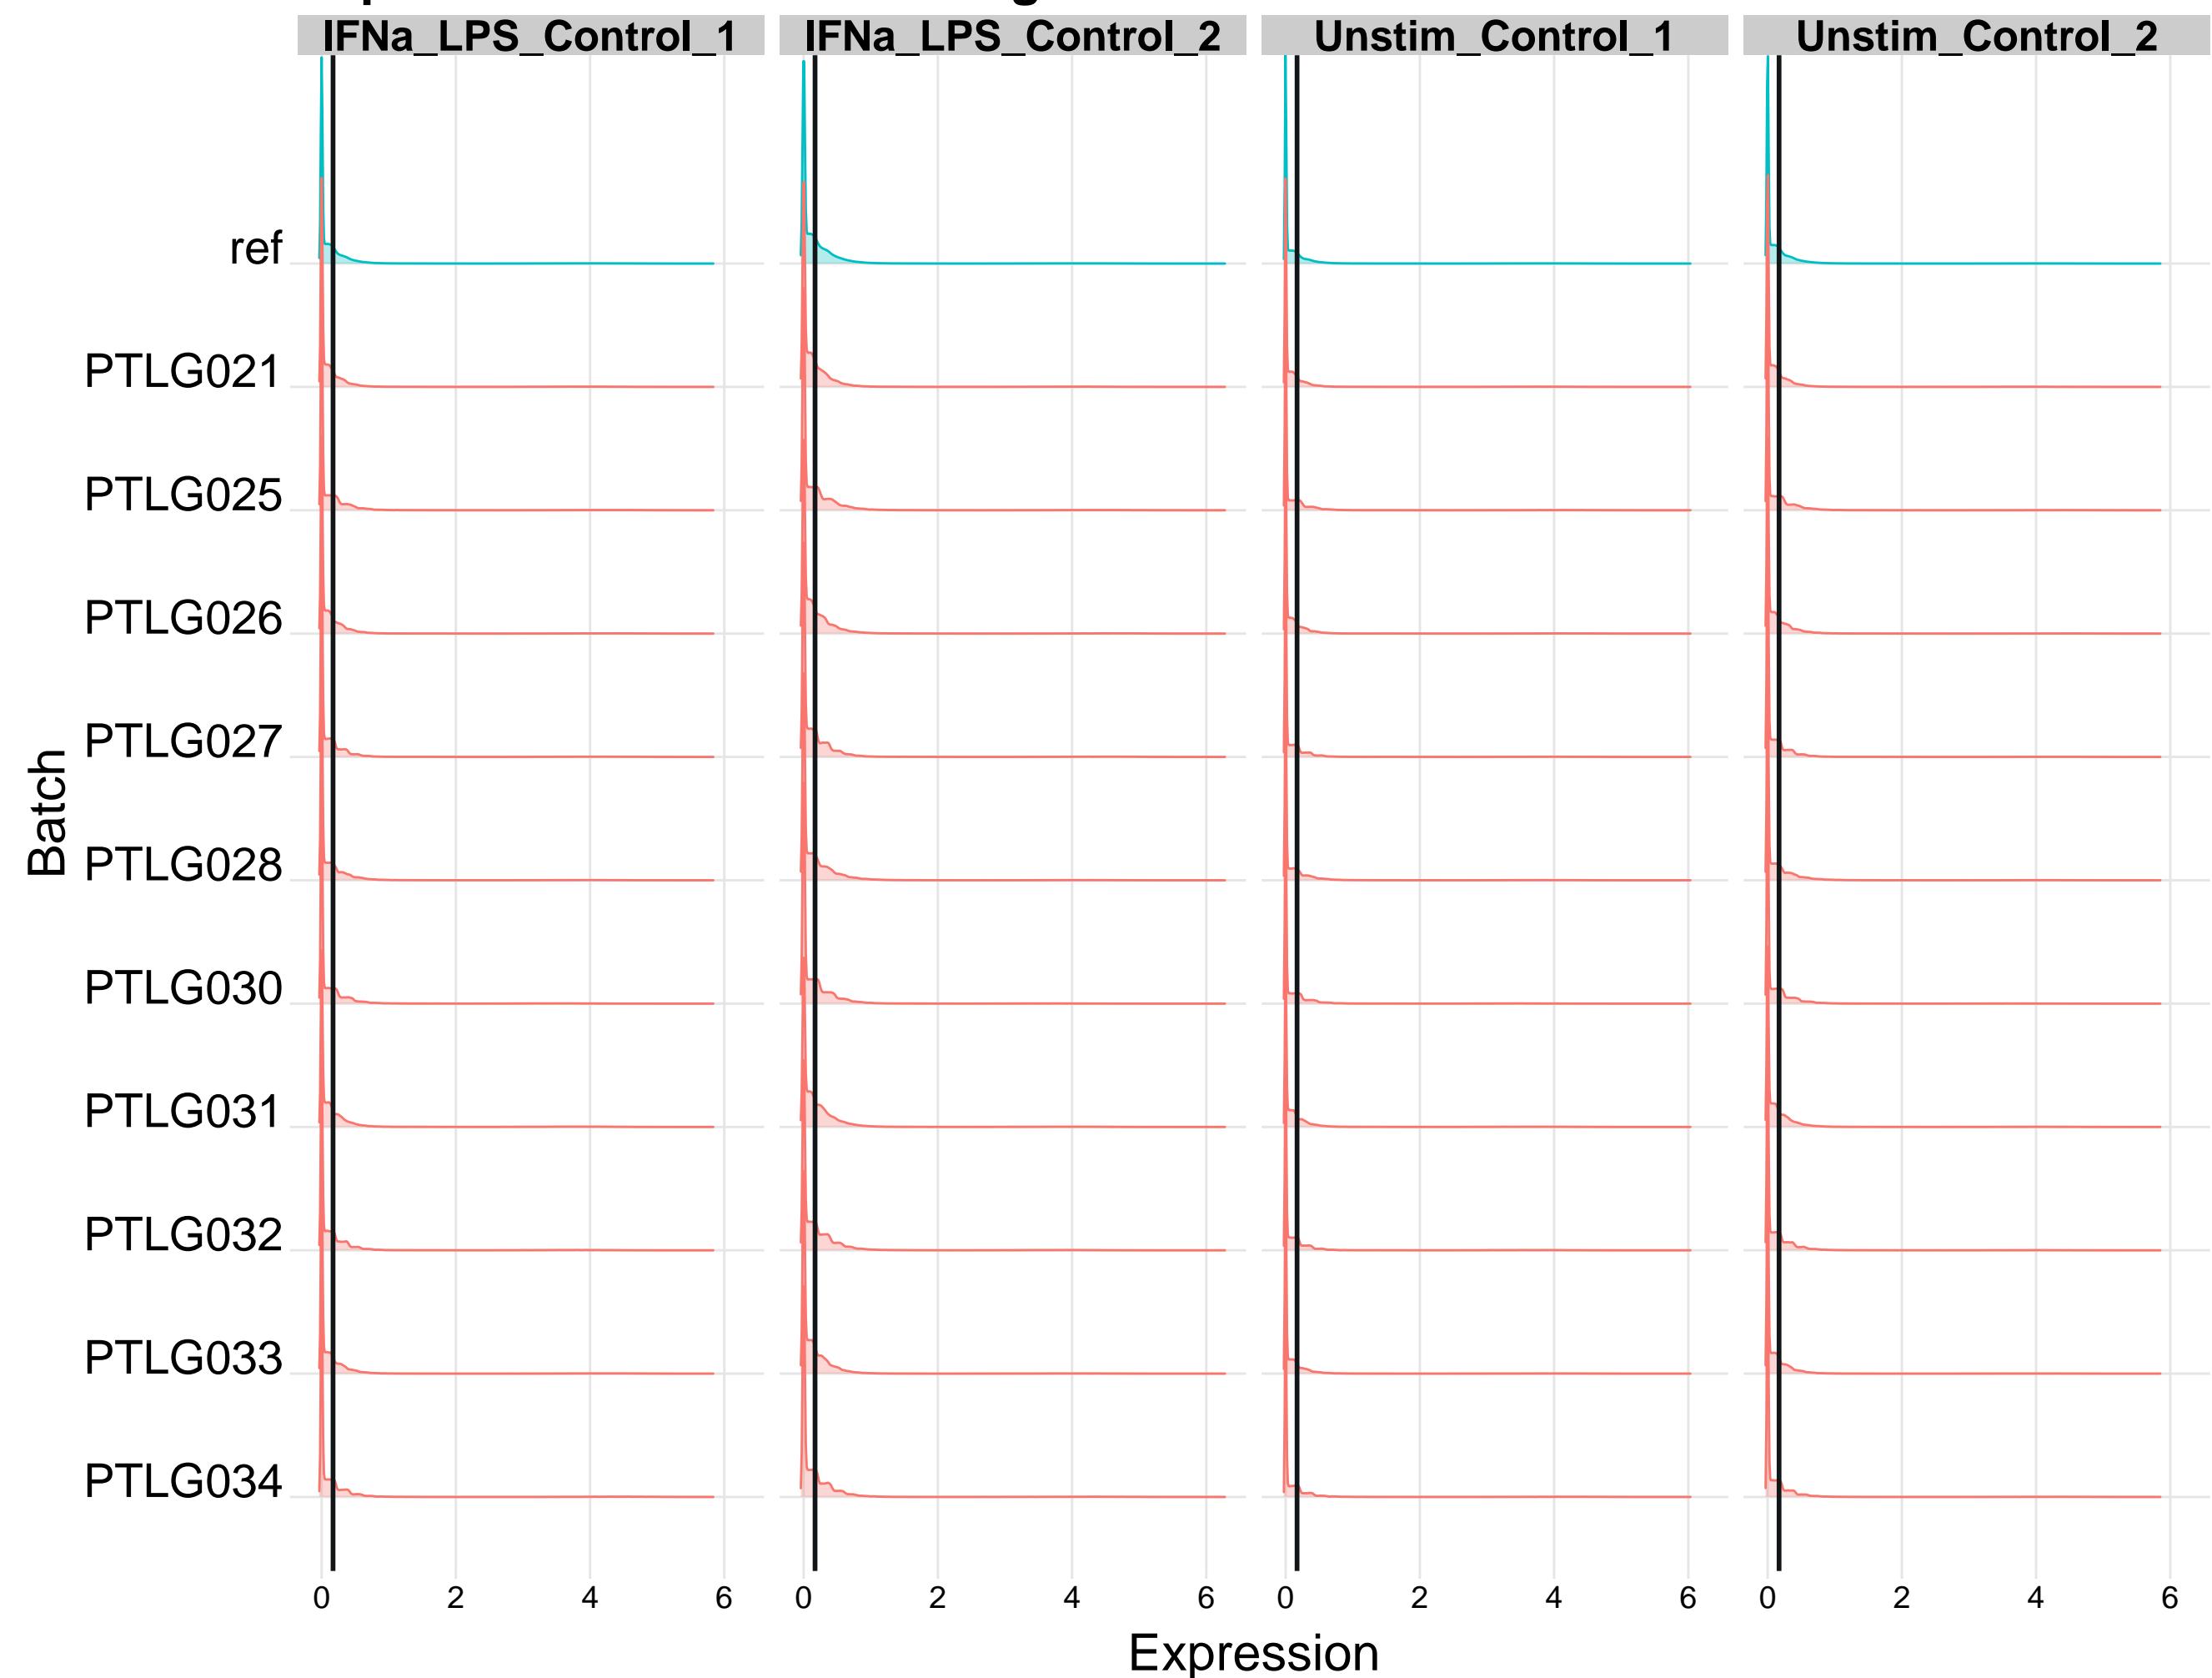

Expression densities for STAT5 with automated cutoff

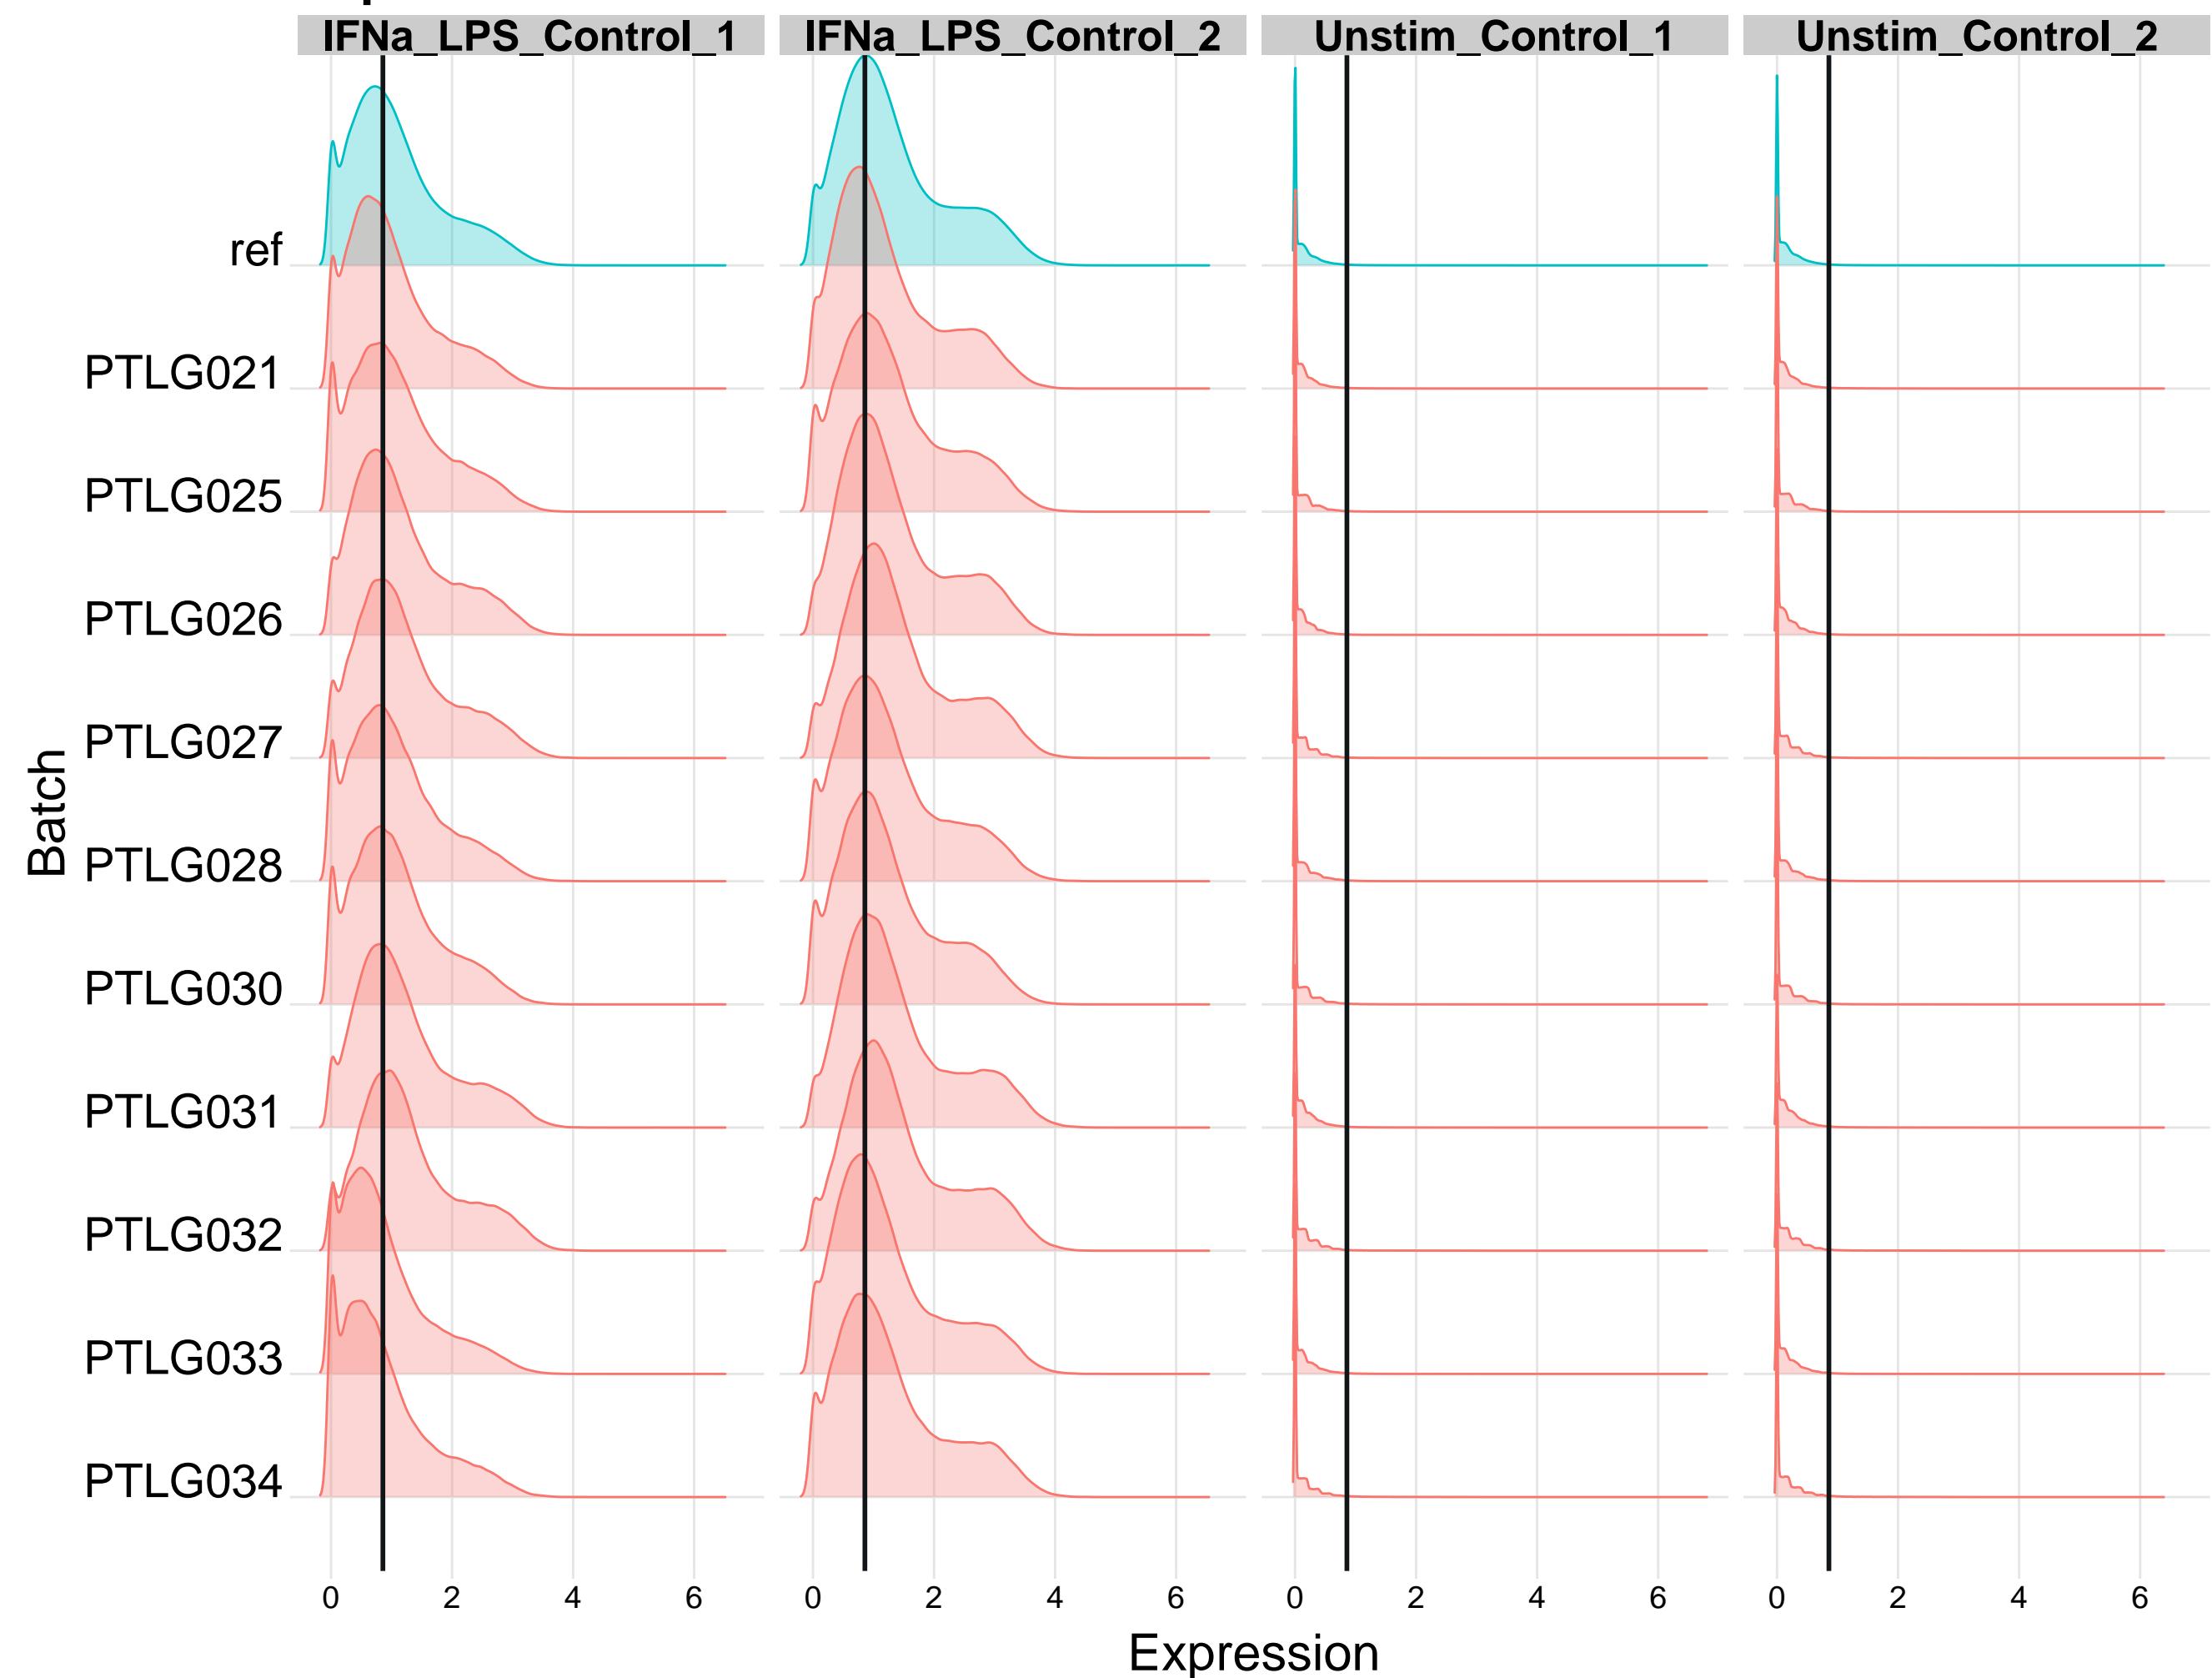

Expression densities for p38 with automated cutoff

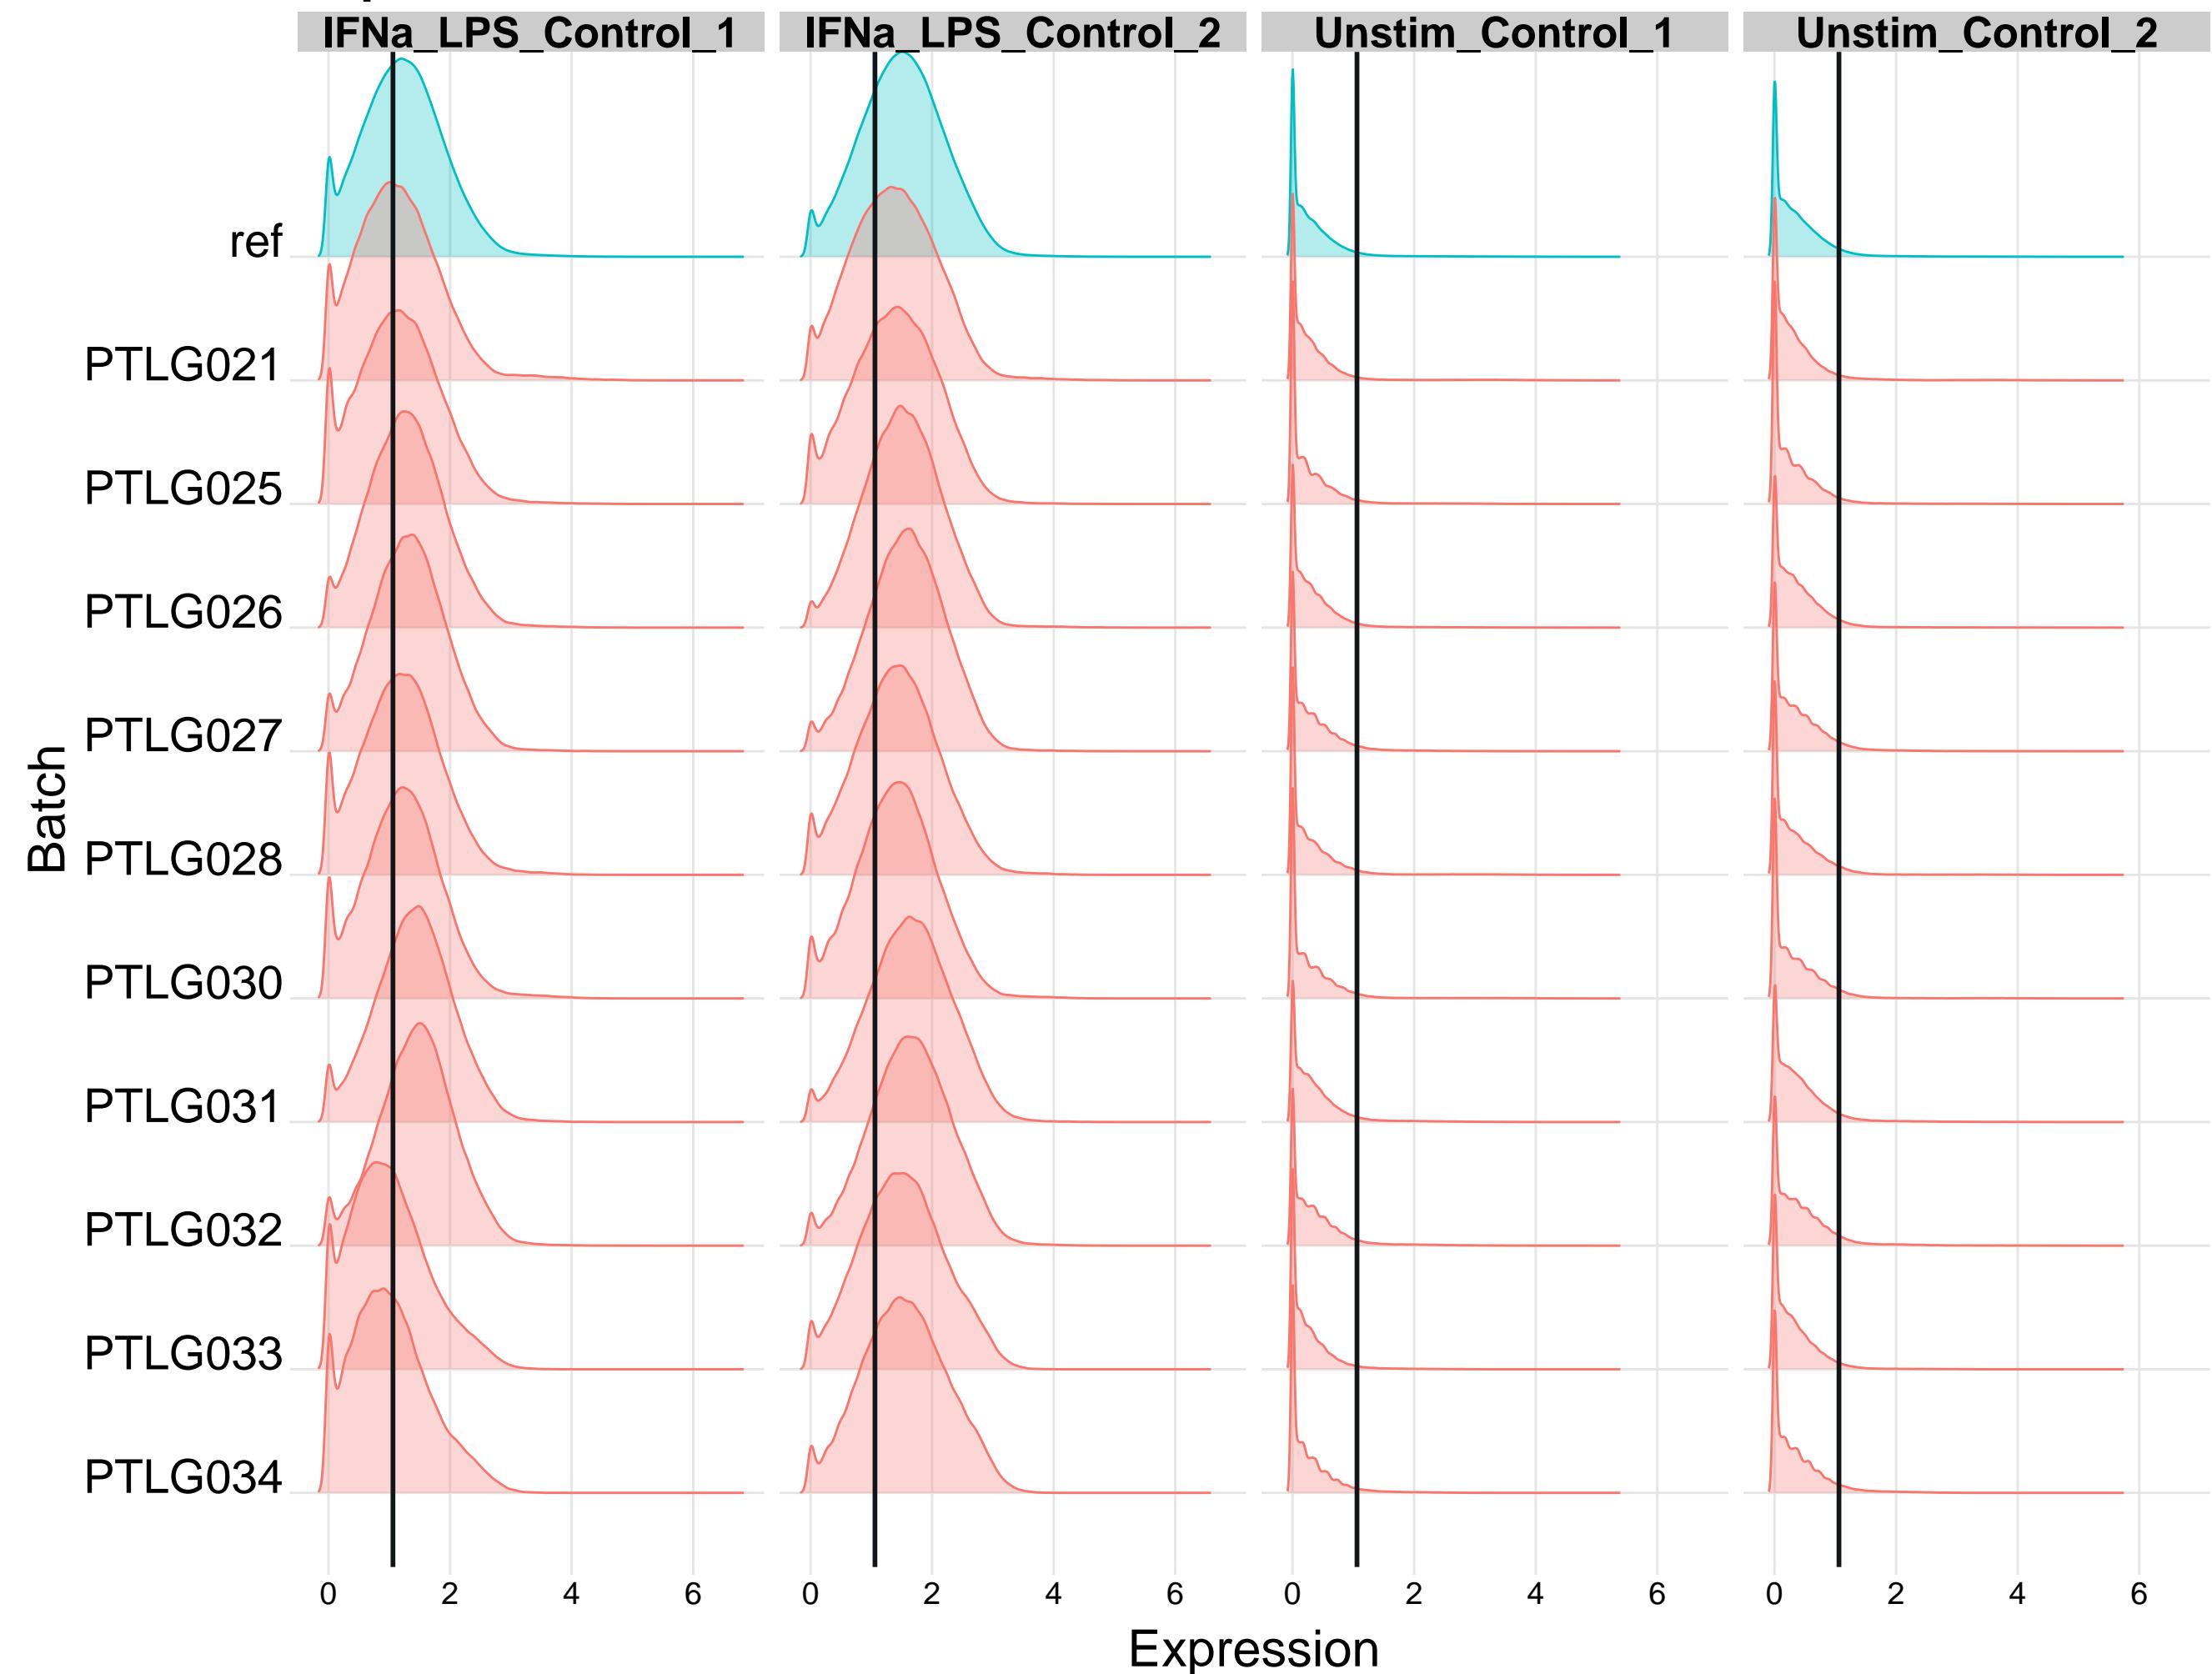

Expression densities for TCRgd with automated cutoff

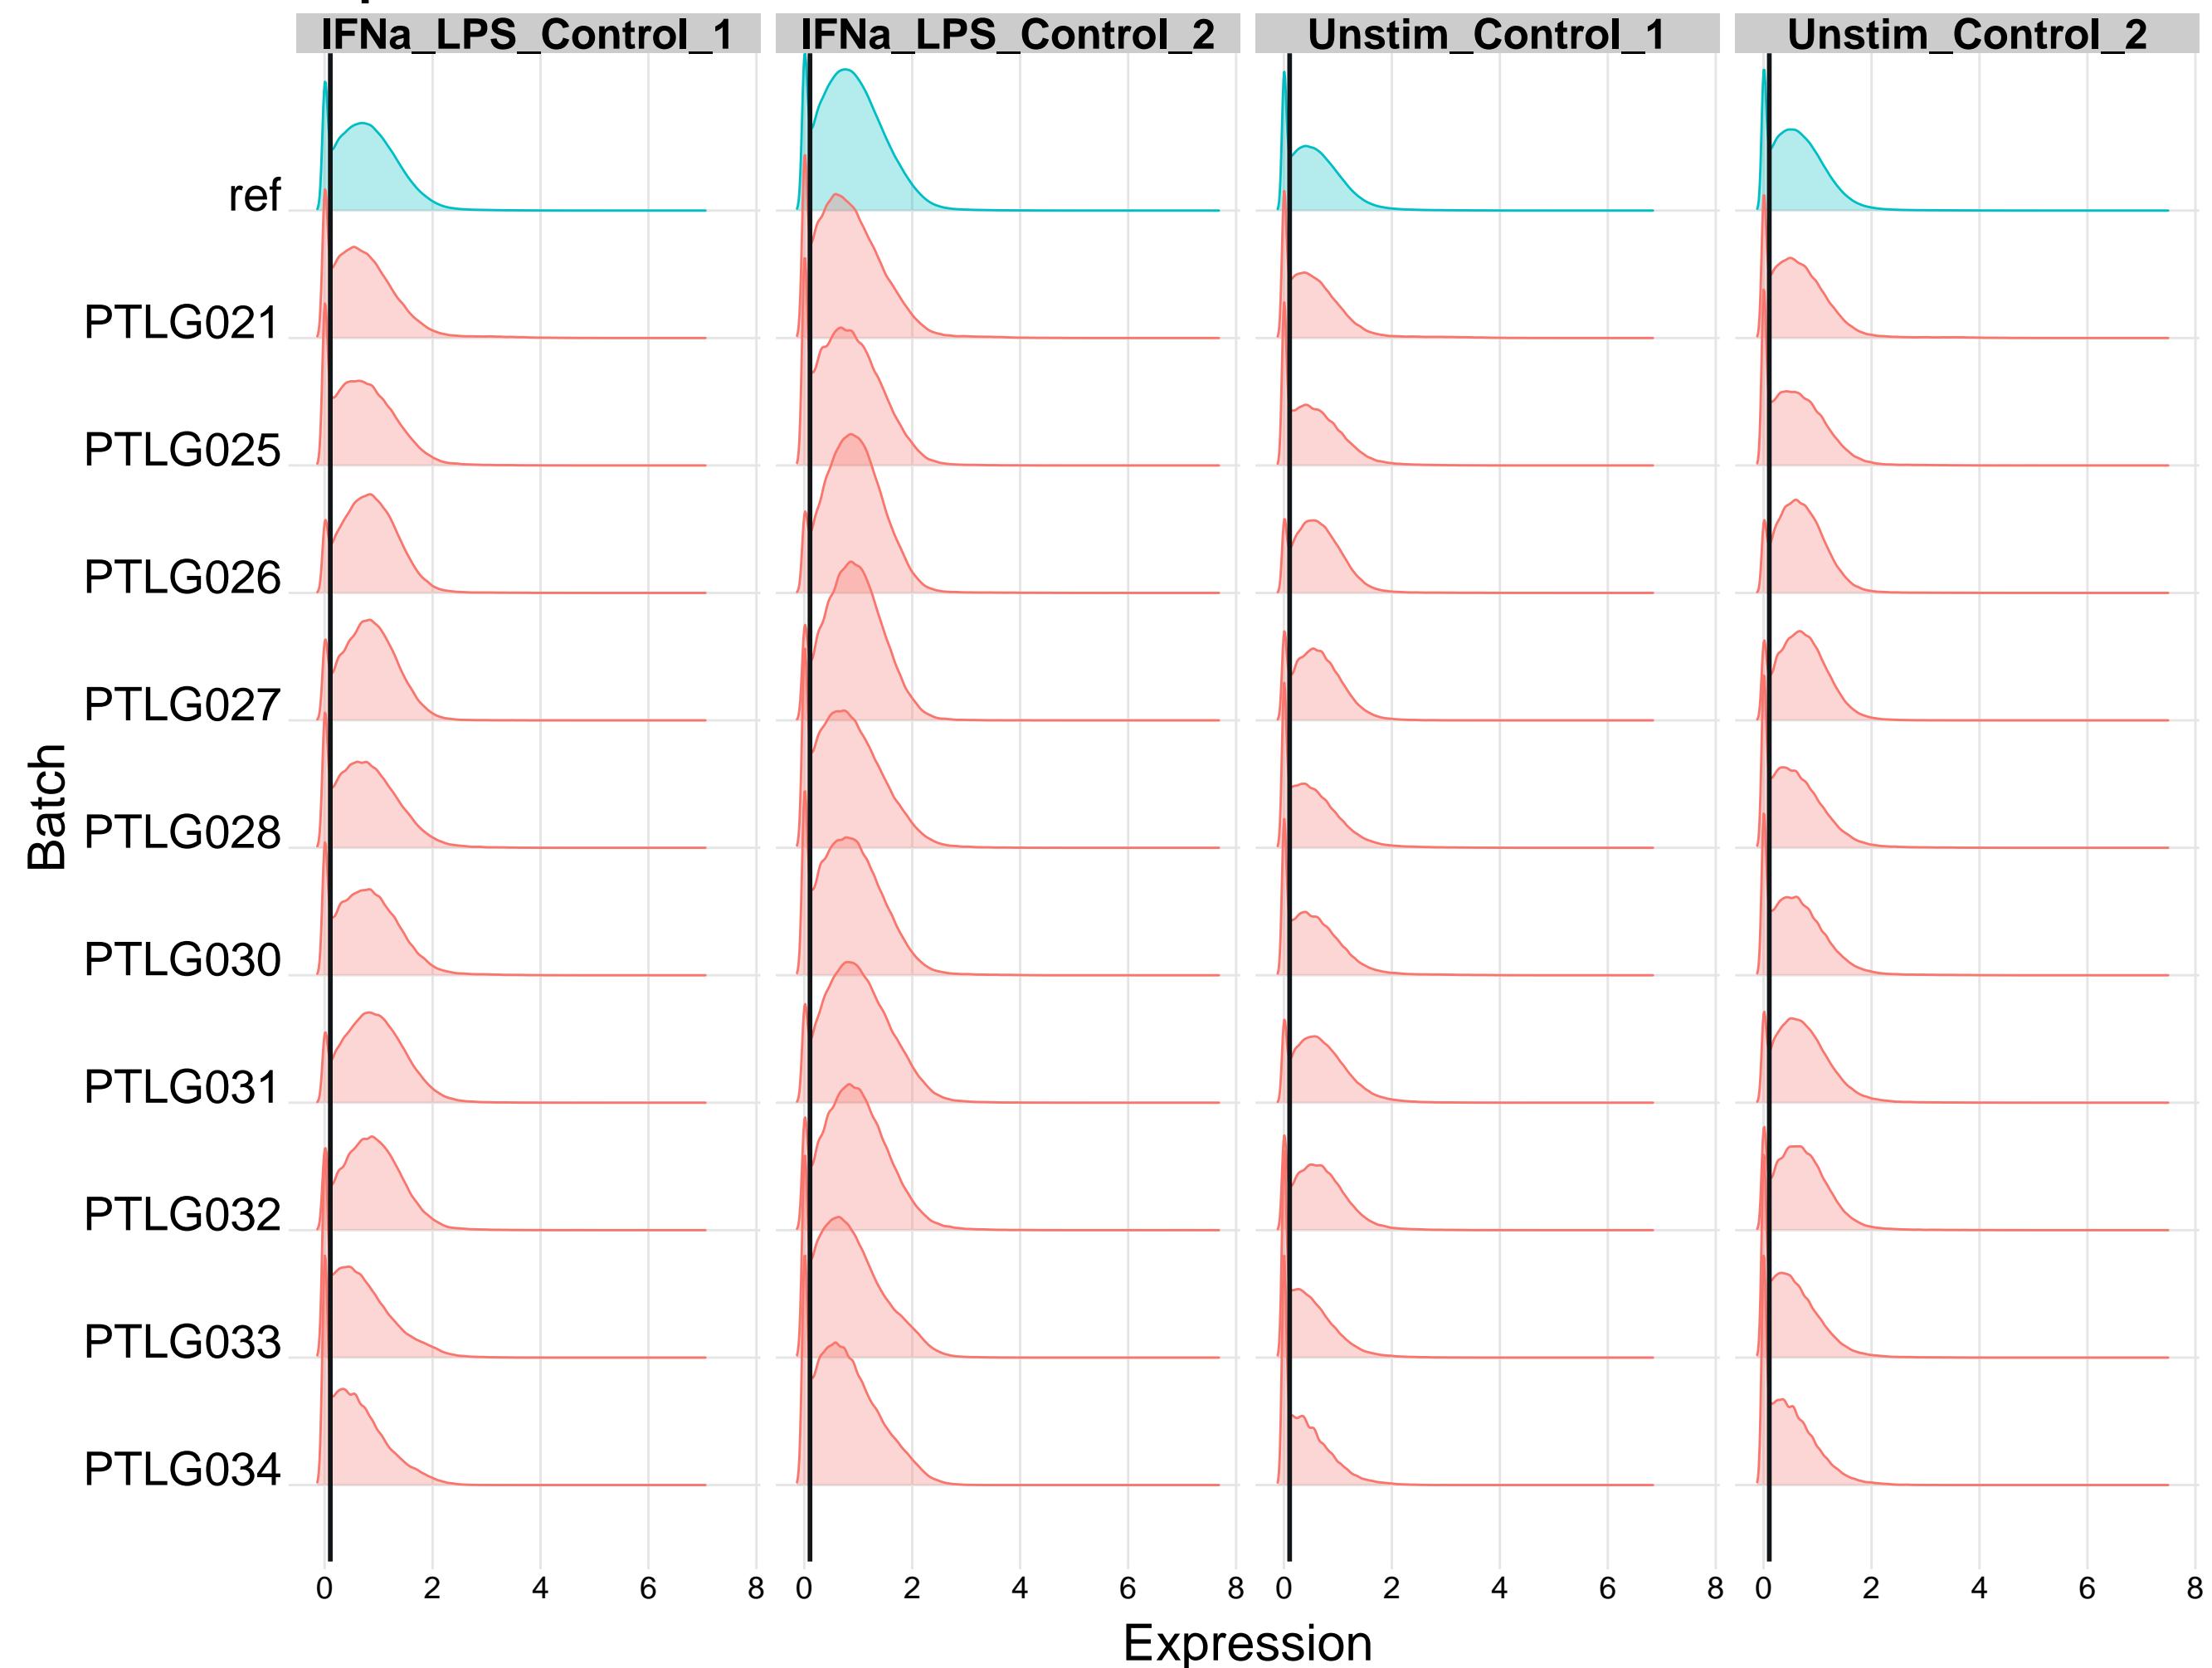

Expression densities for STAT1 with automated cutoff

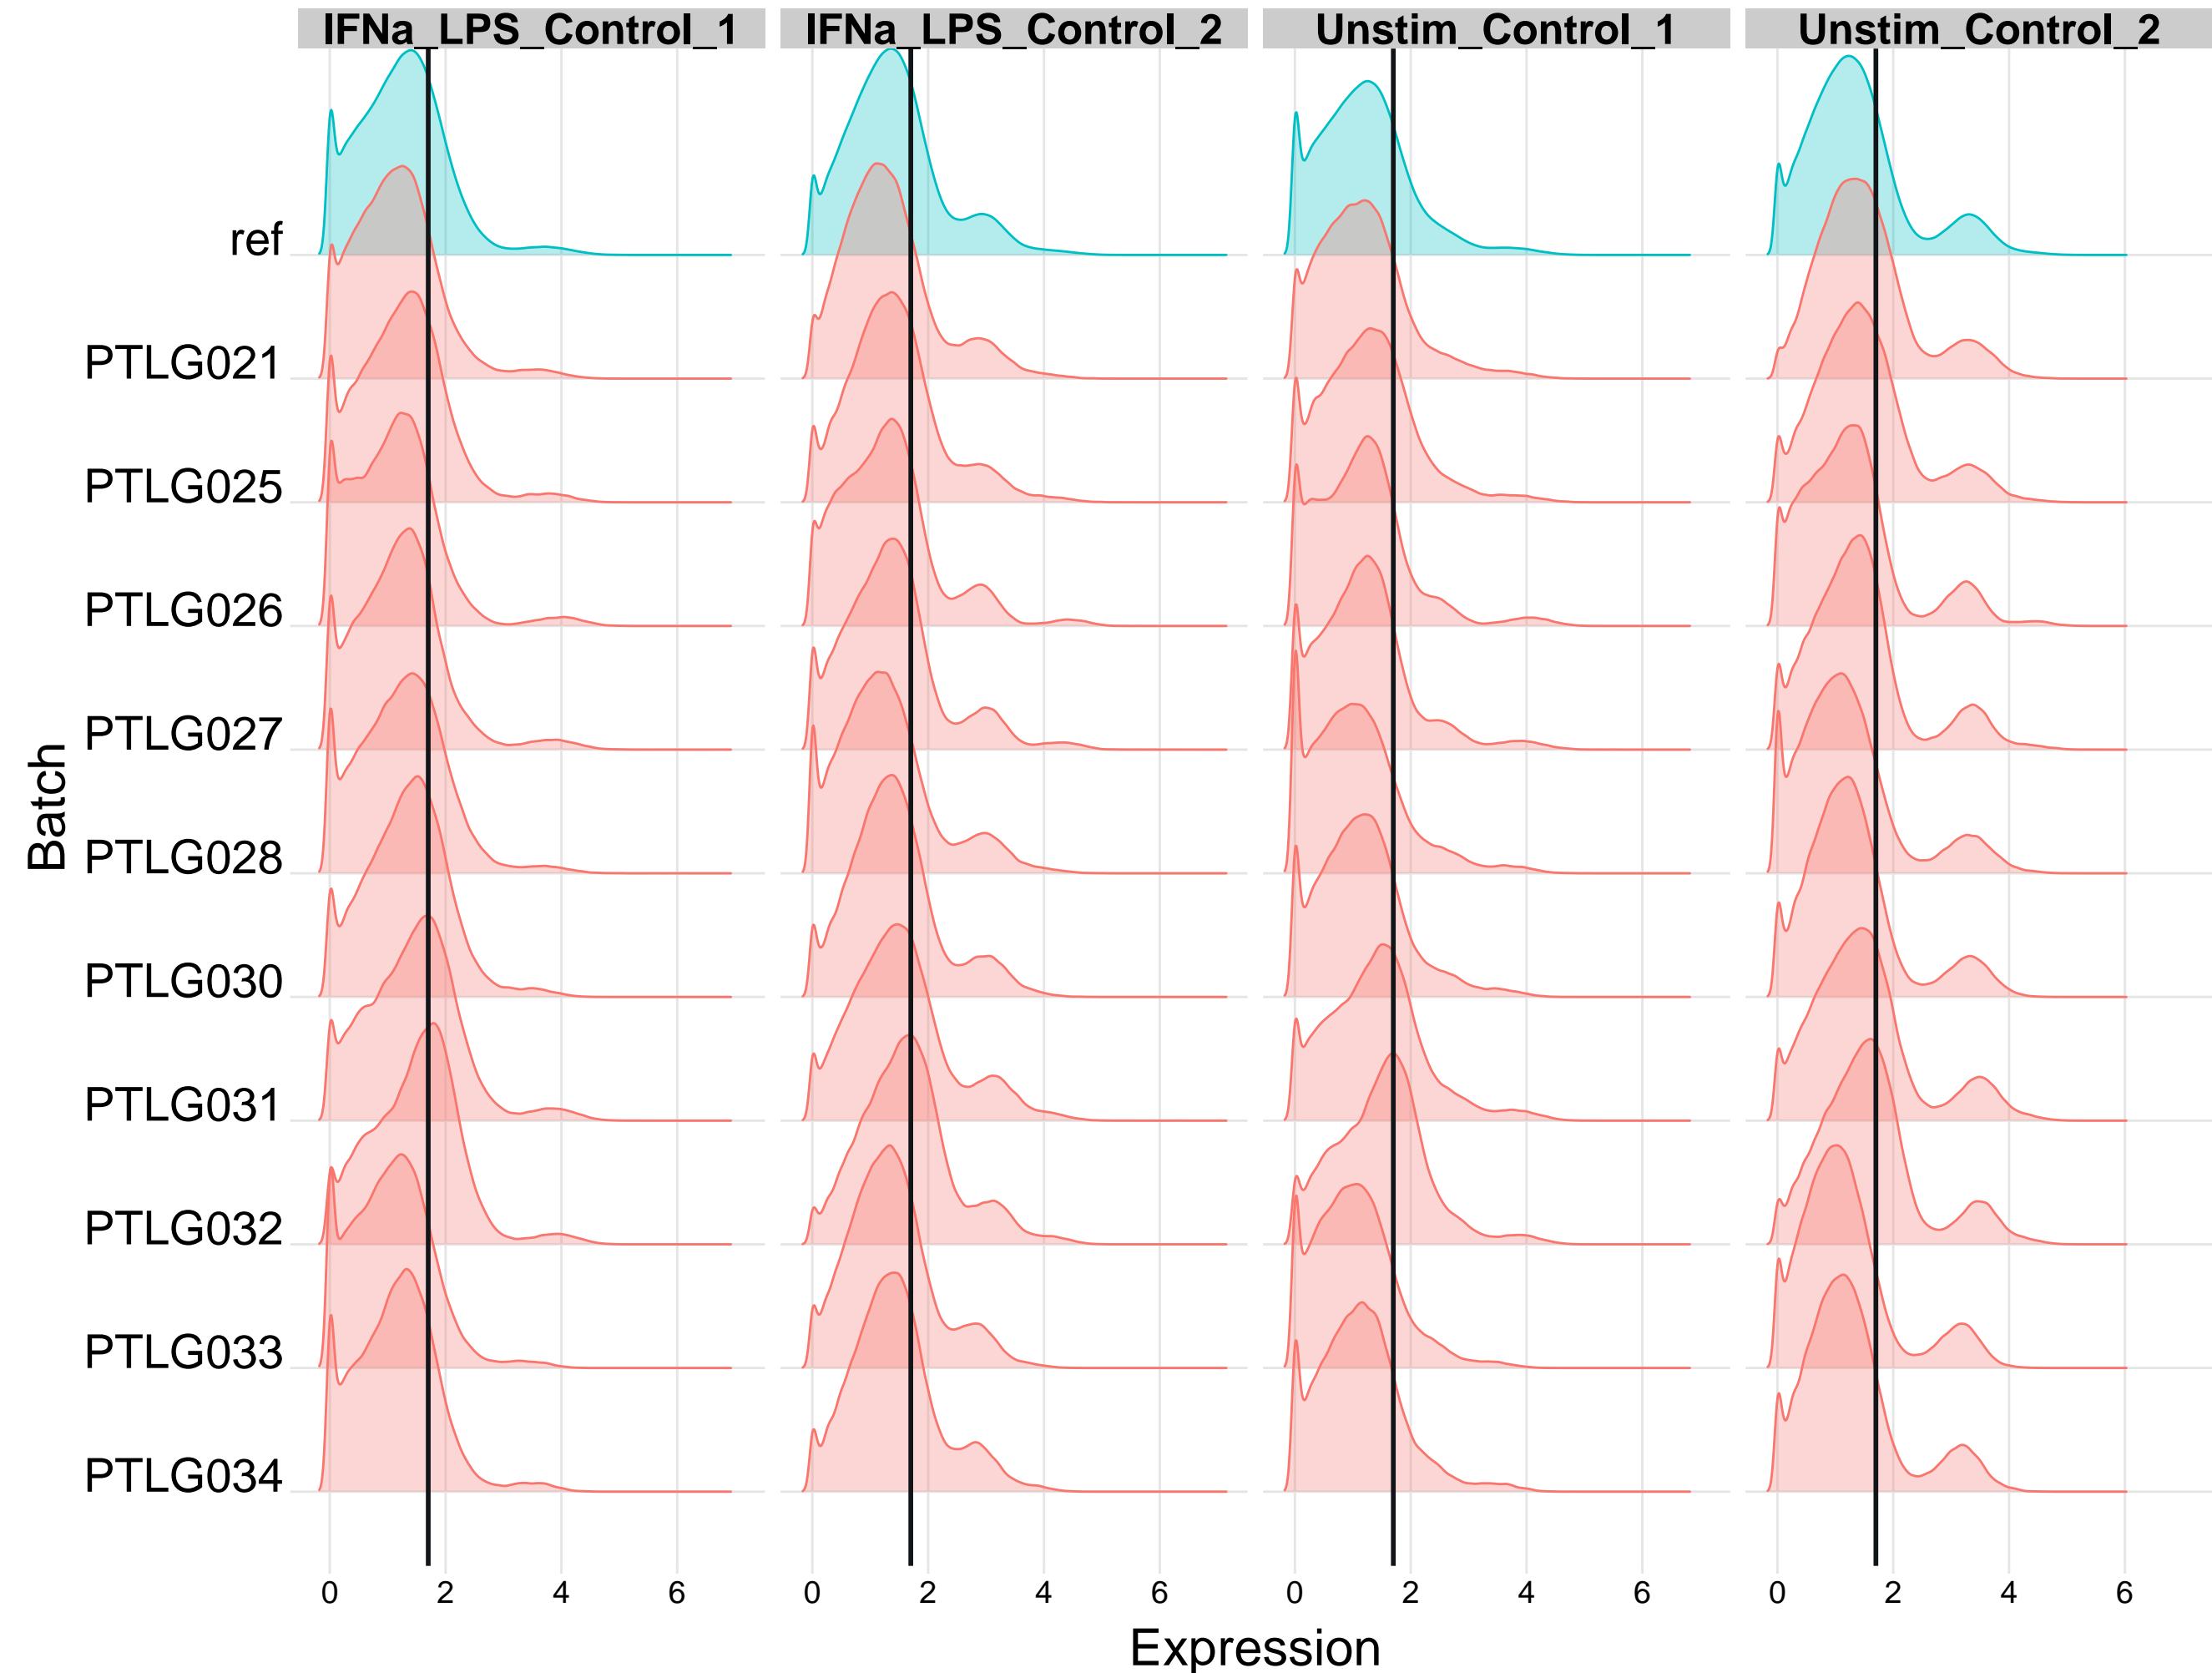

Expression densities for STAT3 with automated cutoff

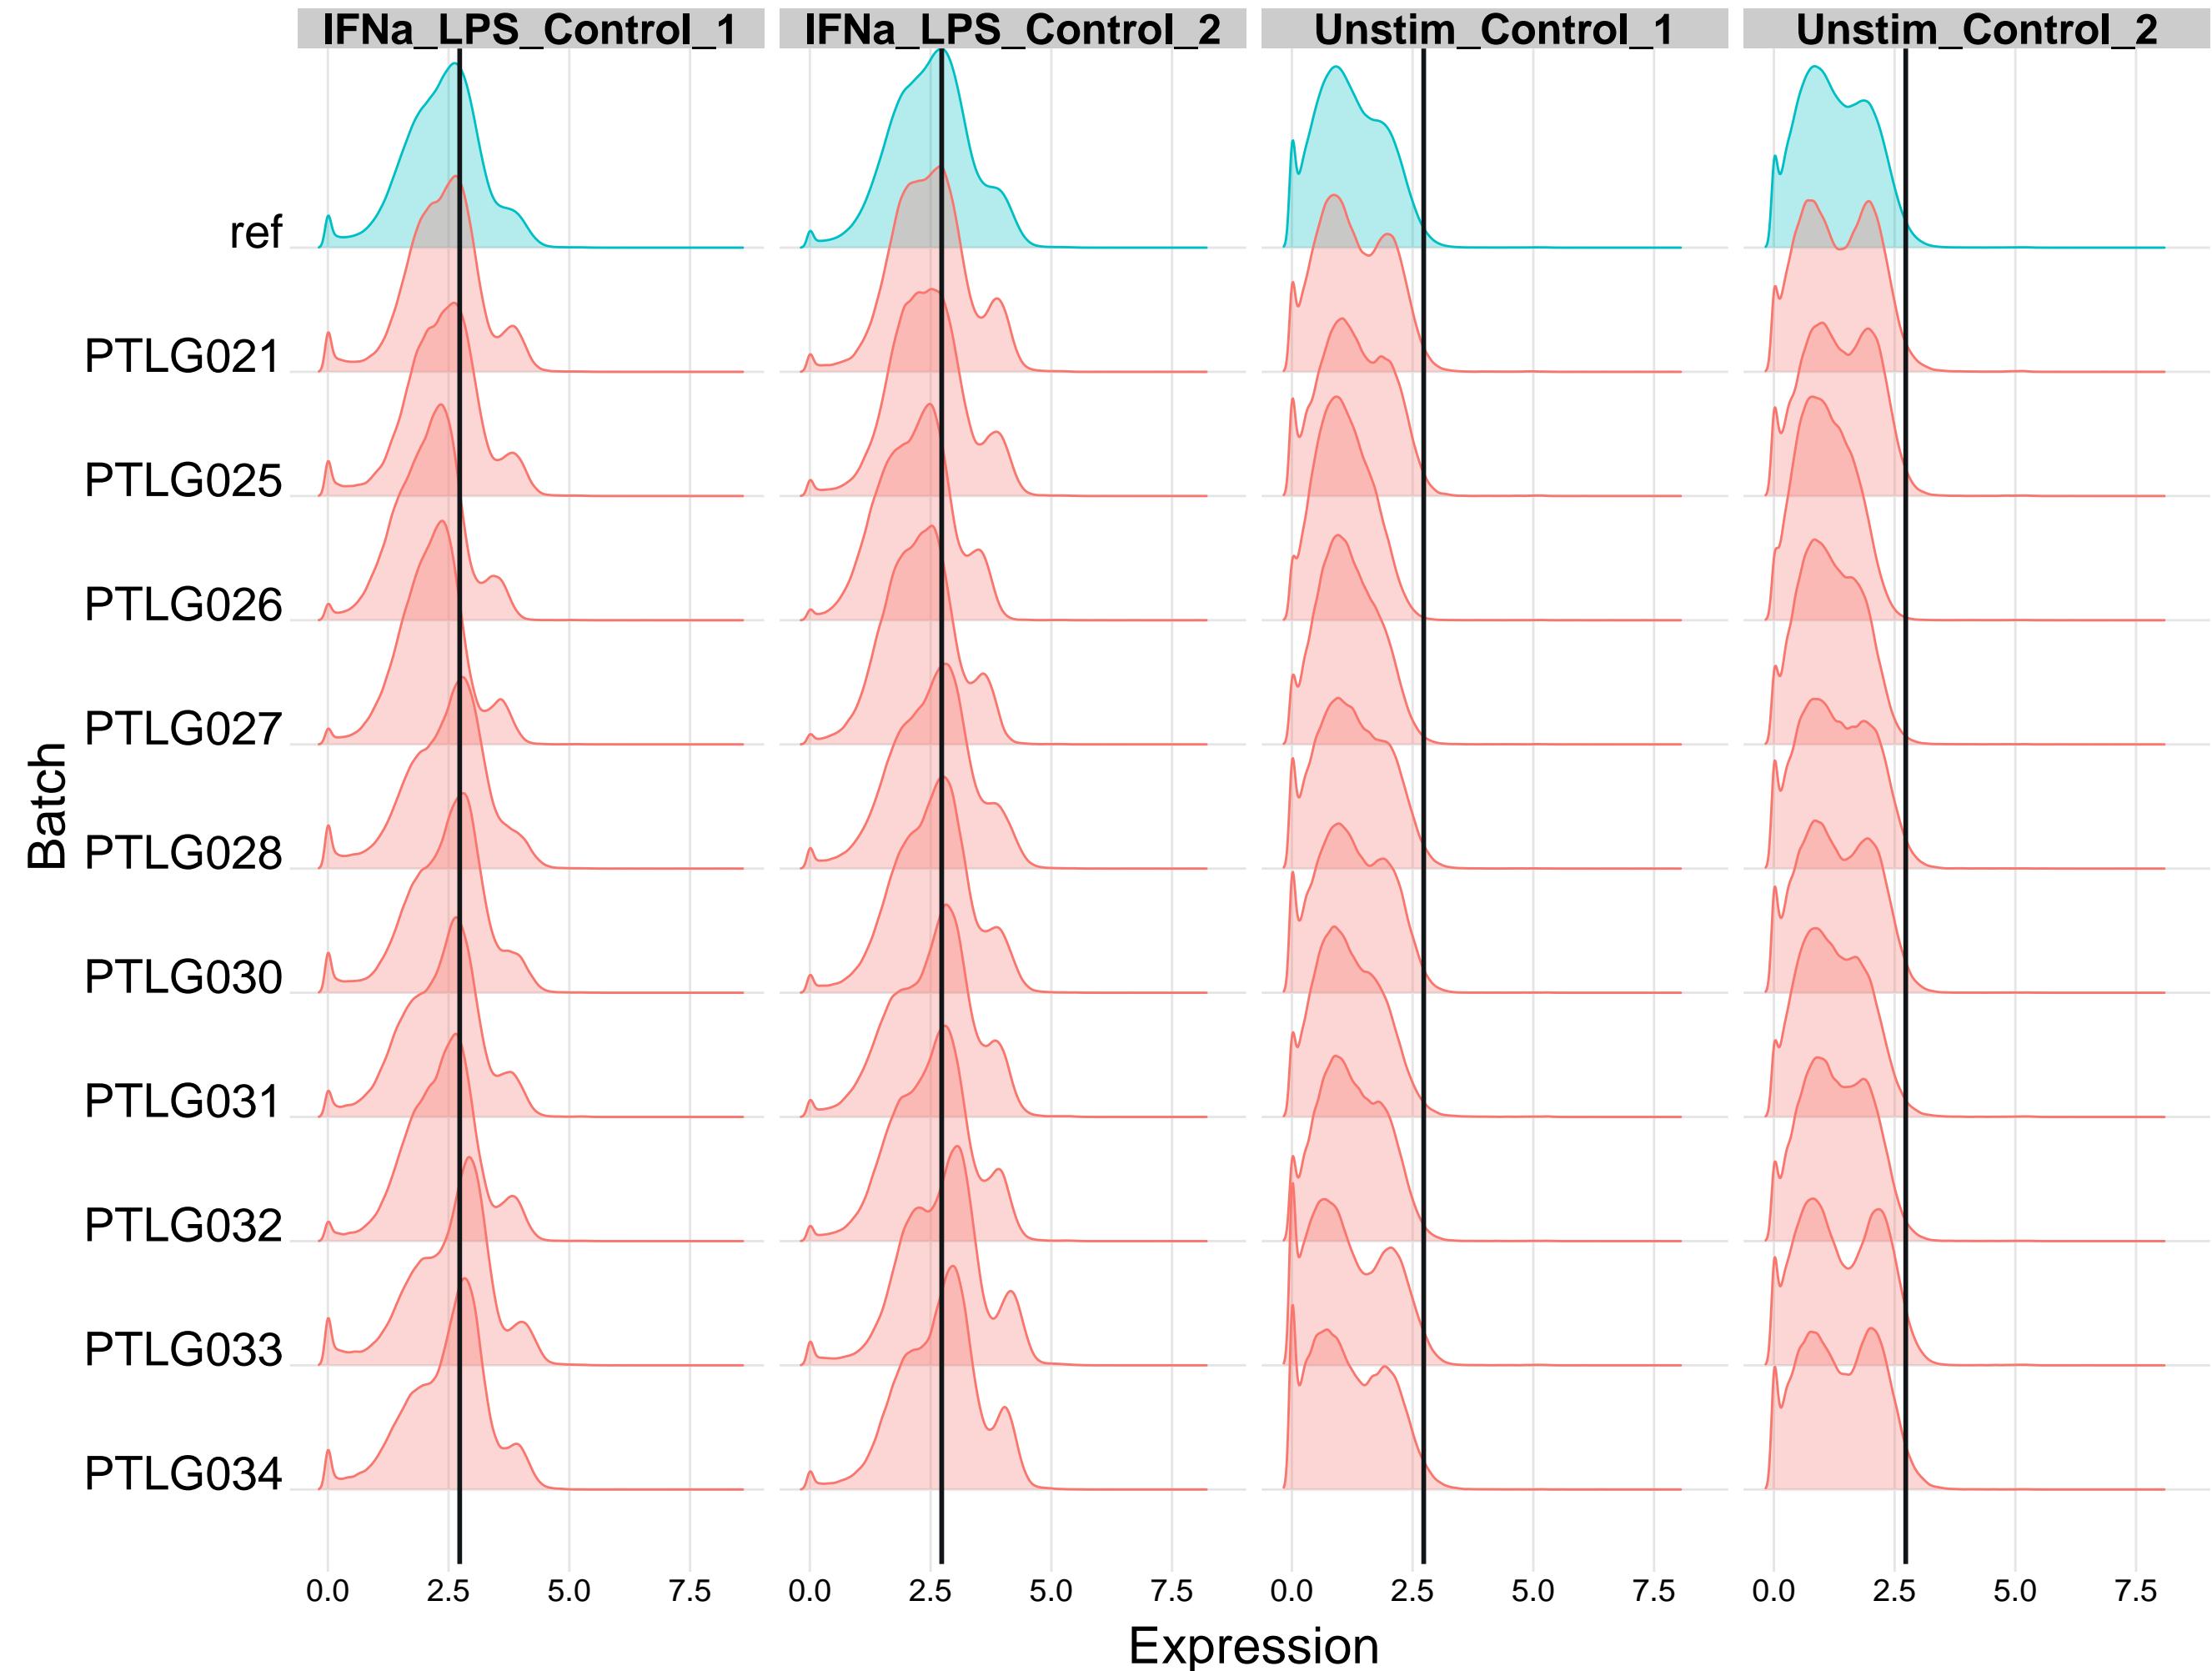

Expression densities for S6 with automated cutoff

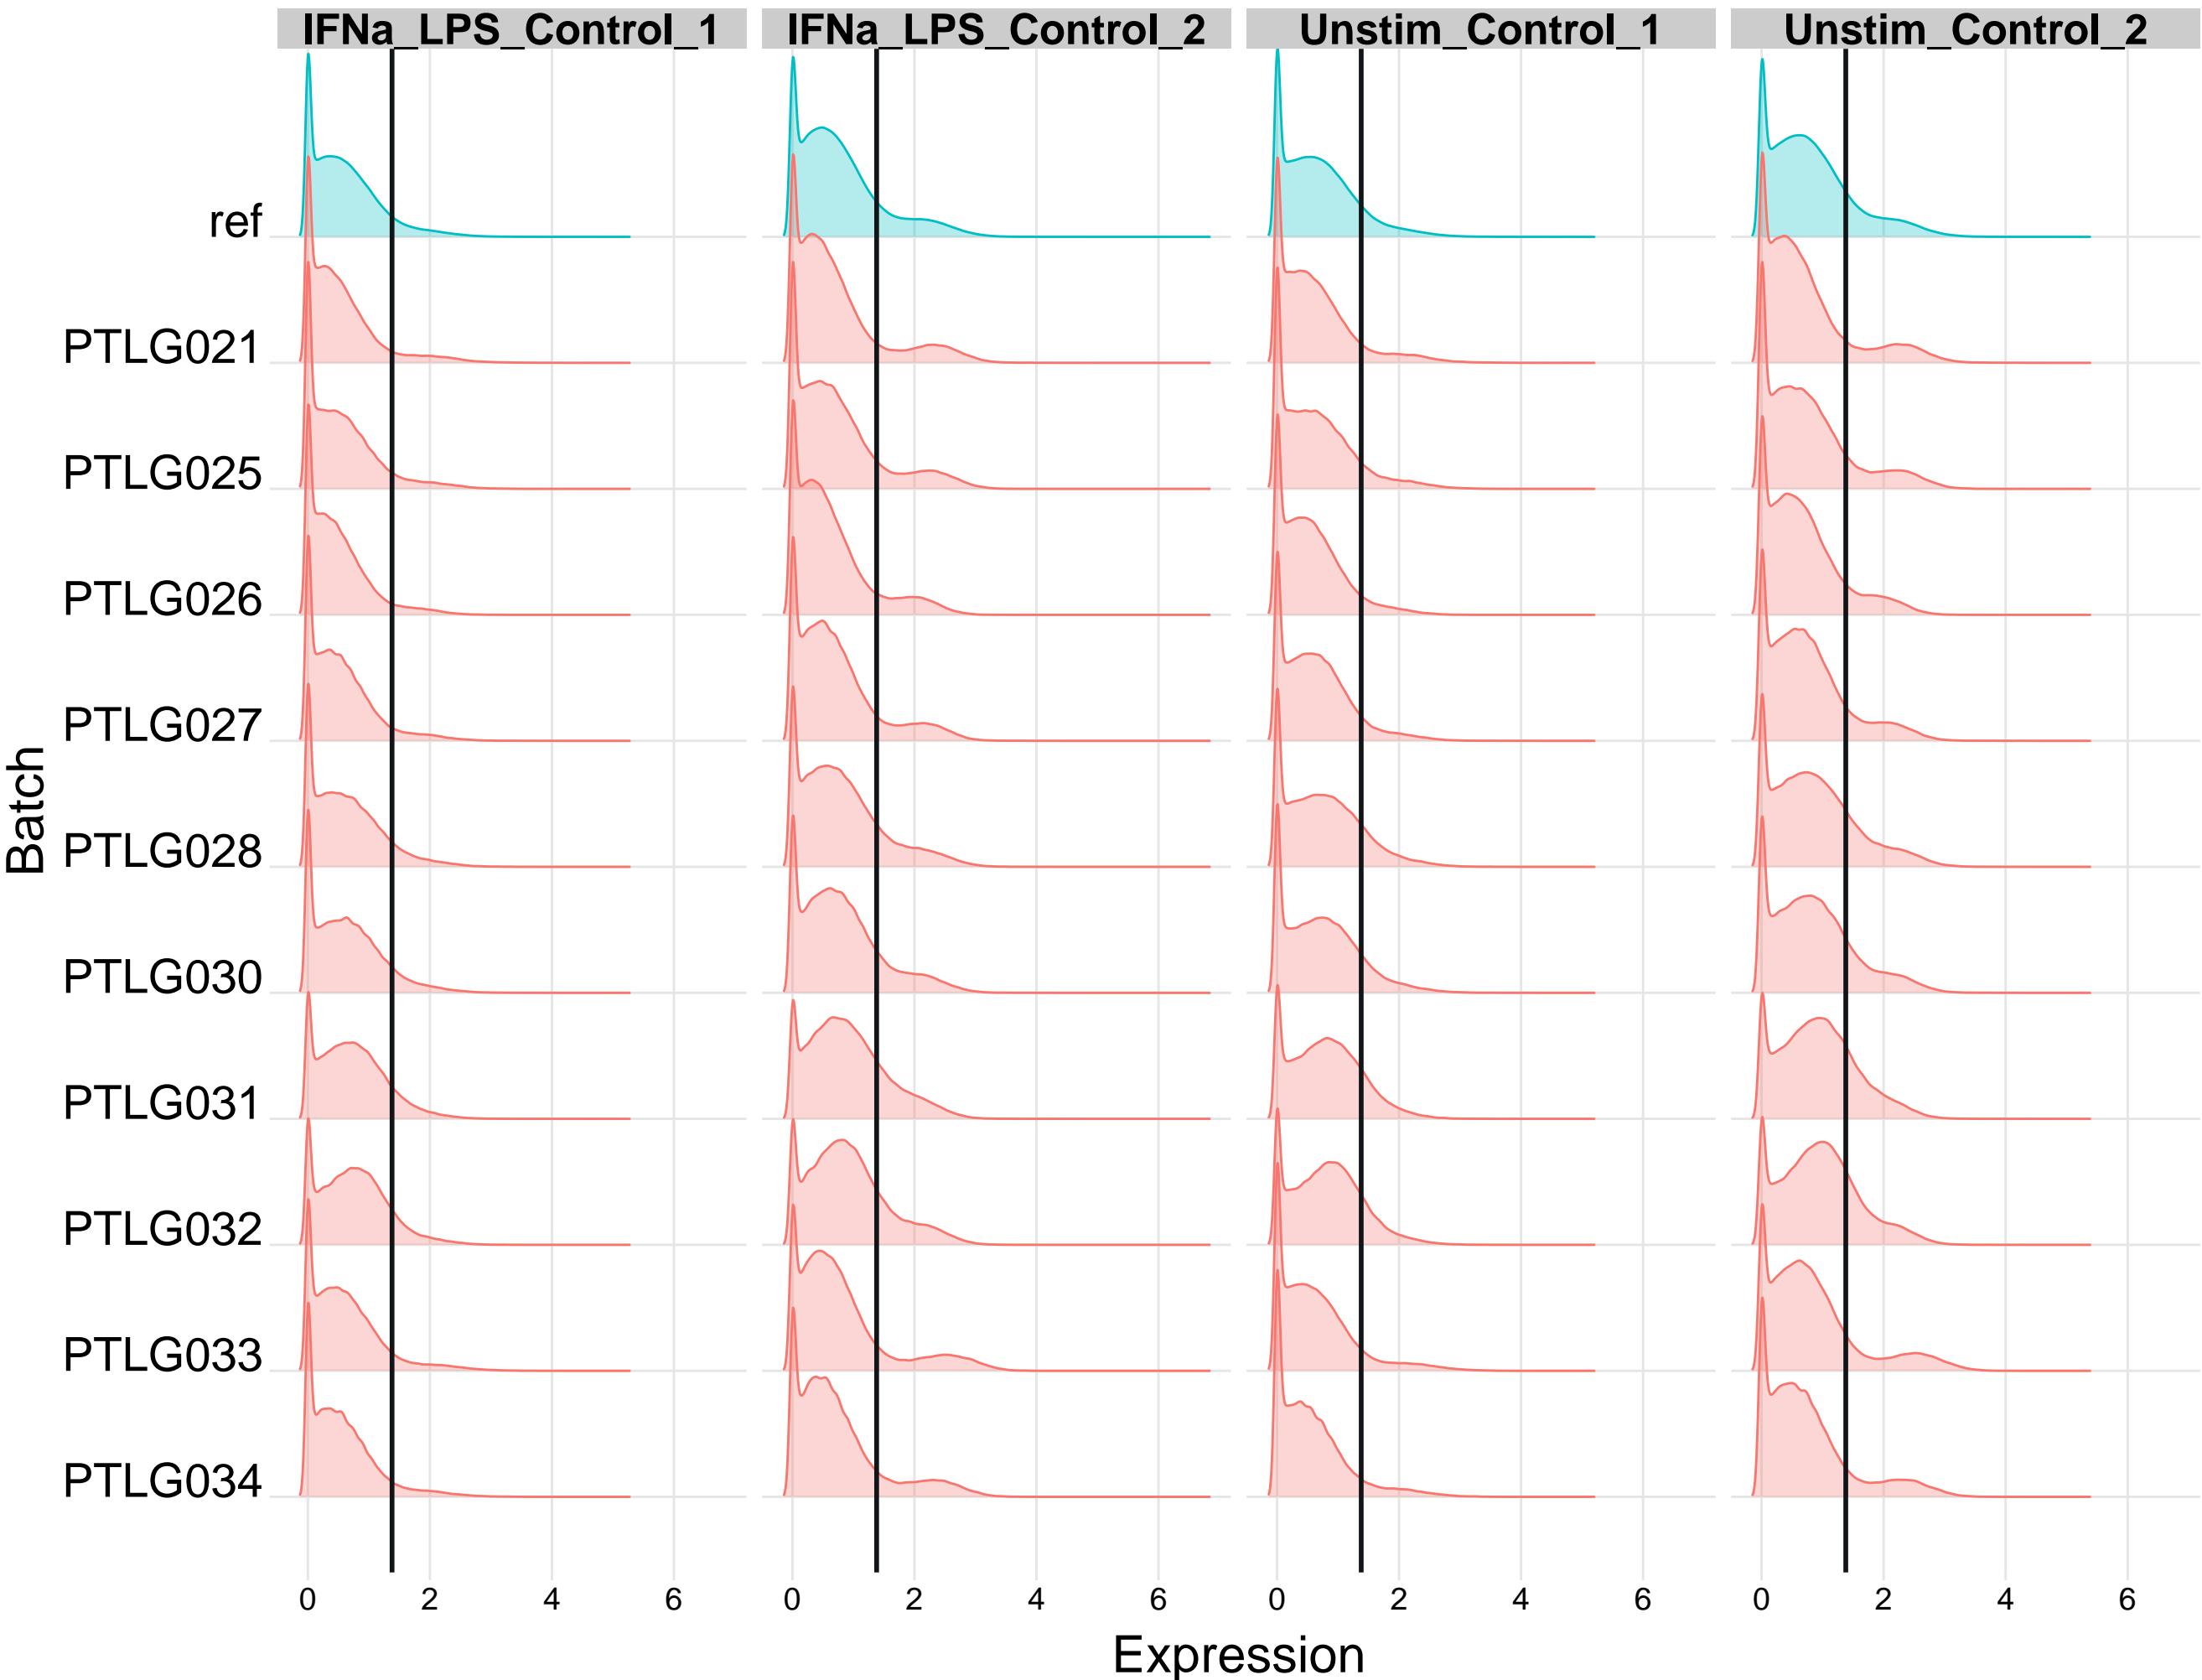

Expression densities for CD33 with automated cutoff

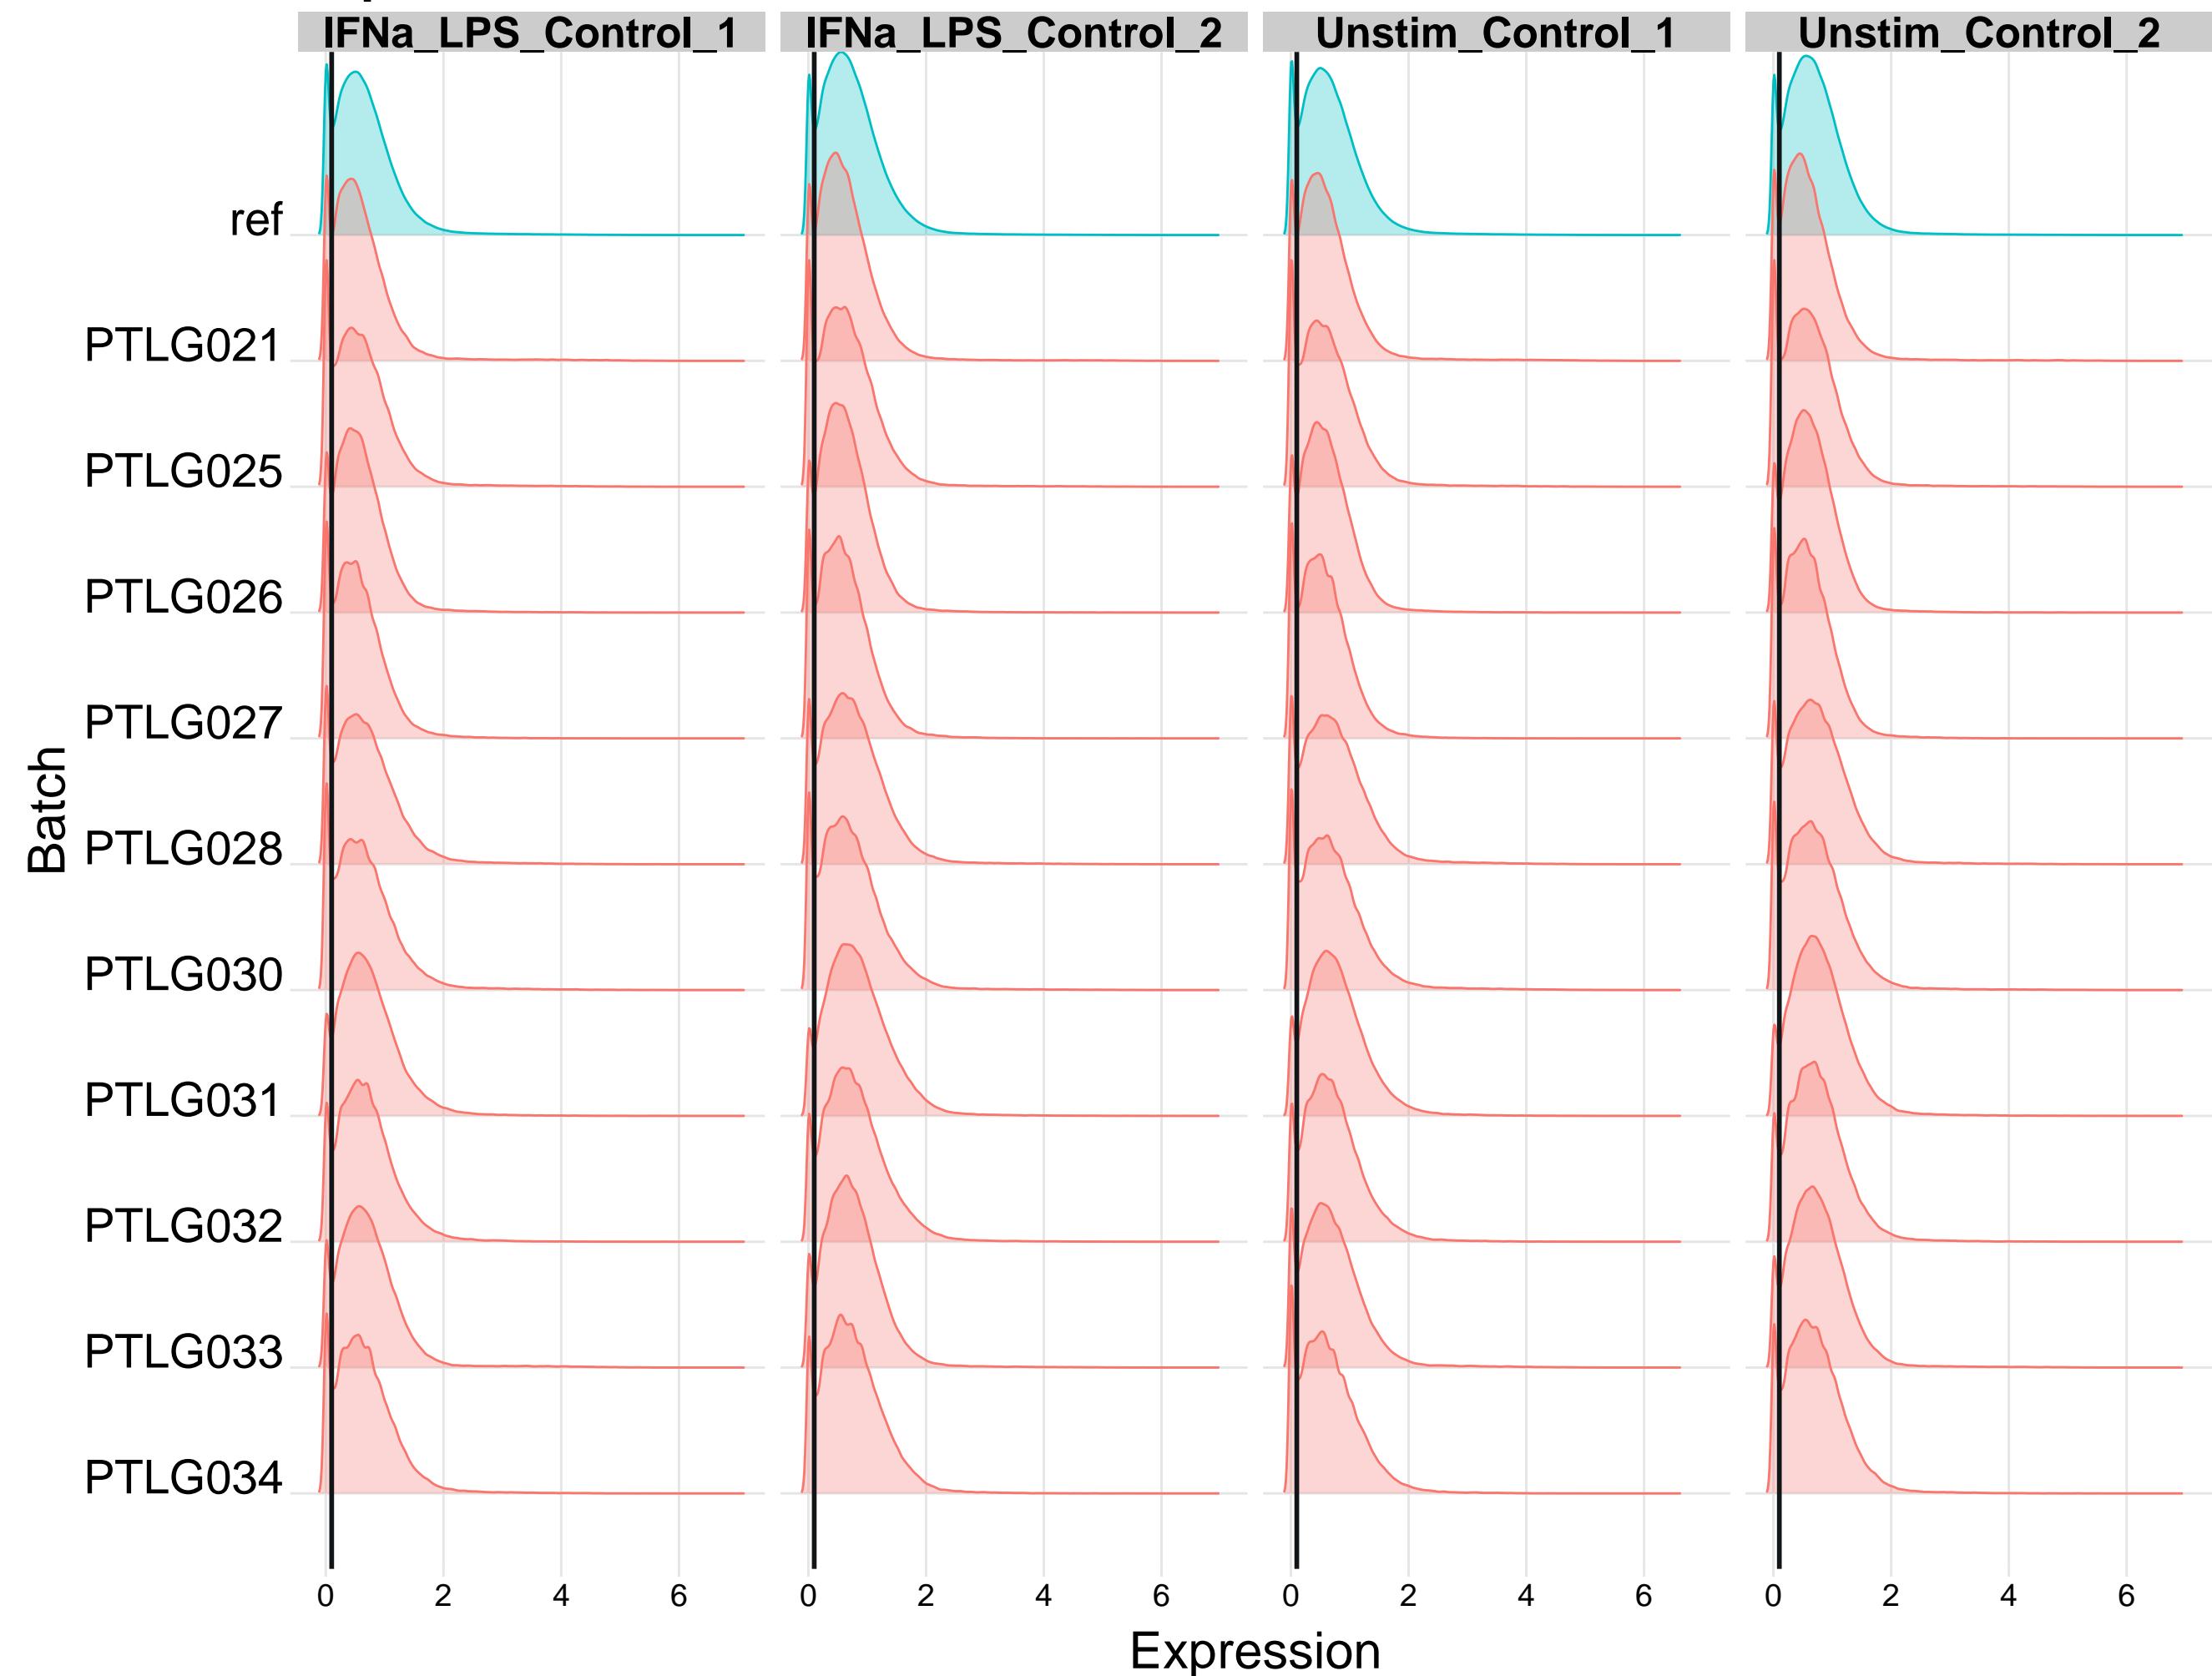

Expression densities for MAPKAPK2 with automated cutoff

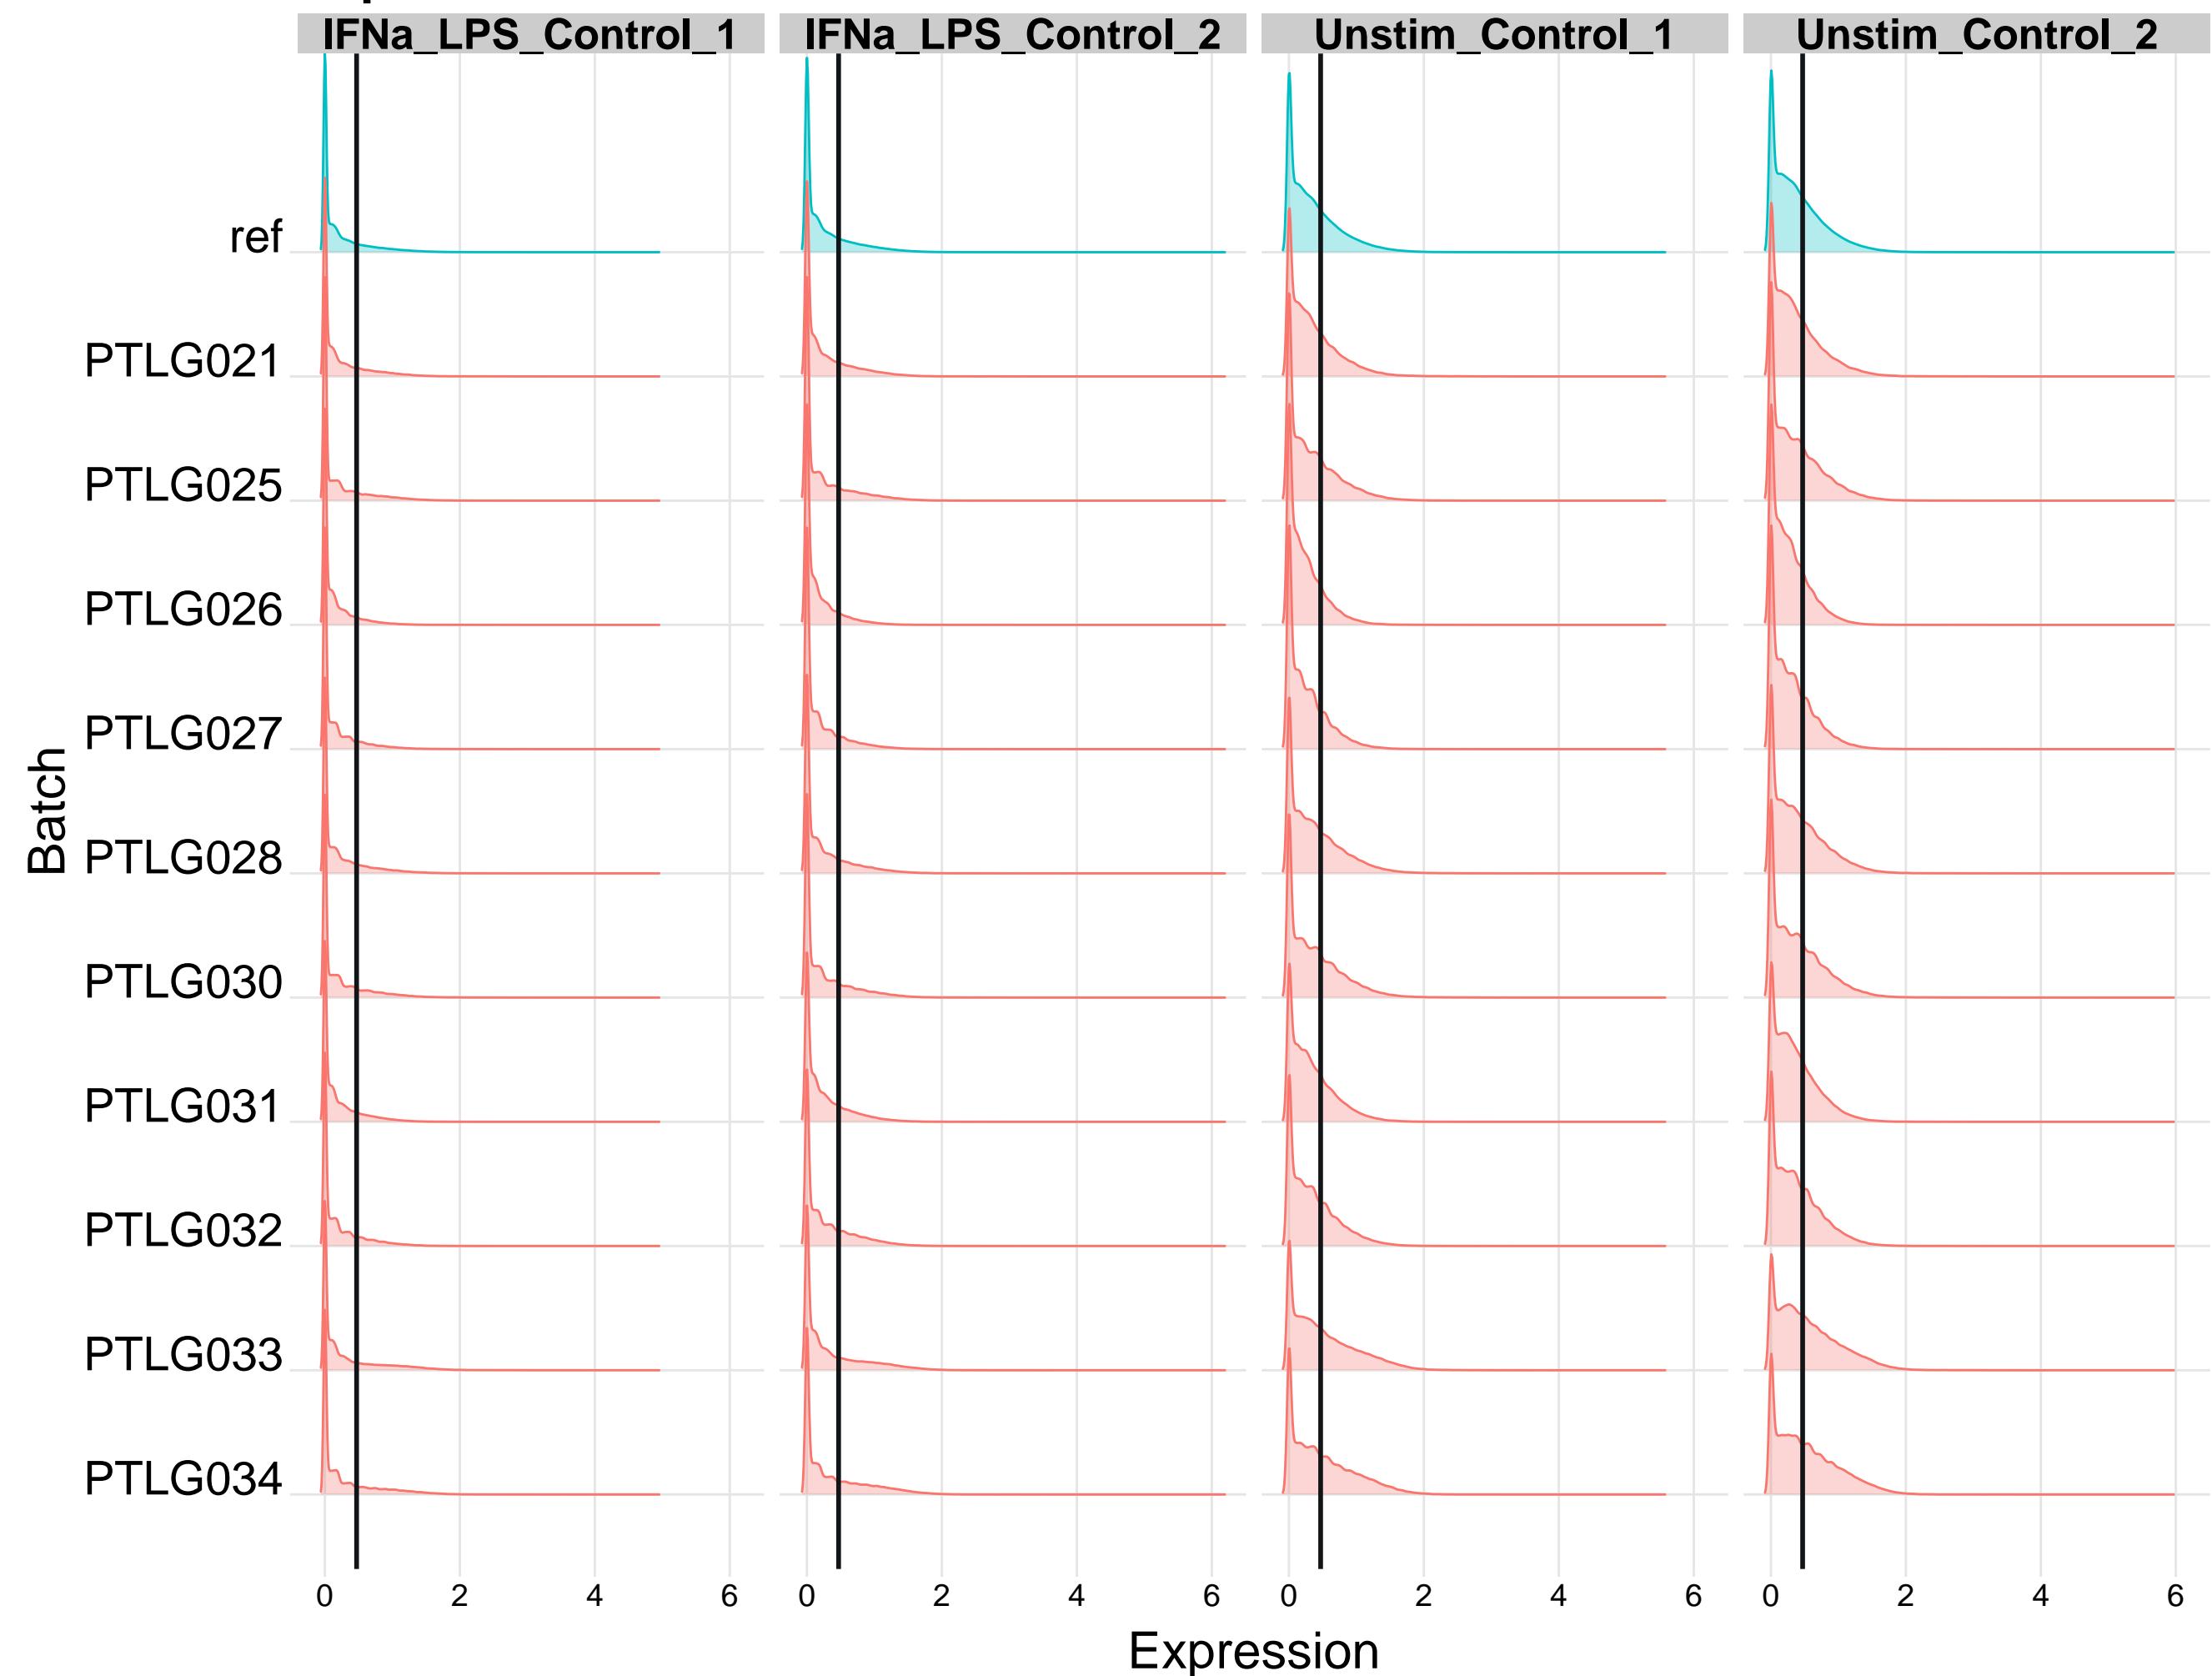

Expression densities for Tbet with automated cutoff

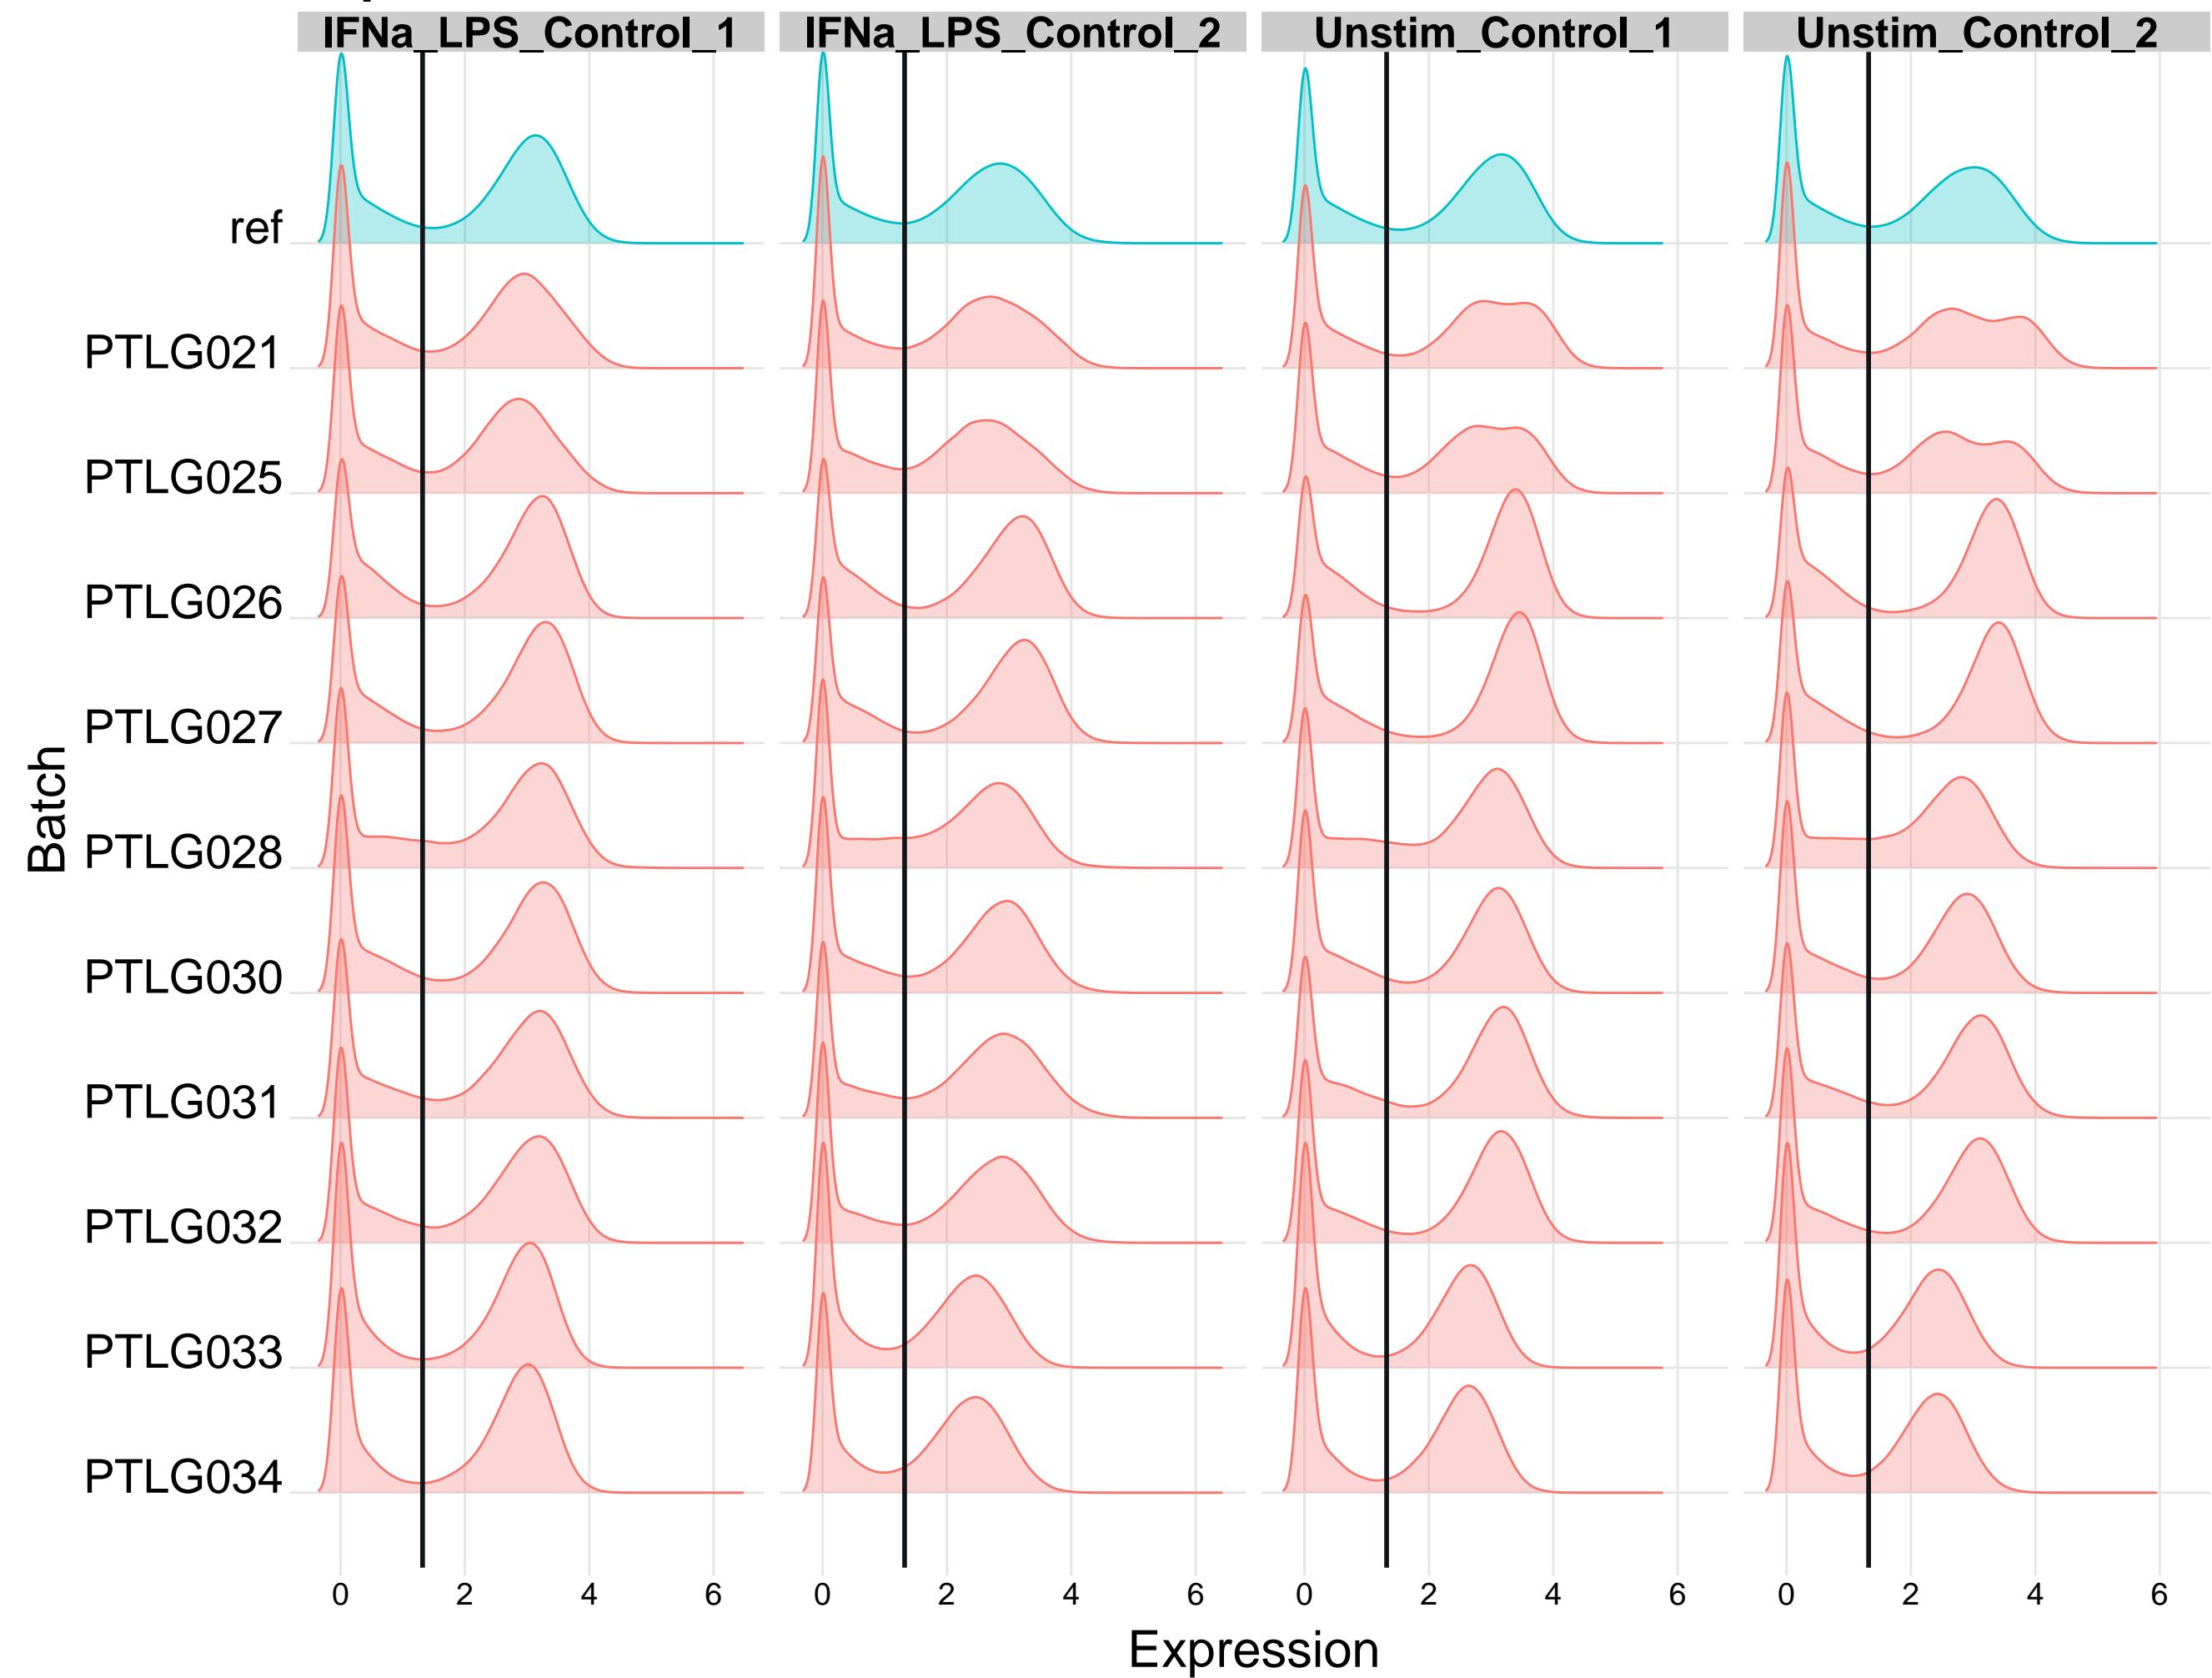

Expression densities for FoxP3 with automated cutoff

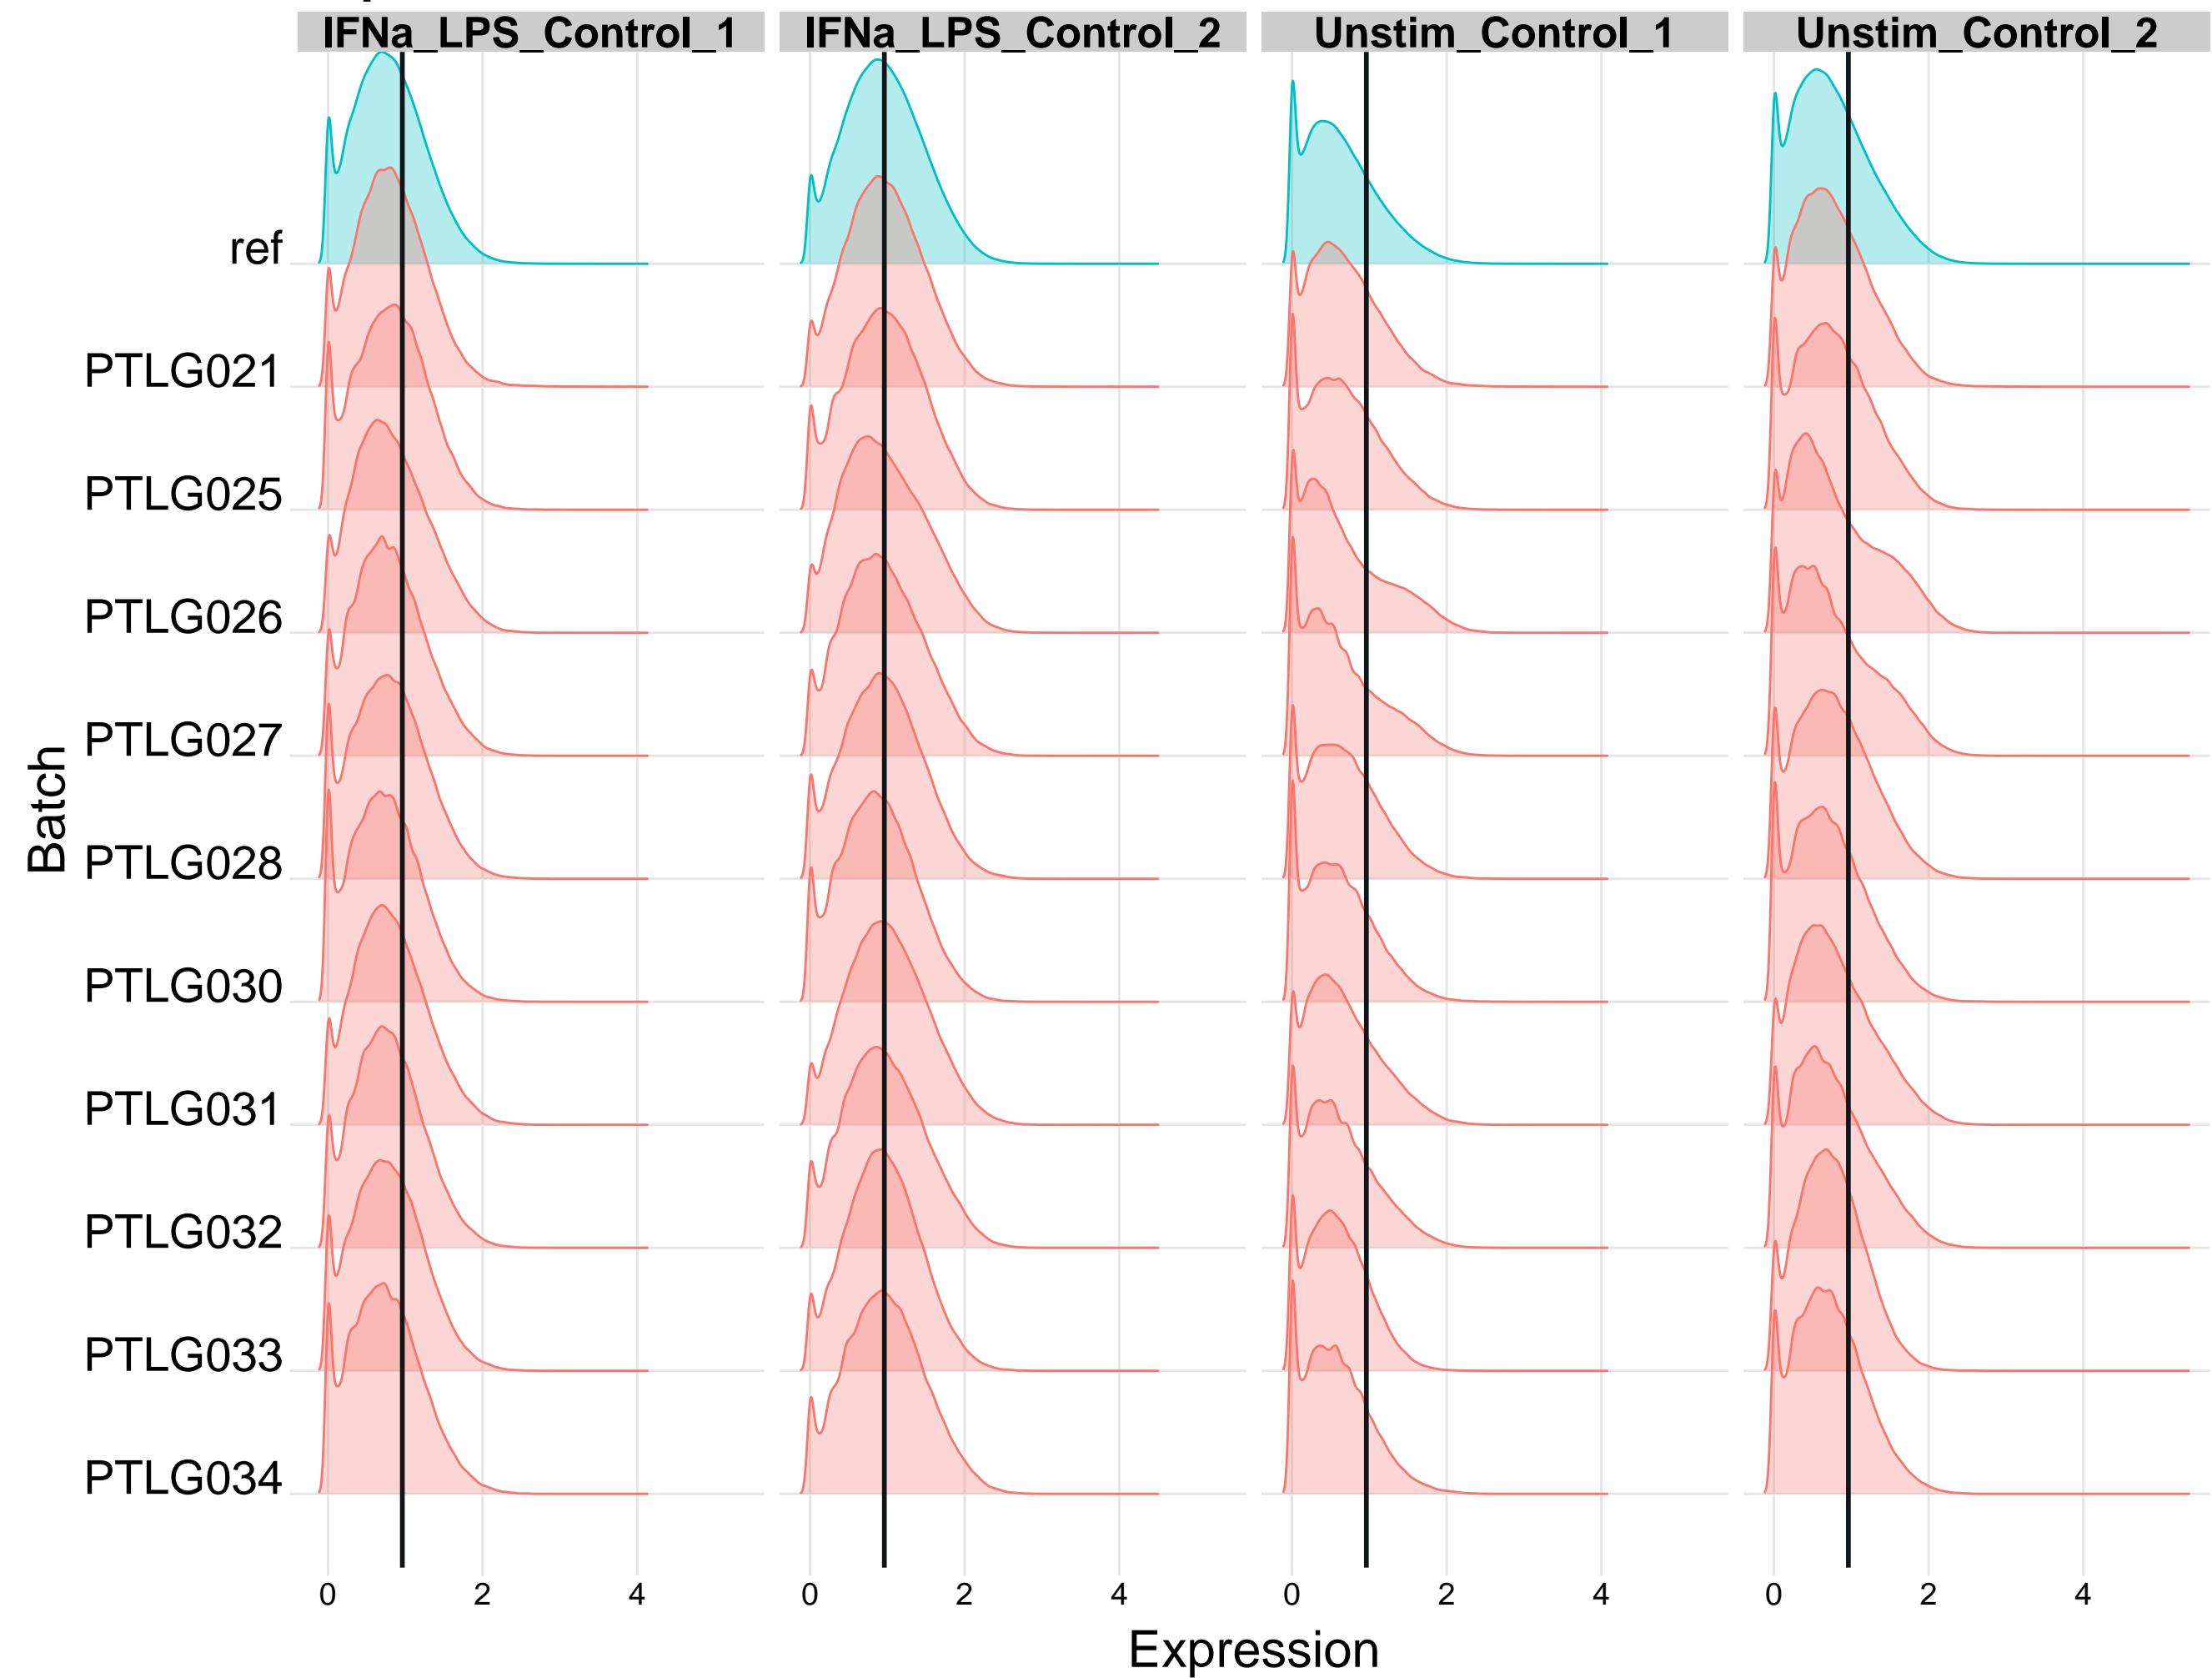

Expression densities for IkB with automated cutoff

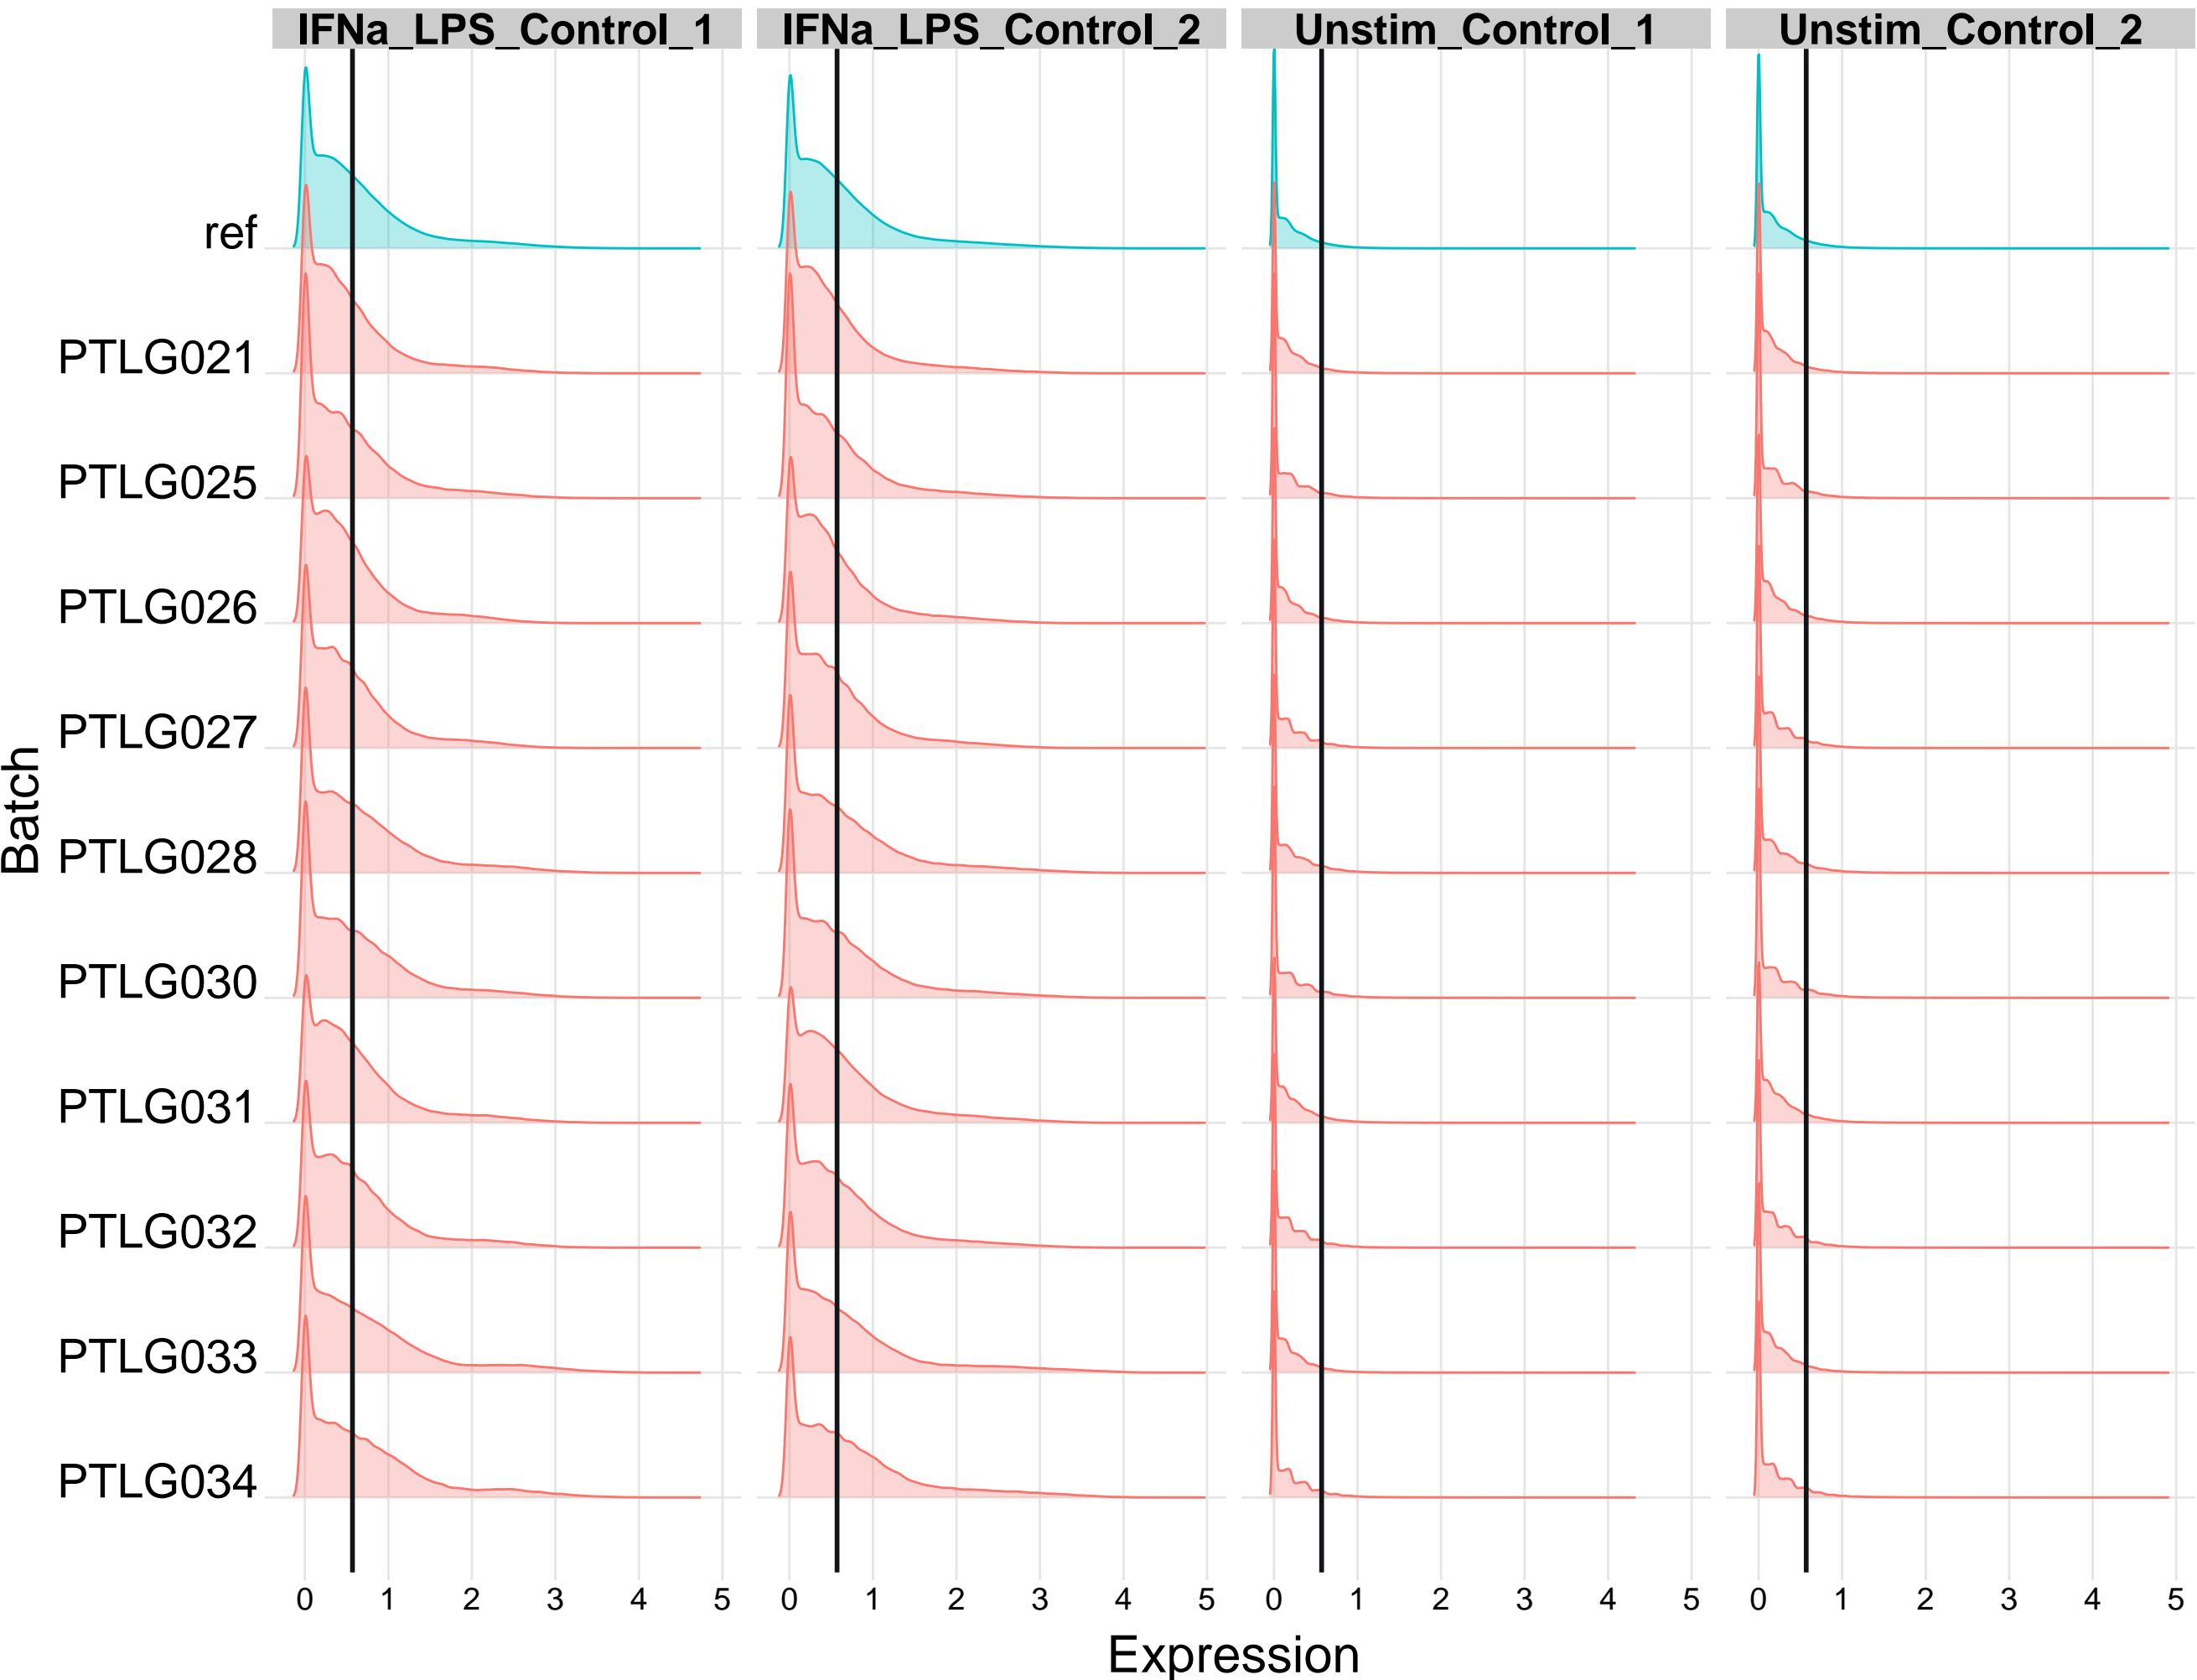

Expression densities for CD16 with automated cutoff

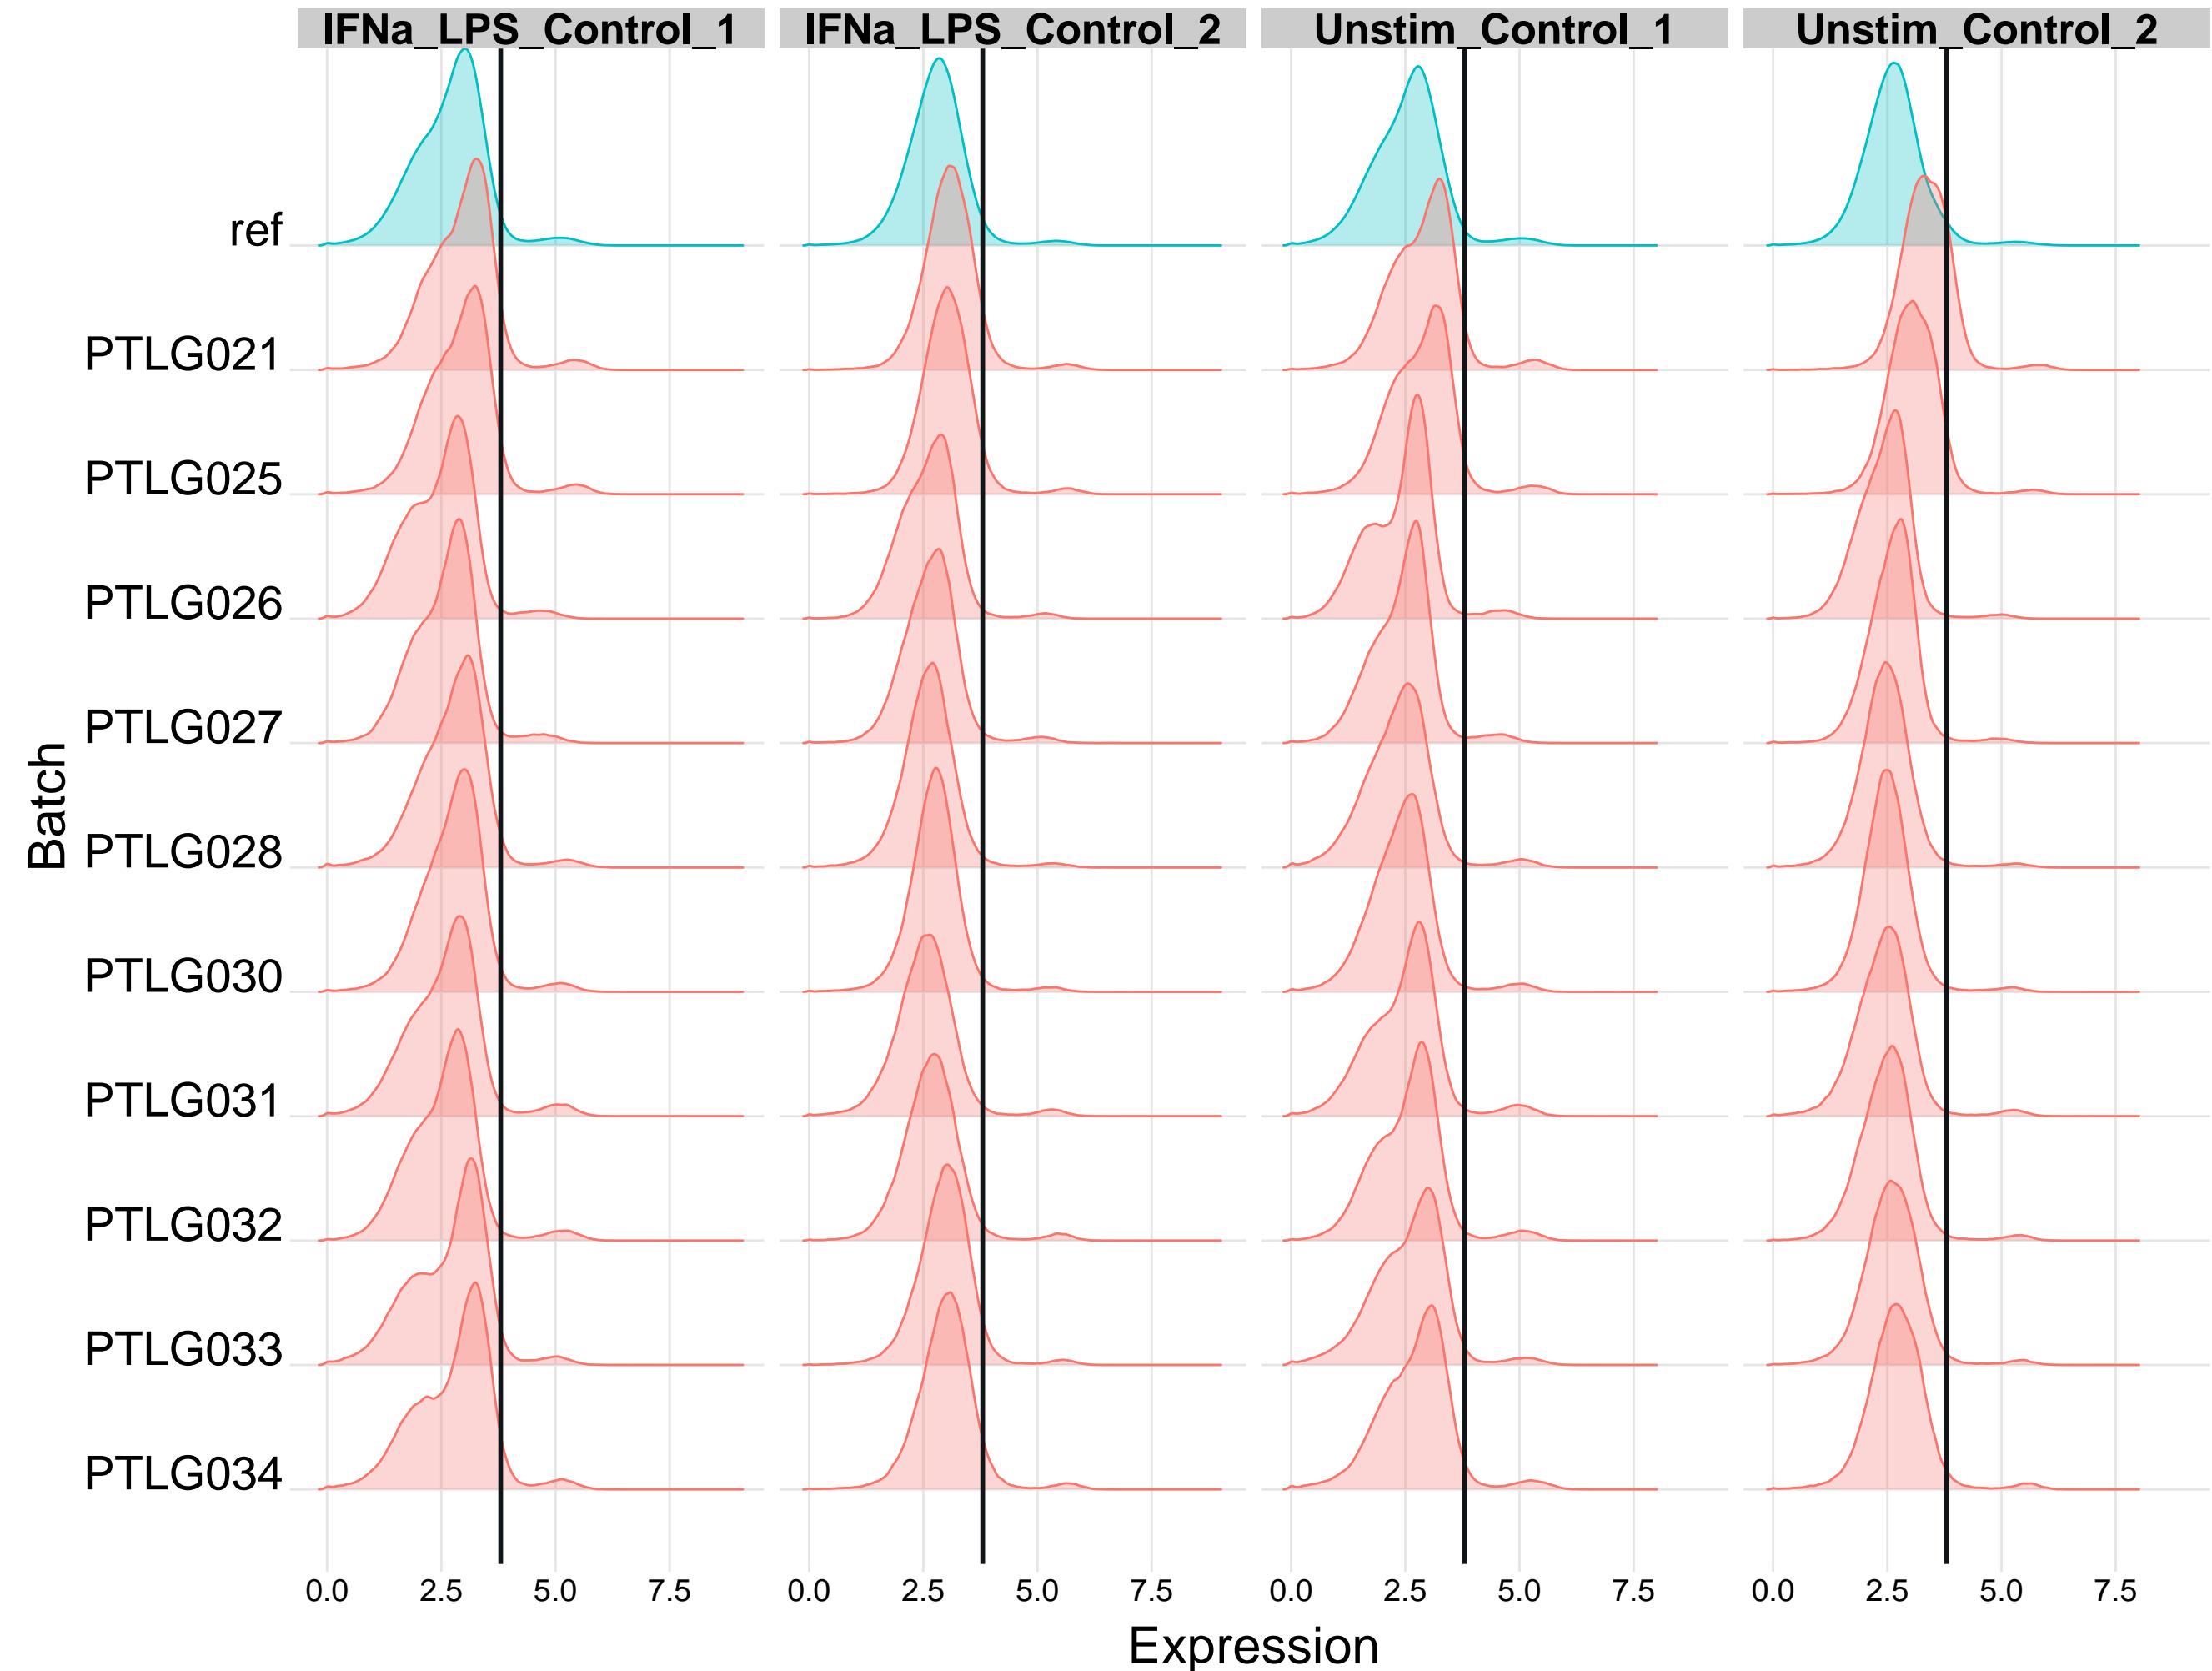

Expression densities for NFkB with automated cutoff

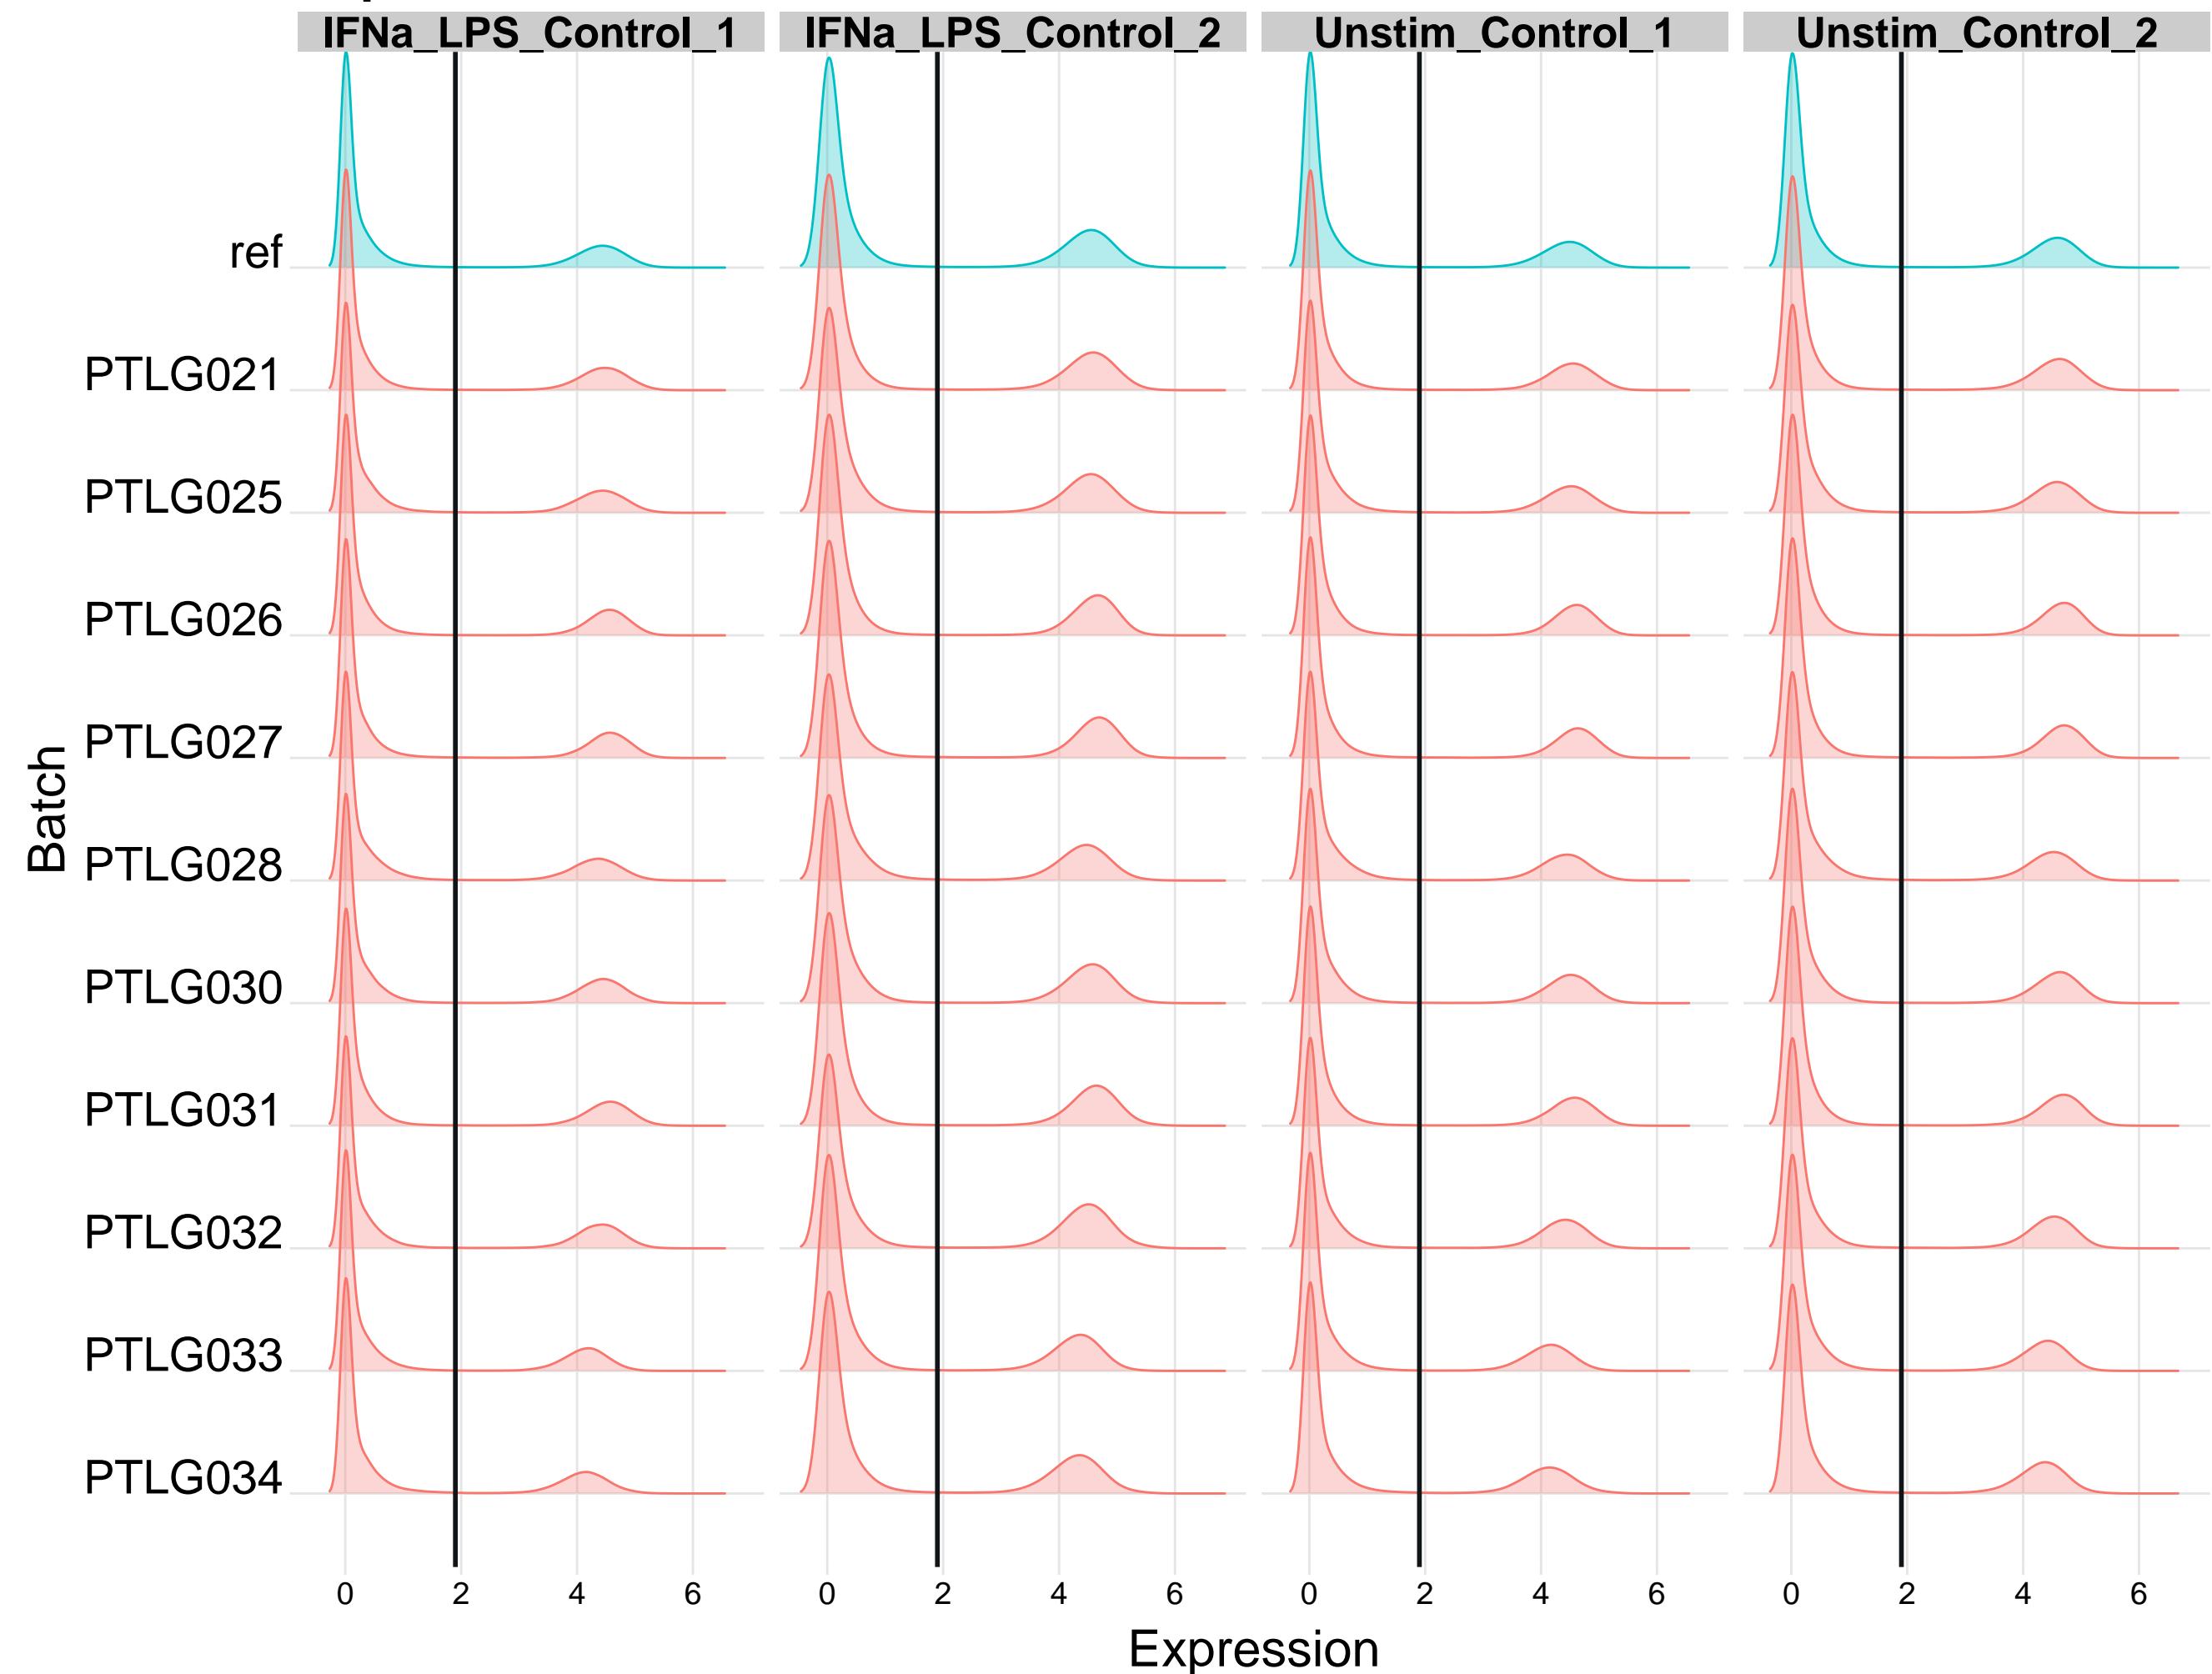

Expression densities for ERK with automated cutoff

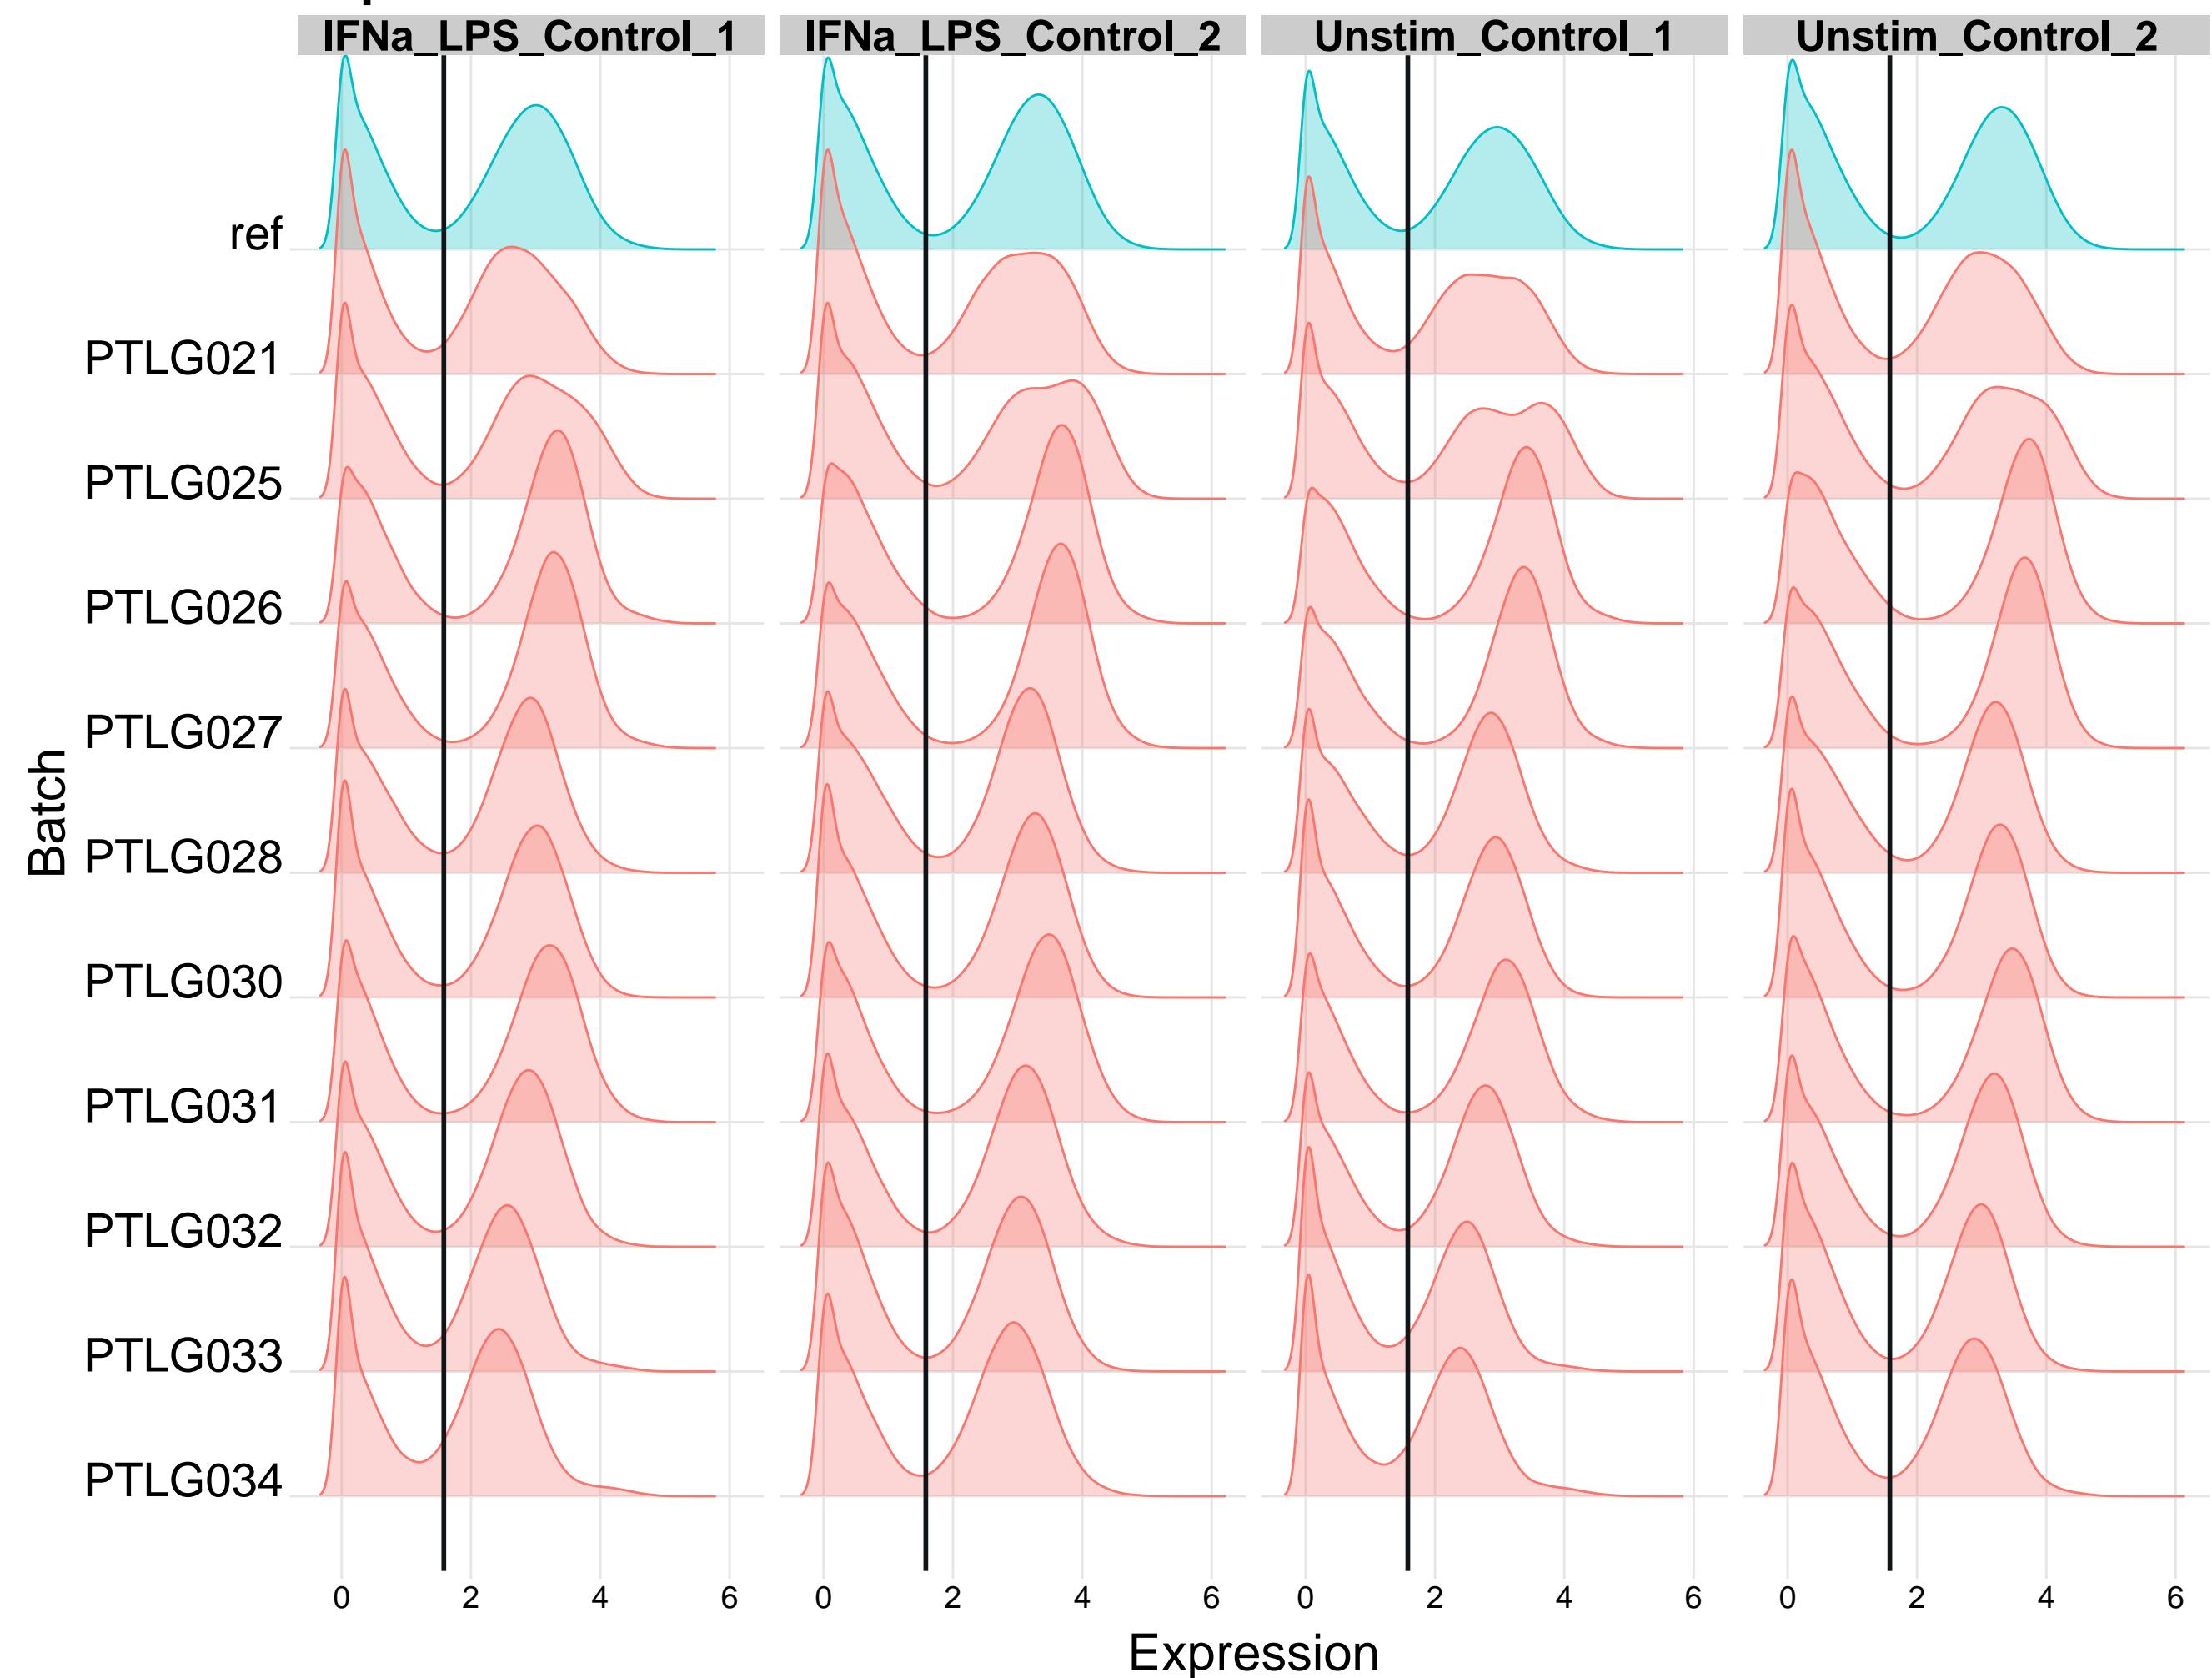

Expression densities for CD25 with automated cutoff

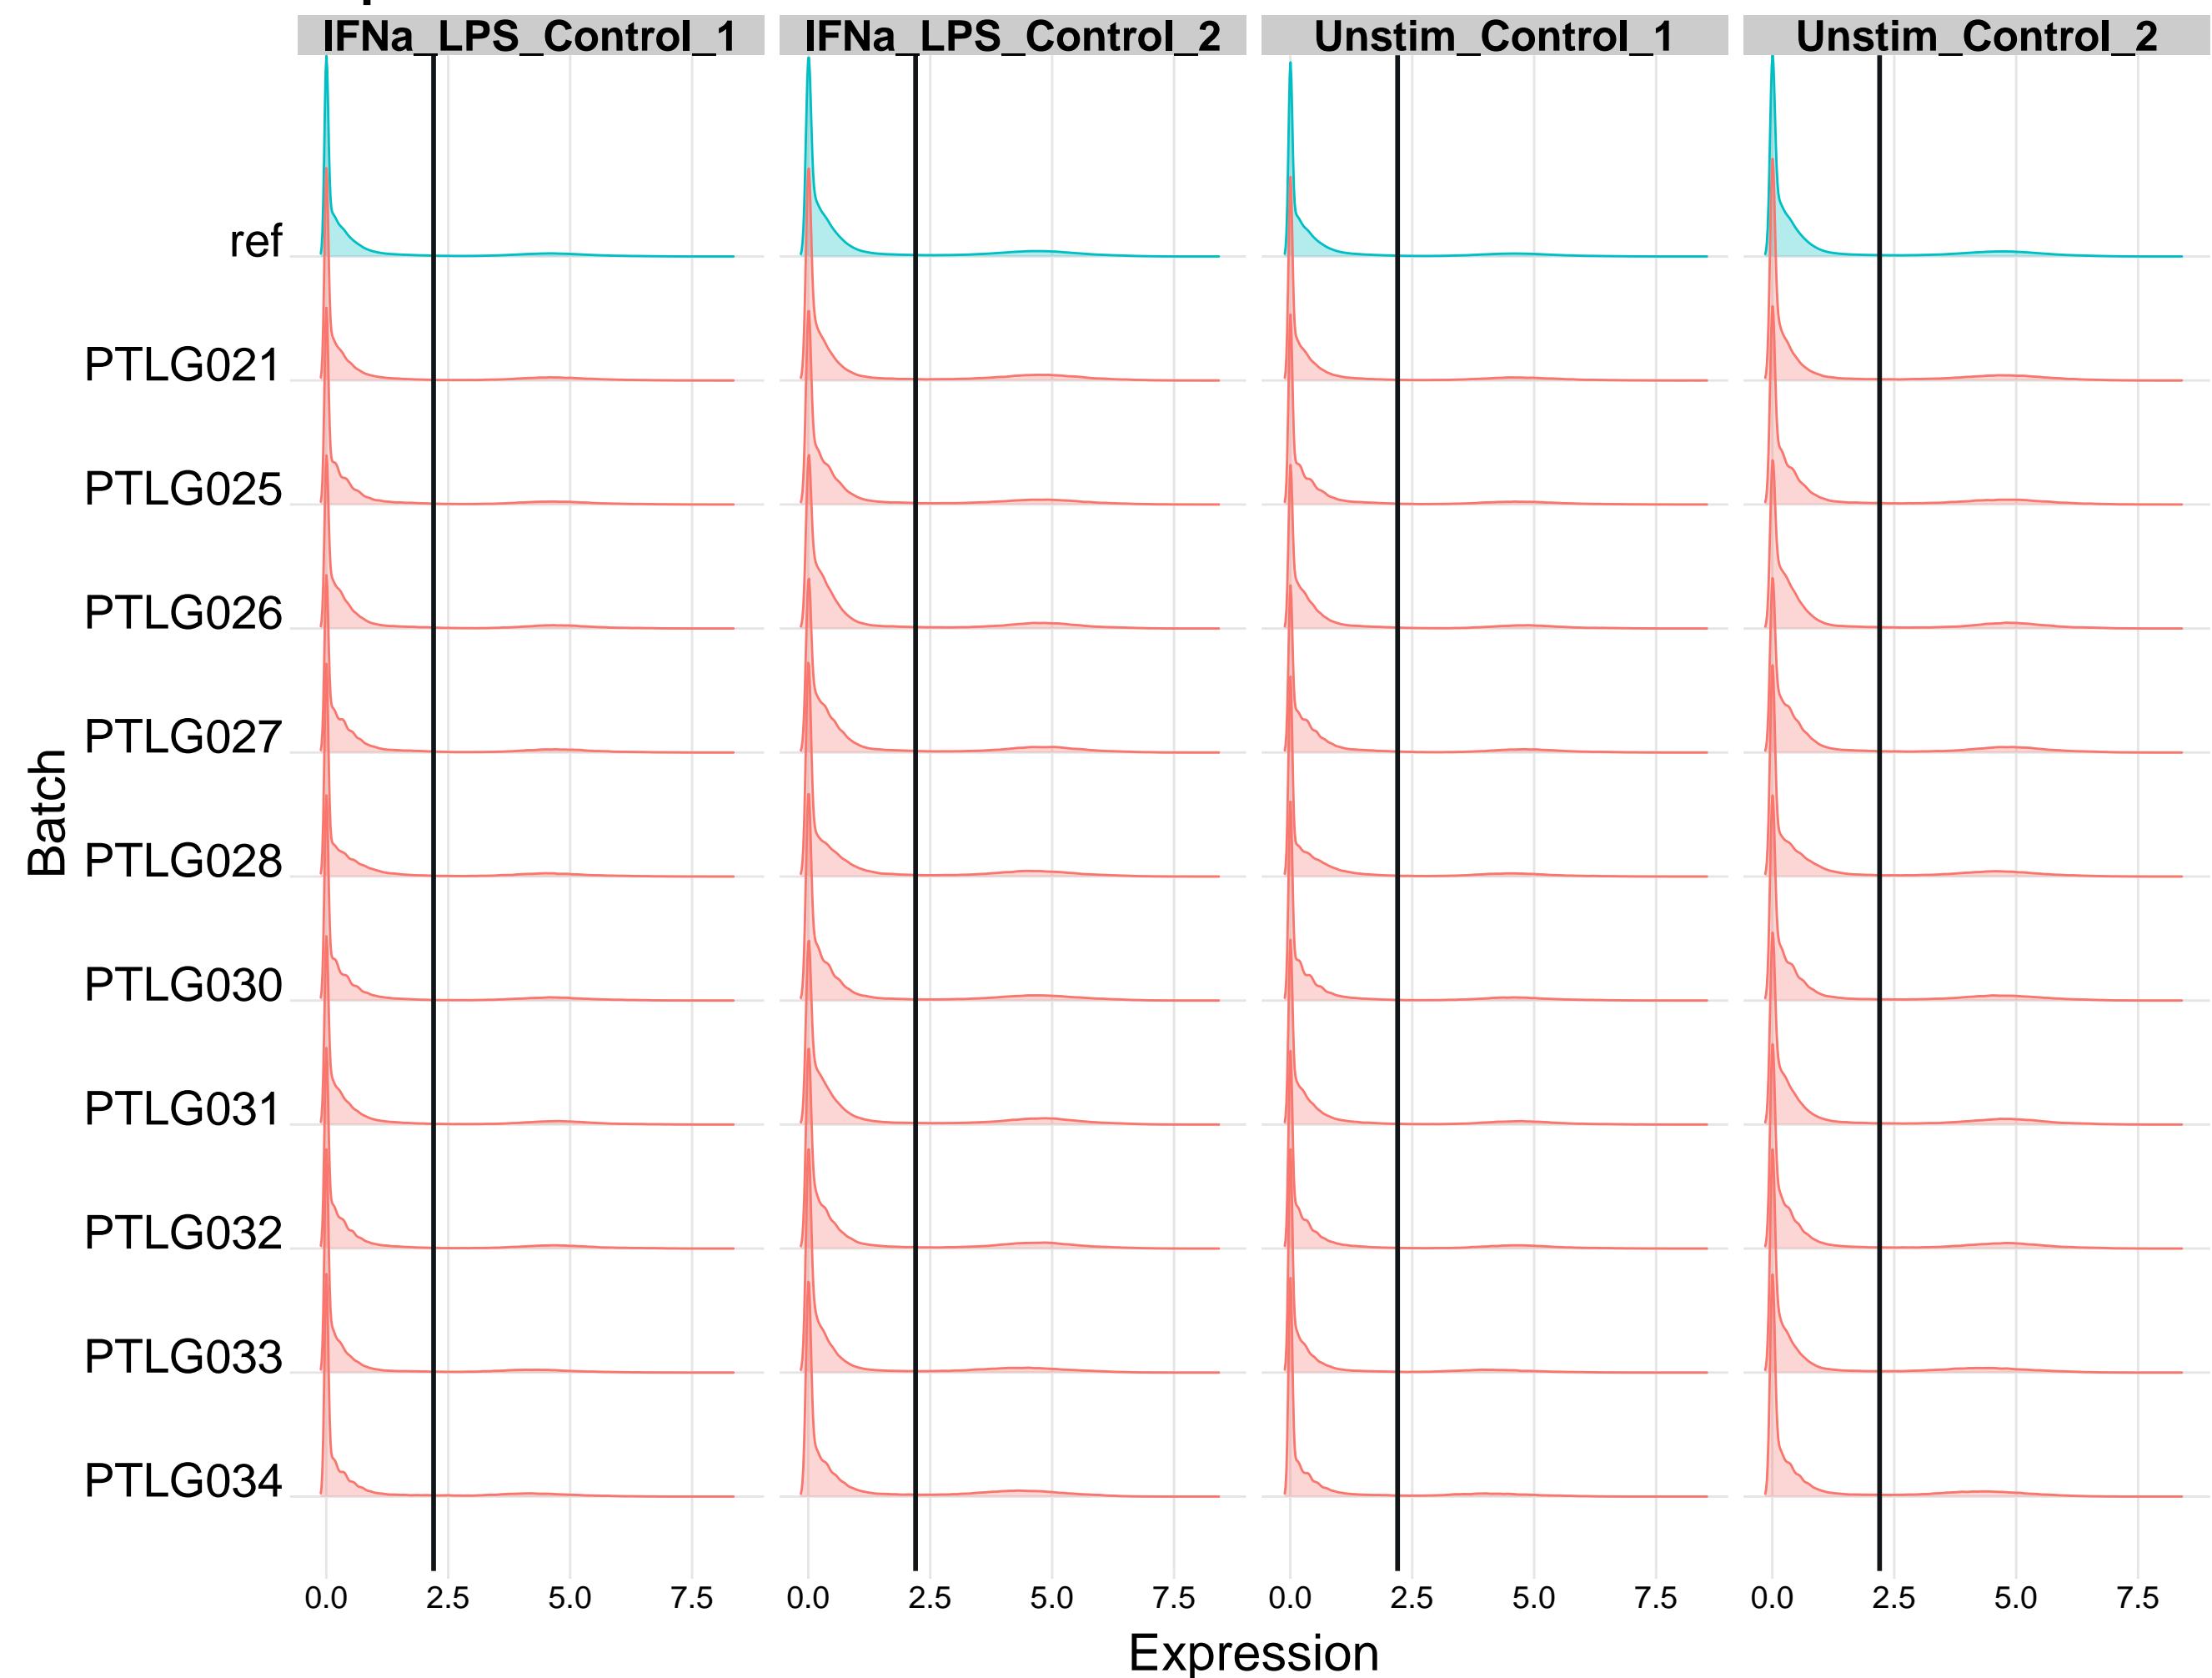

Expression densities for CD3 with automated cutoff

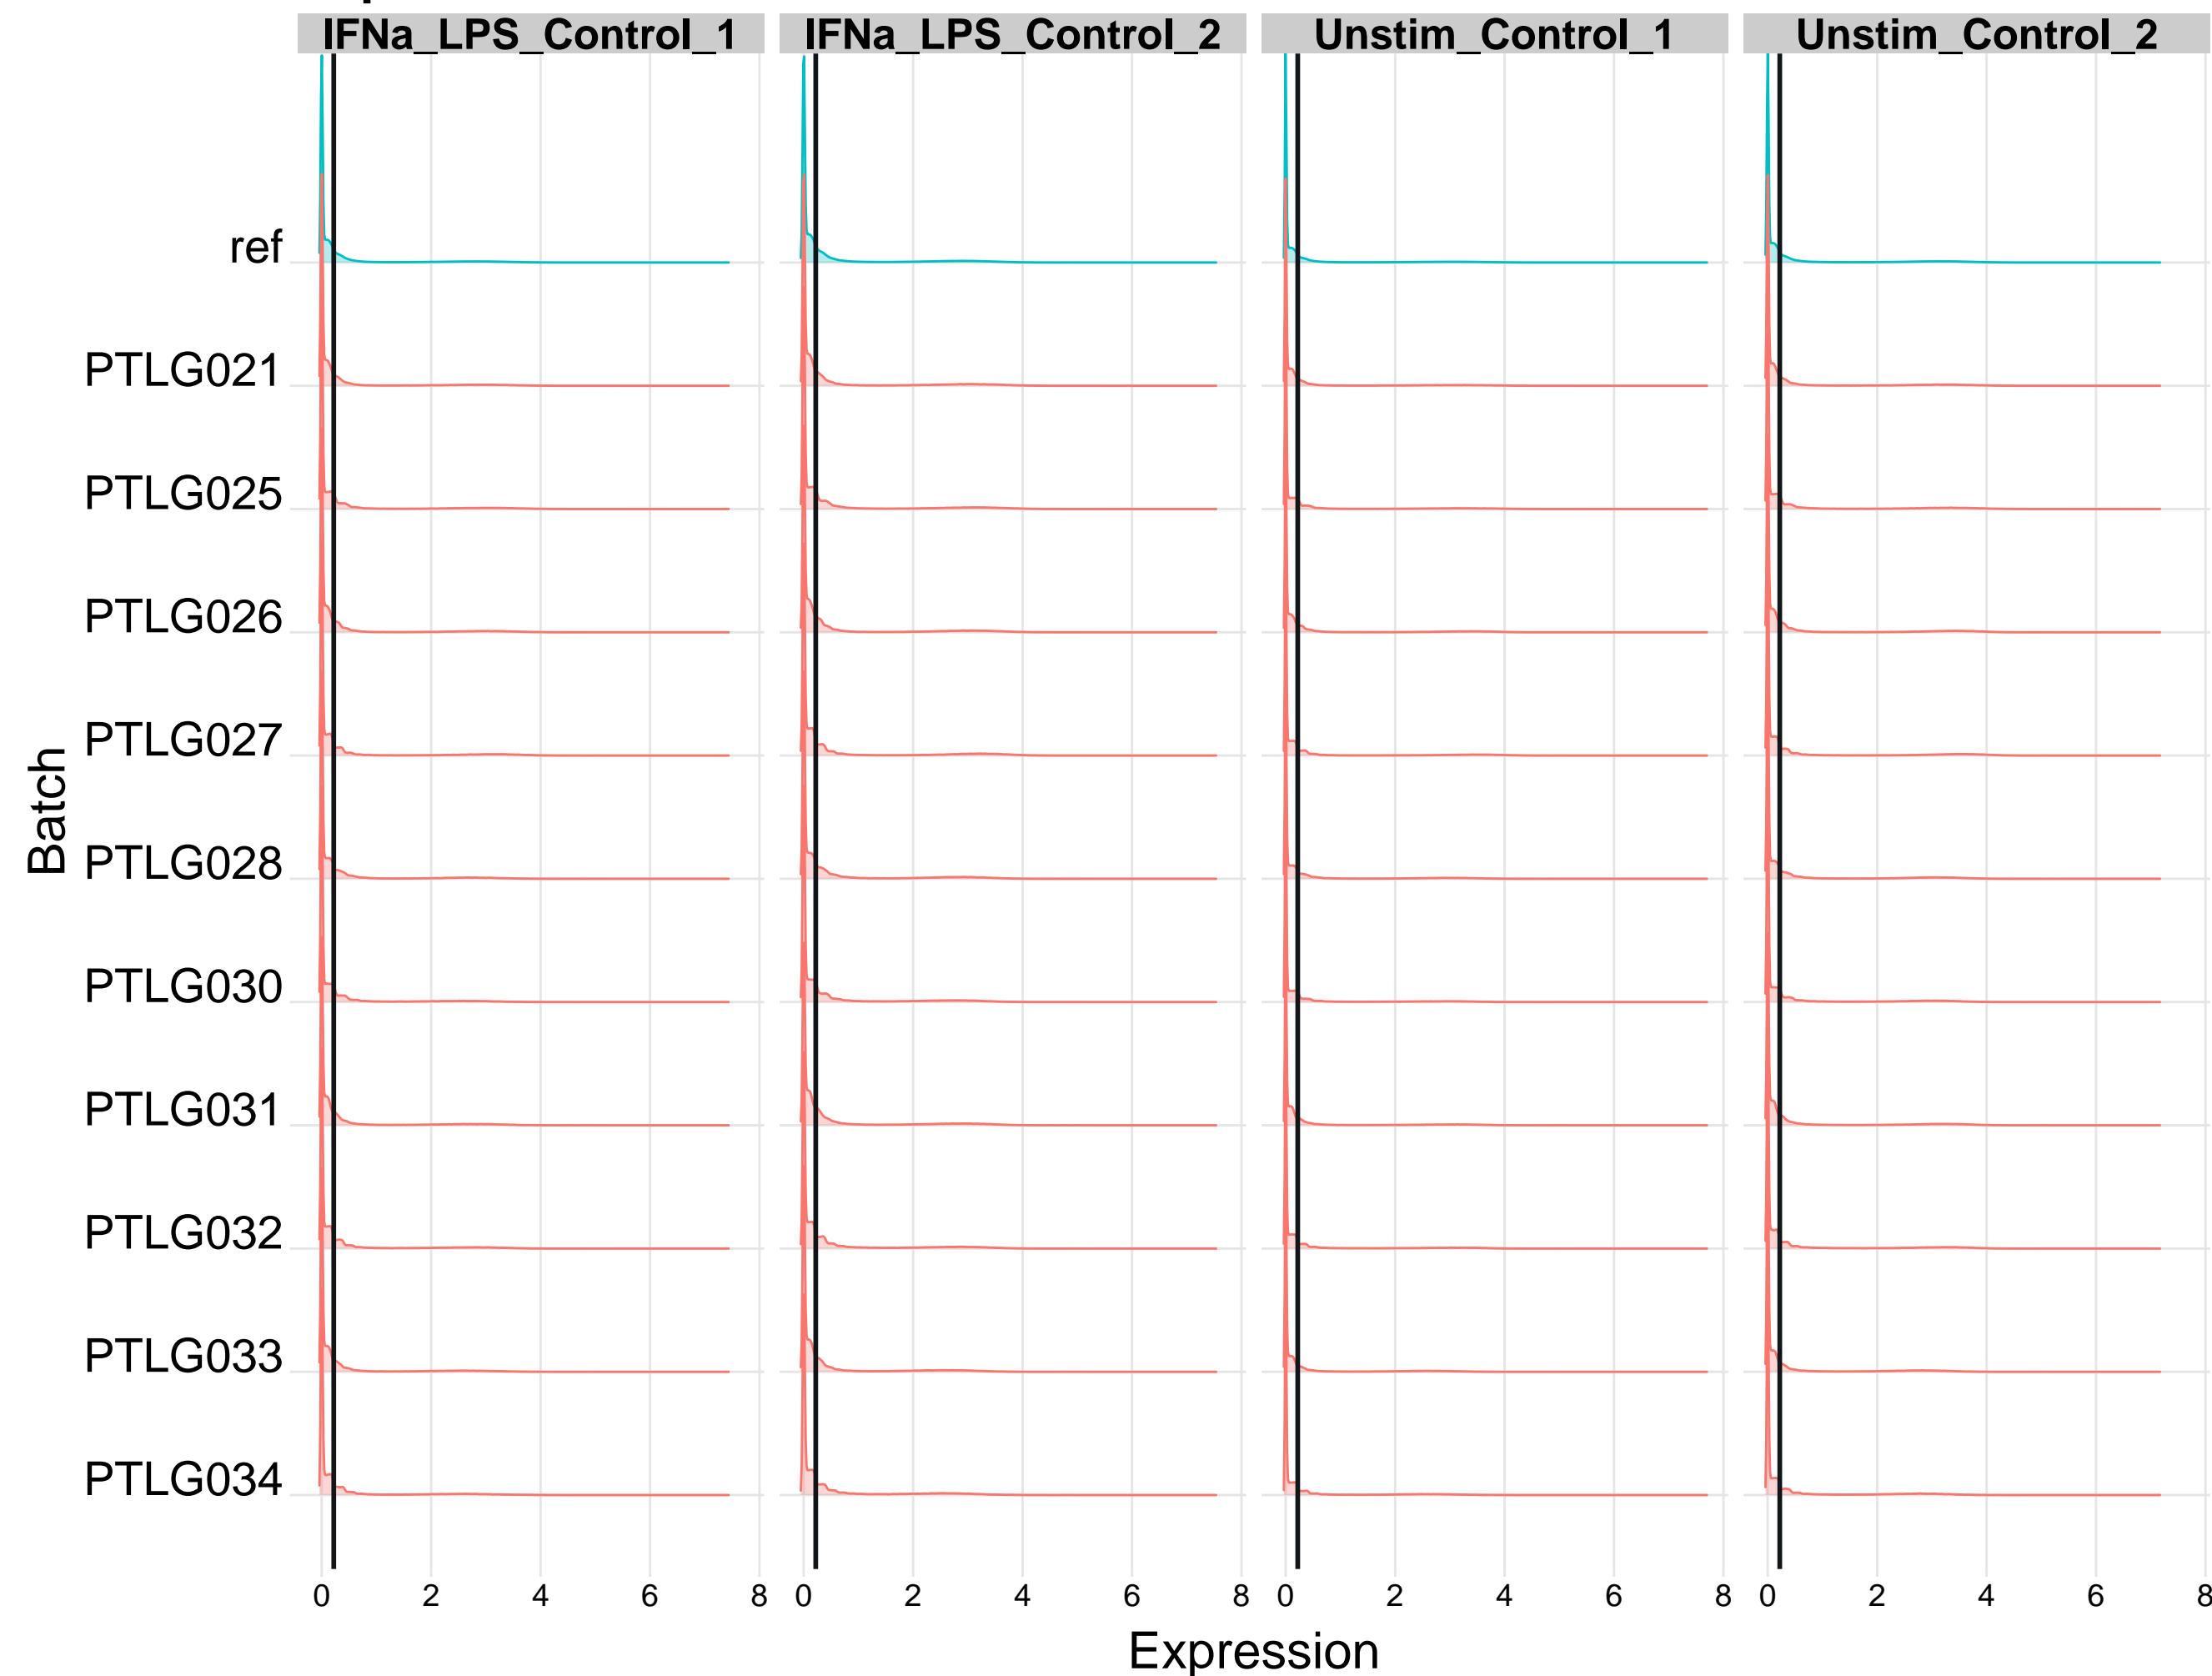

Expression densities for CD15 with automated cutoff

Expression densities for HLADR with automated cutoff

Expression densities for CD14 with automated cutoff

Expression densities for CD56 with automated cutoff
